35 year old NEW Lafayette 9 volt battery still wrapped, mint, museum
piece, NO leakage.
Popped pin size probes through the wrapper to test voltage. STILL
has 9.2 volts!!!!

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=3028081469

Johnson Transceiver tester, near mint. Like the one you had or the one
you wanted in
your younger days.

>

Those frequencies aren't just empty bandwidth. They are allocated to
various services.
Forest ranger comms and such. You might not hear them (they use low
power) but
they certainly hear freebanders screwing up their channels. Also
there's some military
channels in there as well. Can you say "homeland security"? Oh, they
don't do any
classified comms there, but they still do lots of routine unclassified
stuff.

What can you do in the "freeband" that you can't do legally on ten

meters as a properly
licensed ham? And if you get the ham license you can use other bands
like 20 or
40 or 80m when the sunspots are down. Oh, you need to pass a morse code
test,
but that's at 5 words per minute nowadays. It ain't that hard, I did it
and I'm not that
good at brain reflex tasks.

As for being under the government's thumb, the FCC doesn't really bug
most hams
at all. Only if you make a habit of doing annoying illegal things do
they do anything.
Rules about "no business traffic" are really to protect our frequencies
from getting
hijacked by companies looking for comm channels.

>We are good operators and have knowledge of propagation and skip conditions.
>

You'd then know that the "freeband" goes dead between sunspot cycles.
 Other HF ham bands
have decent propagation between cycles.

>We use Yasus, Kenwoods and Icomm radios just like you do, so we know technical
>issues as well or better. However, the attitude of some hams toward us is
>rude and condescending. We are treated like 2nd class citizens. This should
>not be. We have the same rights under the constitution as legal hams do.
>
>

You have the same rights to take the ham radio tests as hams have had.
 So study up and
take the damn tests and if you pass you can be legal on the ham bands.

FS: Like New Icom IC-775DSP
This radio was a backup to my IC-781 and has had very little use. It looks like a new unit. The serial number is 01637 and it has at least one optional filter and one other optional accessory (the high stability crystal oscillator, I believe). I am asking $1895, shipped in the continental United States. Thanks and 73!

If you mean besides playing music and otherwise interfering with other stations, running excessive power levels, and trying to impress everyone within range with your extensive vocabulary of obscenities, the answer to your question is, "Nothing."

>I am posting here because of some of the nasty things I have read in this
>group and in QRZ discussions regarding freebanders. We who use the frequencies
>from 27.405 to 28.000 have more in common with hams than you might think.
>We are good operators and have knowledge of propagation and skip conditions.

Congratulations. Now, how about learning the finer points of operating according to applicable regulations?

>We use Yasus, Kenwoods and Icomm radios just like you do, so we know technical
>issues as well or better.

But apparently not the proper way to spell "Yaesu" and "Icom"...not that this is all that relevant to the point you're trying to make.

>However, the attitude of some hams toward us is
>rude and condescending. We are treated like 2nd class citizens.
>This should not be. We have the same rights under the constitution as legal hams do.

Correct. However, it isn't the Constitution that grants hams the privileges that our licenses grant us. Nowhere in the Constitution nor any of its Amendments does it mention anything about ham radio.

Notice if you will that I am saying "privileges" rather than "rights" because I believe there is a difference.

Furthermore, along with rights (and privileges too, for that matter) come responsibilities, including the responsibility to operate your equipment in accordance with applicable regulations when you exercise your privileges to operate that equipment.

In fact, if you are not licensed to operate from 27.405 to 28.000, then you have NO operating "rights" to be there at all. Thus, you relegate yourselves to the status of second class citizens by demonstrating to all who care to observe, that you have no respect for the law. This is why you get verbally b***h-slapped, not only by hams but also by law-abiding 11m CB operators, every time you sound off about operating where you have no business being. We're not trying to be rude. We're not trying to be condescending. We simply perceive that you, unlike the majority of us, fail to understand that if we carry your logic to its fullest exdtent, the result is absolute anarchy. The rest of your post - and my comments added below - more fully illustrate my point:

>For those that do not wish to be under Uncle Sam's thumb, freebanding is
>a viable alternative to getting a ham radio license.

For those who do not wish to be under the thumb of the Internal Revenue Service, robbing banks and liquor stores is a viable alternative to getting a job and paying income taxes.

> What I am saying is
>that maybe the next time you meet a freebander it might be wise to talk with
>him before you condemn him.

I'm not necessarily condemning you. I am condemning your illegal activities. I'll leave the business of condemning you to the legal system if you're ever court - it's their job, not mine.

How do you feel about Tim McVeigh, Jeffrey Dahmer, and John Wayne Gacy? Most decent people condemn their actions. Perhaps you do as well...they were all mass murderers. Have you talked with any of them first before condemning their actions?

Some of the freeband frequencies actually have licensed users to whom the frequencies are allocated. Here's a question for you: Are you actually licensed to operate anywhere in the RF spectrum? How would you like it if the legitimate users of the frequencies in question here decided to just jump in and use the frequencies you are licensed on because they felt it to be a viable alternative to getting licenses for the frequencies allocated to them?

And please, don't give me any of that nonsense about the frequencies not being used anyway. When you park your car, it's not being used...how would you like it if I came along and decided to re-allocate it for my own use, since you aren't using it anyway?

While we're at it, while you're out grocery shopping and your house isn't being used, I'll just re-allocate your stereo, TV, VCR, microwave, radio equipment, and any money I find laying around for my own use as well. After all, you're not using it right now, and it's a viable alternative to me getting a job and paying taxes and thus being under Uncle Sam's thumb...so by your own logic, you should have no complaints if I help myself, right?

Sorry, dude, but you'll have a hard time convincing me you're anything more than a freeloader who wants to exercise the benefits of living in a free society without accepting the responsibilities that go with them. None of us has the Constitutional right to pick and choose which laws we will obey and which ones we will break...and so just because I have a license granting me the privilege to drive a car (which is also not mentioned in the Constitution or any of its Amendments) doesn't make it okay for me to go screaming through a school zone at a hundred miles an hour just because I choose not to be under the thumb of the local legislators who decreed a 15 MPH speed limit there for the sake of the safety of the kids who attend classes there.

I do agree that the technical proficiency of many freebanders is comparable to even the most competent of hams. However, that in itself will not gain you acceptance by the vast majority of radio hobbyists, any more than the marksmanship skills demonstrated by the Texas Tower Sniper will gain him acceptance from the guys and gals down at the local skeet-shooting club. Having the skills is only half the battle. Now show us that you can apply them properly.

We will be at Ham-Com in Dallas TX (www.ham-com.org) operating 6 meters FM from a PRC-77 and a RACAL TRA-967.

These are man-portable 2 watt units with whip antennas, so this is mainly for those who will be attending ham-com next weekend (June 20,21,22).

We will be on, in order of preference (to avoid interference),
50.3
50.4
50.5
50.6
52.3
53.0
53.9

These should be accommodating for both military and commercial radios. If someone shows up with a crystalled radio on another frequency, we might switch to that one. 51.0 is popular, but it's on the edge of the DX window and the band may be open.

If you have CTCSS, set it for 150 Hz or we won't be able to hear you since we are using military radios.

Patrick Jankowiak

** Read in Reverse **

Take a look at the Product Review guide lines published on the main Product Reviews page in the managers side bar.

Customer service issues/problems are not reviews of a product (QSL cards).   Note however that if a review does review the actual product comments regarding the manufacturer, vendor, etc. are OK. But the review should primarily be of a product.

eHam's Forum has an area "CompanyReviews" that is used for discussing pros/cons of dealing with vendors, manufacturers, etc.

After receiving this email from Phil, my review about Octavia was again removed.

So.. I read eham.net guidelines, and posted again.
It is very difficult to review a product, if you never received it in the
first place.
Reviews should include from the time you spend your money to the point in
time
where you actually receive the product. Most vendors charge your credit
card
when the item ships, not at the time of purchase. If this was done I would
have
had time to dispute this with my credit card company.

Eham reviews are about as fair and informative as the QST Product Reviews. ANY publication or website that receives advertising $$$ from a vendor is biased regardless of the vendor..........end of story. Plus, Eham will take reviews and post them from every dim-wit that doesnt know a damn thing about radios or electronics.

When's the last time you saw a scathing negative review about a Yaesu, Icom, or Kenwood radio in QST?..............Like, never.

WHAT IS FAIR?

If you will look even closer youll find that most of the reviews are just ramblings by whoever feels like writing about something, and its strictly thier opinion,(now boys dont get upset, "opinions are

like...well you know what they are like) and rarely based on solid
evidence (which does not include MFG'rs specs, they rarely indicate
actual operations and are usually 'lab condions' YEAH! " Its very nice
to know what everyone thinks about all the gear,(who do YOU trust?) but
you still have to filter that through a lot of personal opinion and
likes and dislikes. Most of us who buy sell and trade a little, know
that the BEST RADIO is the one you just got!! And the worst radio , is
the one that broke on you, even though it has to happen on new and used
gear alike. If it breaks a lot, thats when it should be "shot at and
hit!" Another thing , and not my favorite for sure, about
Ehum.....they call a guy who buys and sells and trades as part of his
version of the hobby, a dealer and leave you poor suckers to deal with
a one timer who doesnt know a 9 from porcupine, and has no real reason
to treat you right. Bottom line as I see it is...."Its my website and
I set the rules" , thats ok but it doesnt necessarily make a great
website in my opinion. I give radios to starting foreign hams, help
blind and handicapped in this county A LOT, and mostly get grief from
EHAM and some others. WAHHHHHH!!!! So my editorial is through for the
day...EHAM is a GREAT SITE, but no ones perfect, or even close!! 73

Well I look at the reviews as being (for the most part) real world experiences that have been shared with the community. Sure, someone can pump sunshine re a product and conversely sling horse manure about something else. I look at the overall consensus and make my best assessment from what has been shared already. I am sure 99% of us look at the reviews this way.

I should hope so. I reviewed the Elk Antenna 2m Log Periodic.

John

Hams seek to learn the law and to use what they have learned and been tested on. "freebanders" ignore the law and choose to look the other way when they blindly stumble across a law that they are in violation of.

THats right Paul, very true, and then they take advs from honest and well know traders and dump them because they are "dealers" right!! Money talks, everybody else walks...Eham is a nice site but they can KMA!! It thiers, they can run it ....eventually...into the ground like many others have.   "Mad Dog Murray" !iH !iH

Freebanders have a strong need to be noticed - trolling the Ham newsgroups and generating lots of noise provides the same thrill that drives them to exhibit similar behavior on the Ham bands. They know that they are lawbreakers - that is what makes it fun!

These guys have a pathological need to rebel against the establishment - and they need to tell the world about it! "Look at me!", they are yelling - and they need us to listen. If they wanted to be Hams, they would be. They have the technical ability to operate (and even modify) radio equipment, and the inclination to learn how - just like us. For them, however, it's much more fun to annoy others than to join a community. And, just like radio, the Internet provides a place to hide while committing these 'brave' acts of defiance and individualism - have you ever heard one of these guys articulating their views at your local club, or a Hamfest? That would require a journey out of the comfort of the darkness that these folks need to empower them. As well, the possibility of being held accountable for the laws that they wilfully violate is too much for these brave souls to face - I suspect that there are few Nelson Mandelas in the Freebander ranks.

As Hams, the wisest thing that we can do is to not get suckered into flame wars and discussions with these folks - this simply encourages similar behaviour in future. Ignoring them on the newsgroups denies the gratification which they crave. Do the same on the radio - follow standard procedure for handling QRM. When we acknowledge the existence of someone creating QRM, we are creating QRM ourselves - and we encourage the offender to do it again, as the desited result was achieved. When we ignore those offending transmissions, we cause the offender to question whether his equipment is working - did his signal get out there? Did it interfere? Did it disrupt communications? DID ANYONE HEAR ME ??   Maybe - but doubt has been created, the conversation that was supposed to be interrupted continued as if the offender did not exist - and the fun was removed from the act. We can do that here on the newsgroups too by not responding to posts from these folks. Like the tree that falls in the woods with no one around (and hence, makes no sound) - if we all ignore them, then they don't exist. They are there because we acknowledge them, plain and simple. All parasites die when denied a host.

Ignore the QRM, and continue to report all offences to the regulatory and law enforcement authorities. Log them, tape record them, triangulate / locate them, identify them - but do it quietly, and deny them the ear that they so desperately need.

We should be part of the solution, not the problem - that's what being a Ham is all about!

Pat

Skipp,

I owned one of these radios. It worked great except for one thing...some antennas made it overload the frontend of the radio. If I used my long wire, it was not a good match. I switched to a discone antenna with a whip for HF frequencies and that was an excellent match for the 1000.
Just my experience....

Keith KD4AVP

I'm looking for a couple of mobile rigs - preferably 2m/70cm dual banders.
Relatively recent rigs with tone and the like needed. I could also use a
6m rig, maybe others. Let me know what you have! I have quite a lot of PC
equipment - from hard disks right up to whole systems (Pentium 3 or
better) - available for trade. Due to my trade, I could even work out a
deal on new PC hardware, although there isn't much room for discounts in
this industry anymore.

If you have some extra radio gear around and find it's time for a PC
upgrade, please contact me directly via email to jlemay@njmc.com.

thanks!

I am having the same problem here as well as a friend also. Have not had much time to play with the PCR-1000 but I have just noticed the distortion on the local ham and law enforecement repeaters. Other modes appear fine and I have copied HF WEFAX out of New Orleans ok using just a group plane mounted two feet directly above the antenna. I will be experimenting with a outdoor mounter discone this weekend. Would anyone know if the distortion is there using Bonito 5.0? I am using 4.5. Interesting to note: the distortion is not there using the Icom supplied software or the PCtalk version. Let's keep this going. I would be most interested in anyone's success in using the PCR-1000 for satellite use. Thanks. pcox, K4AVO (All-Icom)

There are 3 John Rea listed for Alpena, but all the search engins listing them charge for more than finding the name. What happened to the good old days when you entered a name and came up with both athe address and phone number?

You can read about everything I tried after being ripped off for $ 650.00 .
Check it out on my web page under Scams on the Swap Pages.
http://www.k5joe.com
You might as well kiss your money good-bye. No one will help. The FBI, US
Postal Inspectors, or the Local PD where the scammer lives. I tried them
all.
Buy from the regulars that post on rec.radio.swap often and usually you will
be safe.

I'm also getting the shaft from Ebayer APCOMIC@AOL.COM. Fortunatly I used a
credit card with protection...But I want to prosecute!!!!!!!
I delt with Shaun Allen before and had a good deal, but now I'm NOT. \$6??.00
worth of no e-mail responses. The first transaction is the only way I got
his name and address, but the sherriff is checking to see if some kind of
identity theft took place before I persure.

I'm not so sure about Ebay anymore.....

Hi all, here is something that I have heard form a few people,
including a guy at HRO..

Might this be true??????
Anybody do this or know about this being done???

On the ADI AR-247 220 MHz radio
is it possible to mod it with a few switches to make it
do 144 MHz and 440 MHz???
I doubt it but then there are the stories I have heard.

Thanks

Tried contacting your own local Police Department? I had a problem once. I contacted the local boys per instructions from the Police in the area the person lived. I also contacted the Post Master Generals office in my own area. They told me to file a report with them and they (PMG) would take care of it. My problem was solved.

Try contacting others in that area, try the ISP of the person for info, A CORRECT NAME and so on. Some of the things may be long shots. $650 is a lot of cash to lose. Also try contacting the Attorney Generals' office in that state. You can usually find them on the web doing a search of state web sites. Lots of luck...

Try to file a lein on any personal property this bum owns.
Most of the time you can file the lein by mail.

He can't sell his house with a lein on it, no one will buy it that way.

The lein may just get his attention and get him to mail the funds back.

You can't just file a lein without a court order - usually requires a court case with a decision in your favor.

>The lein may just get his attention and get him to mail the funds back.

I think the correct answer is to file a small claims suit.

Exactly - as the man said, you need to file a suit before a lien is placed.

I am AMAZED at the free legal advice available on a radio swap group.

DAMN, it's a wonder anyone goes to law school any more.

re: Icom PCR1000 garbled audio problem (narrow band fm mode)

-

Hello there,

-

Just a quick bit of feedback... Last week I posted a garbled audio problem with an Icom PCR1000 receiver.

-

I traced the problem to the Bonito Software supplied with the unit. The fix is to down load the latest Icom software from their web site and use it. The Bonito software seems to have a bug or two... it appears to me the bandwidth filtering doesn't appear to switch properly.

-

I'm happy with the preformance of the Icom software, it would be neat to have the Bonito Software work, but I'm sure you'll have to purchase and upgrade to get things on the road as expected.

-

The 200mW audio from the receiver is kind of puny, but it works and will drive larger power amplifiers/circuits.

-

OK, that's about it...
cheers
skipp

Look at the changes at the Museum, It's going nicely and adding daily.
I have gotten comments and equipment from at lease four states.

Look at how it's coming this is the first day
http://community.webshots.com/photo/50669411/69514174MuHlXy

As a member of the Pennsylvania National Fire Museum.
http://members.aol.com/JCW37/FRmuseum.html

I am setting up a communication display. I want you folks to look in
your junk draws. And send me some old non functional control heads,
or dash type radios. I have a corner assigned to me. I have costume
built shelves and will mount all type and brands of radio heads. I
will have some stored old audio coming out of these speakers.

Please take it as a gift to the museum and cover the postage. I would
like to see all types and brands in this display.

Richard E. Lenker
3540 N 6 th St
Harrisburg, Pa. 17110

Or
The Pennsylvania National Fire Museum
1820 N fourth St

Need to clear out some radios - so I can buy some new ones ;>)

Kenwood TS-520S Station: $275
Includes: TS-520S Trasceiver
VFO-520 Remote VFO
One spare set of balanced finals.
Yeasu Dynamic Desk Mike
Add-on Digital Display (Not DG-5)
Has User and Service Manuals.
This transceiver works very well and still transmits a good 100 watts into a dummy load as measured by a Bird 43 watt meter.

Alinco DX-70T Transceiver: $325
Includes: 15 foot Separation Cable
Hand Mike
Has original box & User Manual
This transceiver works very well and transmits 100 watts to a dummy load as measured by a Bird 43 watt meter. 6 meter transmission was 9.7 watts.

Icom IC-Z1A 2M/70CM HT with Maha 45 Watt Docking
Station/Amplifier: $250
Includes: Two BP-173X, 9.6 volt/1000Mah Nickle-Metal Hydride batteries - these are the ones that don't develop memories.

Has all User Manuals
HT transmits 5 watts with charged batteries on 2 meters
and 3.5 watts on 70CM.

All equipment is offered "As-is" to protect myself from golden screwdrivers.

FS: Tel-Link Radios (10-38GHz)

I have for sale 10 different, some pairs, tel-link 10, 15, 23 & 38 GHz boardband Microwave radios. They are in box, most of them. Two have splits that would make a pair at 10.5GHz. These are high quality with bandwidth from 5-40MHz allowing multiple T1 lines or 1 DS3 line transceive.. Photo upon request. Best price for some or lot. I have 12 total available.

I have a Leader 315A Portable Oscilloscope to sell
(Briefcase Size). I have More Radio Testing Equipment than I need
here, But the more I'm moving stuff, the more I find I really
don't need here...
I got this scope about 2 years ago, and have never ran on the

External Battery, but It Hold a good charge, and the Scope is Fine.
It has the Case, Probe, Manuals, Everything that came with it...
Drop a line if your interested?...
Asking $250.00 for the Scope, I got it at a good deal, and I'm not
looking to Make money, just trying to get something out of it!...

re: Motorola UHF Saber / Sabre Portable for sale.

Hello there,

A Commercial Radio friend of mine just asked me to list and sell his personal Motorola Sabre / Saber UHF Portable. I'll try a listing here first, then off to Ebay if no one is interested.

As most of you know, it's one of Motorola's high end portables. This unit is clean, from memory obviously more than 10 channels when I turned it on, a right hand radio (yes, they made left hand units) and in the UHF Band. The battery is very fresh and I believe a charger is included in the deal. He is a big GMRS guy, so this unit currently has 462.725 type repeater and talk around frequencies entered.

I have no idea what this radio is worth... but he was trying to ask $300
for the entire package. If that gets your motor going or you'd like to
make an offer, please drop me an Email.

Please use the Email address below for your questions related to this post
only. Please no spam.

I'll try to field your questions quickly if you simply drop me a note.
Thanks for reading this... both my friend and I have lots of references
and all positive Ebay feedback you're welcome to look up.

cheers
skipp

Hi John!

Well, have run two different linear amplifiers with my 756pro. Presently using an Amp Supply LK-450 amp. One 3-500Z with a tuned input; about 850 watts CW. The current draw is fine for the internal relay. I also have run an old B&W L-1000A amp. Two 813s with a soft key kit and T/R relay added. It's BIG! Matches OK and about 650 watts CW.

The current crop would work OK as well... The Ameritron AL-80 series is similar to the Amp Supply, with the addition of ALC from the amp to control overdriving the amp. If money is no object, the Icom PW series is the cat's meow! Just about all modern (last 10 years or so) have low current requirements for the TR relay (756pro will not handle more than 200 milliamps). If the amp needs more, an external relay with low current draw in the circuit would take care of it. You DON'T want to run too much current through the internal relay; it will fuse shut and they are expensive to send back and have replaced.

Hope this helps!

Be careful with the older Henry and Alpha amps. I use an Alpha 76A, but it required a switching module and that works fine. Originally I just hooked the Alpha up and the first thing that happened was the relay stuck shut. I took the cheaper route than replacing it. I whacked the side of the 756Pro with my hand. The relay opened back up and that was three years ago. The thing is still working fine.

I'm looking for a Drake R4C in excellent condition. If you have one you'd be willing to part with, please email me at jcamp2@cox.net.

I also have an Alpha 374A HF amplifier for sale. The amplifier is in excellent condition and is currently in use and performing beautifully. This is one of the models with bandpass tuning, which basically means you just select your band and start talking. Asking $1300 or would consider trade for an Ameritron ALS-600
plus cash. I've acquired an Alpha 374 and the 374A is surplus.

Thanks and 73,
Jeff
N0WJP

In original box. I can't test, but I'll
guaranty it not to be DOA. $65 + ship. from 98226.
The caveat- I'm leaving for a trip on Friday, so payment will have
to be USPS money order sent on Monday via priority mail.

Ethan

I just took in a National NCX-3 80-40-20 SSB, CW, & AM rig with power supply. Radio powers up and seems to transmit and receive, definitely not DOA.   Sell or trade - best offer plus shipping.

Heathkit SB-634 phone patch / SWR meter / Timer. This unit also powers up and the digits light on the display. Otherwise Untested.
Sell or trade - best offer plus shipping.

For Sale: A Radio Shack 25 amp switching power supply in MINT
condition. Only used a few months. Went "solar" with one of my set-ups
so I don't want/need it. I do believe these are mfg'ed by SAMLEX and
RS puts their own name/model # on them.

Nice quiet fan. No meter. Output's on back. Illuminated red switch.
Flat black color. Very nice.

$75 and I'll pay the shipping and postal insurance.

First e-mail or phone call gets it!

I have for sale a brand new Kenwood TM-V7A dual band mobile fm transceiver.
This radio has NEVER been removed from its box. I bought this radio from
AES and had intentions of
installing it in my car. I installed a 706 MKIIG instead. This radio is as
it was shipped from the factory and has been sitting on a closet shelf
factory fresh since it was purchased. I am asking $350.00 shipped CONUS

Recently acquired via trade, a PCR-1000 (U.S. version) w/DSP, purchased originally in 12/02 and guaranteed not to be DOA. Radio is in absolutely mint condition. Original box, manual, antenna, power cube and Win 98/XP/2000 burned to CD included.

Asking $300.00

Please e-mail off list if interested.

Thank you,

John, KB2COP

Some answers to questions you might have...

1- The battery is original and has very little use. I purchased the H/T more for listening than transmitting. It is a BP-173, 9.6v and 650mAh.

2- The radio has never failed and I guarentee it to NOT be DOA.

3- The radio has been babied, it has never been dropped and never in a smoking environment.

4- The radio serial # is 14684. It is in as new condition and, with the exception of clear packing tape over the display lens, there are no marks/dents or scratches on the radio.

The radio will be shipped in the original box with the original manual, quick reference card, wall charger, stock duck antenna and wrist strap.

5- I am selling the radio to help defray the cost of a Kenwood TH-D7A(G) I just purchased.

6- I don't have access to a digital camera, I cannot provide photo's.

Although I haven't sold many things, I have a good eBay rating (see NPDXO) .

$190.00 + shipping from 11786

Hi all, I had this amp on ebay and after one day they killed the
auction. Seems they don't allow ANY amps that can tune from 24 to 35
MHz.   So now it's here...
It is for the 10 meter ham band only, it is illegal to transmit with
this amp
on 11 meters but you can use the receive preamp there!!!   It works off
a 12 volt power supply or it will work in your car also. It has a low
power / high power
switch with a high power LED, RF LED (lights when in transmit) and a
receive preamp switch with a receive amp LED indicator. The receive
preamp works very well pulling in those weak signals on the fringe. The
transmitter amp works
very well also. It is excellent condition. Not much more to say about it
other than it is in perfect working and looking order.  Will NOT be
DOA!!
If you would like to see the pictures, just e-mail me direct and I'll
send them to you.
I'm selling this amp for $99.95. You need to pay for shipping
I will be packed very well and insured.
Please feel free to check my Ebay feedback.  You will see 343 positive
feedbacks with no negatives.
Do a search on "sellers" then look up spock-
You need to put the dash in.

also, while you are there please check out my other auctions.
Thanks for taking the time.

Hello all,

I have for sale a Heathkit DX-20 CW x-tal controlled transmitter, 80-10 meter coverage. Includes (2) 80 and (1) 40-meter crystals. Transmitter operates and is in excellent, clean condition with little to no blemishes.

Appearance is a 9 out of 10. Non-smoking ham, I take great care of my equipment.

Asking $75.00 for the radio and buyer to pay shipping, insurance.

Please make an offer, contact Denis, W1WV@attbi.com or work tel:
1-508-235-2012

Hello,

I have for sale (2) Gonset radios both in working condition but have been sitting on the shelf awhile collecting dust. I have upgraded my shack to solid state and selling. Non-smoker ham who takes great care of equipment.

1) Gonset Communicator-IV 6-meter AM transceiver with assorted crystals (50.1 through 50.4 MHz). Unit is VFO receive and crystal transmit. Unit operates, includes manual but does not include a microphone. Asking $50.00

or best offer. I have used my Astatic D-104 with this radio (plug has to be a 1/4" three conductor type).

2) Gonset Communicator GC-105 2-meter AM transceiver with crystals. Includes microphone and manual. Radio is mint condition, asking $50.00 or best offer.

Contact Denis w1wv@attbi.com at 1-508-235-2012 (work tel.) if interested.
Buyer will pay for shipping and insurance.

73,
Denis

Hello,

I have for sale a new, but never used, Radio Shack HTX-10 25 watt, 10-meter mobile transceiver (covers 28-29.7MHz AM/SSB/FM). I bought this unit 2 years ago and never used it for mobile purposes. I do not have the original packing materials. Radio includes microphone and manual. Asking $85.00 firm and buyer will pay shipping/insurance.

Please contact Denis w1wv@attbi.com 1-508-672-4324 or work 1-508-235-2012.

73,
Denis

Used and working Autek QF-1A ssb/cw/am tunable audio filter. In very good working condition. No scratches, just been sitting on the shelf for a few years. Selling due to no use for it. No manual but available through Autek's website or used market. Asking $30 and buyer to pay for shipping and insurance.

Contact Denis W1WV@attbi.com for more details.

14khz-29.999.99mhz in clean working order
with copy of Instruction manual
30ch.memory
LCD Digital readout
Usb,Lsb,Cw,Am,Isb(optional) don't have
300hz cw,1.0khz cw,2.8khz ssb, 3.2 am,6khz am Filters
Added 2 fans internal one on power supply and one receiver side
professionally done and it keeps the power supply cool
One minor draw back the crystal oven has to warm up first about 3-5 minutes
and fault light will come on because of oven. Turn off and on to reset fault
light and bit test pass and self test will pass if pressed. Otherwise
receiver works great.
$1000(firm)+shipping but prefered pick up and can demo it.

BRAND NEW Garmin GPS II Plus for sale.

I won it at ham gathering and have no use for it.

Any reasonable offer will be considered.

Mark, K6FG

Have a IC-746 Icom,has UT-102 voice synthesizer, FL-223 narrow ssb
filter, no mic, original box and manual,
the "display dim" feature does not work. Eveything else in radio is as
new. Looks very good.700.00 plus shipping

Drake L-4B amp. Has Amperex 3-500Z tubes and power supply. Looks good
and full output. Will ship in 3 boxes.
Amp, power supply, tubes and glass chimneys. 700.00
plus shipping

Astron VS-35M works very good, looks good. 80.00 plus
shipping

Mirage B 5016 G 2 meter amp 50 in 160 out. Good cond.
I'm not sure receive amp works, or not very well. 150.00 plus shipping

I maybe able to help out on shipping.
N8MKP

I am a smoker, so if thats a problem, don't buy. Equipt last used a few years ago and was working great. Everything sold "as is" with no warranty.
Not interested in trades unless its chevy hi performance parts.
Getting out of hobby.

I have a guyed 70' Rohn 25 tower for sale in E. PA. Comes with:

- 7 10' sections of Rohn 25
- Tubular top section
- Rotator mounting plate
- Base plate for pier pin
- Turnbuckles and thimbles
- Tower base plate for pier pin mount
- Insulators for breaking up guys every 20'
- Guy wire for guying at 33 and 66' at 50 feet from tower base

Asking $590 for entire tower. If you live within 2 hours of Allentown, PA, I will help you put it back up free of charge since I do tower work.

Call Bob/WF3H at 610 261 9137 or email wf3h@ptd.net

(You can look me up at qrz.com)

I have for sale or trade an Alpha 374A HF amplifier with bandpass tuning.
It
does about 1000 watts out in bandpass mode and significantly more when tuned
manually (without exceeding tube specs). Bandpass tuning basically allows
you to just
set your operating band and go. Asking $1300 or will consider trade for
Ameritron ALS-600 plus
cash, excellent condition Swan 600 twins plus cash, or Drake C-Line
twins/L4B. Will split shipping.

Please reply via email to jcamp2@cox.net.

Thanks and 73,
Jeff
N0WJP

Okay I want an amp for 2 meter that takes 45 watts in and putts 100+ output
....

I have a 1U rackmount computer (333 Mhz 168 pin dimms with 32 mb on board
now built in video, serial, parrellel, 10/100 network, support for disk on
chip boot, daul IDE and floppy.)  four fans on case with dust filter. and
power supply.  one PCI/ISA slot to add on to You add your own drives due to
liabilities of used hard drive data.
This would be perfect to put your repeater onto IRLP or any other computer
add on for a repeater.

All offers considered.

Model is H04SDH9PW7AN

Radios are in VGC and come with battery and antenna,only 1 charger
available and it will be available on first come basis.

I was told this radio covers 450-512mhz.
Radios cost NEW $2600 Ea. but you can buy both radios with 1 charger
for $2400.

If you want to buy only one $1250 .
Prices are plus s/h+ insurance.
This wont last at this price so let me hear ya!

Thank you for looking!

I Just read this and HAD to pass it along!..
Jeff

Yaesu will soon be selling the new FT-897, a new HF plus 6, 2 meter and 430 multimode radio.

The 897 will join the ranks of the FT-100, FT 847, FT 817 and the Icom 706, providing amateurs with yet another choice of a "all mode all band radio". Whats wrong with this picture??�

The ham community is forever so concerned that our ham bands are in danger of being taken over by commercial interests and rightly so.�

But where are the comments or outrage toward the manufacturers for constantly excluding OUR ham bands like 222, 902 and 1.2 gig??�

Why?? Because no one uses 222 or that 222 is not used in Japan or Europe? Isn't the US a big enough market that the major manufacturers can add another band or two??�

Look, its OUR bands that the FCC authorized us to use, yet we are at the mercy of Yaesu, Icom, Kenwood and the others. By the way, when was the last time you saw a brand new 222 Mhz multimode radio for sale?? Hey how about it Ranger, Ten-Tec ???�

If one remembers it wasn't all that long ago that we lost parts of the 220 band to commercial interests, in part because the band was under utilized.�

A good explanation was that there were not many radios that covered the 220 band. Radios were expensive $ 300 and we are talking handheld.

Thankfully due to Alinco and Pryme there are affordable and readily avaible 222 FM handhelds and FM mobile rigs, but where are the multimode radios?

What can we do?�

Write to the manufacturers and tell them you want the bands that YOU are licensed for. You want the 222 band included next time, you want a radio that also covers 902 Mhz AND 1.2 gig, and tell them that you should not have to mortgage the house to buy their rigs either.� Look, its your money, but its your bands too.�

Don't you have a right to use them, before..... we lose them ?

Probably not. We're lucky we still get HF radios from Kenwood, Icom, and Yaesu. How many radio manufacturers are gone from the U.S.

market ?

Icom IC-746 with UT-102 voice sysnthesizer unit.
Has FL-223 narrow SSB filter. No mic. Display "dim"
feature does not work, but is lit very well. Just won't
dim. Everything else about radio works like new. The
radio looks like new. Original box and manual.
700.00 plus shipping

Drake L-4B amp. Amperex 3-500z tubes, full output.
Very good cond. With L-4PS power supply. 700.00
plus shipping. Have the Drake 2 pin plug with it. Will
ship in 3 boxes, tubes and glass chimneys, amp,
and power supply. 700.00 plus shipping

Astron VS-35M power supply. Adjustable amp &
vollts with separate meters. Very good condition.
80.00 plus shipping

Mirage B 5016 G 2 mtr mobile amp. 50 in 160 out.
I don't think the receive amp works or at least not
very well. Output fine. 150.00 plus shipping

Dentron Super Tuner plus. Works good, good cond.
100.00 plus shipping

I will try and help out with the shipping on these items.
Located S.W. Ohio 45122

Note* I am a smoker and if thats a problem, don't buy.
All items are sold "as is" with no warranty. Last used
a few years ago and everything worked very well.
Getting out of hobby and only trades I might be
interested in would be Chevy racing or Pro Street parts.
Thanks,
N8MKP

We need to go out and buy transverters for these bands and do it in significant numbers. That serves two purposes: 1) gets us on the bands to protect them and 2) shows the manufacturers that they are missing a potential profit area.

OK Receiver and Scanner Head types.... I've got an Icom PCR1000 audio question to you owners of said beast.

Just got a new one... the Bonito supplied software loads up fine and seems to work pretty well.

My question is about the actual speaker audio which seems to be distorted, poor in quality or just plain bad.   I've thumbed through various modes and frequency ranges... the audio just seems to be a garbled sounding voice.   Yes the frequency selection works... I can pop in the local police with a honking loud signal, but again the audio seems to distort on peaks regardless of the selected bandwidth (set to 15Khz for typical two-way radio fm).

So I'd like to hear your opinions on the audio if you have an Icom PCR1000. So far, compared to a regular scanner.. the pcr audio is not cutting the mustard.

I couldn't get the supplied Icom software to work and I see there is now and updated version on the Icom web site. My next task is to download and try the lastest Icom supplied software.

The Bonito Software looks nice, but it also appears really "busy." Could just be me...

thanks, I'll read your follow up posts here on the news groups.

cheers
skipp

I need a number of these. They can be 2/8 or 16 channel. These are for the ROTC. I am not making a killing on the radios as I will need to program all of them and am doing that part for free.

Also looking for gang chargers for the same radio.

Please email direct and advise what you have and what your price for each with shipping to 03034.

Thanks in advance, John

For auction: Alinco DJ-C5T HT. So small, it literally is the size of a
credit card. See
http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=3013209534 for details
and bidding.

Now THAT'S a tuning knob !! Too bad today's $1000 receiver's don't come
with one of those.

Too bad it is scratched up so bad. Far from being new or as new. Maybe
good, but I would not want it on radio.

I have an Icom IC-W32A for sale. With the exception of shipping tape placed over the display lens (I do this to all of my H/T's to protect the lens, and it is easily removable) the radio is in as new condition. It will be shipped in the original box with manual, quick programming card, stock duck antenna, battery and charger. In addition, I will provide a registered original RT Systems software disk.

Asking $200.00 O.B.O. + shipping from 11786

Please e-mail off list with questions.

Thank you,
John, KB2COP

I have for sale a new Kenwood TM-V7A dual band mobile fm transceiver. I have never removed this radio from the box. I bought it from AES and thought I would be installing it in my car. I installed a 706 MK II G instead. Nothing has been removed from the box and is currently sitting on a closet shelf. I have a new comet dual band antenna and mount with coax

that has never been out of the packages also which I will be selling after the radio goes.
I am asking $375.00 plus shipping for the radio from 48026.

Hi all, Do you have a Cadex C7000 Battery Analyzer/ Reconditioner?
Do you have any battery adapter cups that you can't use??
Cadex made battery cups for hundreds of battery types.
Many C7000 units are picked up used and the cups are useless to the
new owners.
If you have some of these collecting dust, I'd like to get them from you.
Please let me know what you have. We can work something out.
Please e-mail me direct at:
mrrusso@optonline.net

THANKS, Mark

Hiya Dean .. well, unless you are including the aerial, I would get my brand
spanking new one from Gigaparts for another 9 bux, and that includes
shipping... so, a wash .. are you including your antenna pkg?

I have for sale a brand new Kenwood TM-V7A dual band mobile fm transceiver.
This radio has NEVER been removed from its box. I bought this radio from
AES and had intentions of
installing it in my car. I installed a 706 MKIIG instead. This radio is as
it was shipped from the factory and has been sitting on a closet shelf
factory fresh since it was purchased. I am asking $350.00 shipped CONUS

Hi Guys;
I have a good working radio as listed above w/copy of the manual.
All functions work fine except "tinny" on FM receive. full 100 watts out, comes with hand mike.
Built in Keyer, filters, IF shift, Semi & full break-in, a nice radio.
$350 + UPS from NY.

I have for sale a mint Yaesu VR-500 wide band receiver with accessories. This radio was bought at Christmas and has been only used indoors for not more than 1 hour total. This is an excellent all mode wide band receiver. It covers 0.1-1299.99995 and has 1000 memories. I am including the Yaesu CS-72 soft case, never used Yaesu FNB59 rechargable battery and the Yaesu never used NC-60B charger. This radio was only used on disposable AA batteries. I am the original non smoking owner and have all of the boxes, paper work and warranty card. I am asking $225.00 plus shipping from 48026.

12 Cassette CHANGER with speakers.

This isn't exactly a BOATANCHOR but it's sure close to it. 27 pound, 1973 manufacture and discrete except for the audio modules in the output.

I've never seen another one like it.

This would be a perfect addition to a 1960s or 70s shack!

I'd be interested in a swap for radio stuff. What do you have or what will you offer me?

See this Cassette CHANGER with speakers here:

http://home.attbi.com/~h1m/casschanger/cassettechanger.html

Thanks for looking.

I have for sale a brand new Kenwood TM-V7A dual band mobile fm transceiver. This radio has NEVER been removed from its box. I bought this radio from AES and had intentions of installing it in my car. I installed a 706 MKIIG instead. This radio is as it was shipped from the factory and has been sitting on a closet shelf factory fresh since it was purchased. I am asking $350.00 shipped CONUS

I have for sale a mint Yaesu VR-500 wide band receiver with accessories. This radio was bought at Christmas and has been only used indoors for not more than 1 hour total. This is an excellent all mode wide band receiver. It covers 0.1-1299.99995 and has 1000 memories. I am including the Yaesu CS-72 soft case, never used Yaesu FNB59 rechargable battery and the Yaesu never used NC-60B charger. This radio was only used on disposable AA batteries. I am the original non smoking owner and have all of the boxes, paper work and warranty card. I am asking $225.00 plus shipping from 48026.

I think if it says "  "CW" Typewriter on ebay"  it would be safe to say
that it is an auction, so I guess you didn't read the header and you
read the post anyway and got pissed because he didn't put in "FA".

Really. God forbid that someone would waste 2 seconds...

Interesting item. If I had the cash I'd consider buying one for a shack
decoration. Linda cool in a retro way..

Please put your ten-cent "NETCOP" tin star back in
the box of Cracker Jacks from which you removed it.
You're just another "jealous of Ebay buyers" pissant.

Larry, you have to allow for the occasional "computer appliance operator" who does not know how to use his/her software and set features such as filters for "auction, ebay, more days, bid, ends soon" These are the same lamers who would croak if they ever had to open a cabinet and actually work on a circuit.

Steve

On Mon, 24 Feb, "Stephen C. Robbins" <srobbinsNoSPaMDUDES@netacc.net>
scribbled:

>Larry, you have to allow for the occasional "computer appliance operator"
>who does not know how to use his/her software and set features such as
>filters for "auction, ebay, more days, bid, ends soon" These are the same
>lamers who would croak if they ever had to open a cabinet and actually
>work on a circuit.
>
>Steve

Steve that is the WHOLE POINT of *USING* FA, ya dunce!
So someone CAN filter!

You lecturers need to brush up on yer subject matter!

I don't have the original post anymore, but I seem to remember that the guy
that posted it is not even the one selling it.  It was an information post
only.

Not in original boxes, but these look unused. Clean, shiny bases, no discoloration in the envelope. I can't test them, but I'll guaranty them not to be DOA.
Have a look at them at:
http://www.angelfire.com/linux/tubesnstuff/images/4125A1.jpg
http://www.angelfire.com/linux/tubesnstuff/images/4125A2.jpg
AES gets $132.00 each for these. I'll take $100/obo for all 4.

President Lincoln for sale, on scale of 1-10 its a 9 due to some light ware around the knobs as well as some small grooves on the bottom of the heat sink from where a fan was mounted. Radio works great and have made many contacts on it in the last year since i purchased it. Im having money problems and am forced to sell this rig but hope it finds a good home. This rig replaced my 2600 after it was damaged in a car wreck. I have all that came with it, box (kinda bad shape, but thats how i received it), manual, mounting bracket and origional mic. The power cord is also included but is only about 12 inches long.

Asking $250 shipped O.B.O

Robert, KB0RYR

Dave Hall <nojunk_n3cvj@worldlynx.net> wrote:

> Why twisty, resorting to changing your nic now? No one else would defend
> you to that level.....

Dave, are you really that stupid, or are you just trying to help Douglas W. Adair N8WWM live down his own violations on the Rain Report so he can get back to crying about CB rule violations, posting gay porn binaries, pedophile fantasies, running BI>20 spew attacks on rec.radio.cb and forging Twistedhed to all groups in the rec.radio hierarchy with fellow net-abuser and outcast Leland C. Scott KC8LDO?

In any case, instead of defending Twistedhed, I merely pointed out that Douglas W. Adair N8WWM appears to enjoy writing original pieces featuring children, specifically boys, and gay sex. It's not like this is the first or even the second time Adair N8WWM has written original pedophilia songs.

Why are you, Dave Hall, so eager to defend Douglas W. Adair N8WWM from having his pedophile fantasies exposed and disseminated? Are you sympathetic to pedophile fantasy writers, assuming N8WWM hasn't -yet- raped children? Are you frightened that Adair will call you a "traitor to amateur radio", as he did the late Richard McCollum N�BK, if you don't support his insane, abusive behavior? Does Twistedhed drive you crazy enough to support Doug Adair N8WWM who regularly uses the kind of "gutter language" you've spoken so vehemently against, Dave?

Your hypocrisy is positively shocking, Dave Hall N3CVJ.

The most likely explanation for your brainless follow-up is that you're just one anti-twistedhed k00k defending another. Appropriate groups added. When malicious clowns like you are involved, Dave N3CVJ, it's hard to tell, but I'm willing to explore it at length with you.

Regarding your baseless assertion that I am "twisty" under another "nic", one needs only to be able to read to realize that his posting style and mine are quite different. You obviously consider yourself quite intelligent, regardless of the fact that you're actually a blinkered, intellectually myopic hypocrite. Can't you at least read well enough to see the difference, Dave?

I've restored the post in question below my comments. Read it closely and decide whether your bitterness over being clobbered in debate after debate is worth defending a federal outlaw, homosexual stalker, racist and pedophile fantasy writer like Douglas W. Adair N8WWM just because he, too, is obsessed with "twisty".

Here are a few quotes from the ignorant, hypocritical racist pedophile fellow no-code ham radio hobbyist you're backing, Dave:

"Live like a nigger, die like a nigger."

Aww.. You didn't like my page, racist pedophile Douglas W. Adair N8WWM?

I'll just have to add some of your exemplary quotes to the new page, Doug.

http://members.odinsrage.com/chiprshredr/

> AKC RULES THE NG!!!

```
Suuuuuuure you do, you diseased, disgusting racist pedo-fantasy writer.

I think its soo damn funny when twistedhed disguises himself as Fatty
Arbuckle and puts up pages about people. Do it some more
twistedhed@webtv.net.

It just shows how effective the anti-boys are! twistedhed@webtv.net is
ENRAGED, but he is too big of a sissy to do anything except from
behind an anonymous post. That's cool though. The very virulence of
the attack shows how totally ENRAGED his pink muffin boy self is.

The anti boys own rec.radio.cb

I have for sale a very nice condition R-390A.
It is from the Motorola 14-PH-56 contract and has original meters and
covers. It is in very nice working and cosmetic condition. Pictures
available
upon request.
Asking $600.00 plus shipping. Continental US only.

Thanks,
Michael

FOR SALE:

Swan 350 transceiver with 117XC power supply/speaker cabinet.
All in good operating condition with manual.

Power input 400 watts PEP on single sideband, and 320 watts input on CW.
Also will run AM, Single Sideband with Carrier, 125 watts dc input on all bands.

Has AGC, ALC, and grid block CW keying. Unwanted sideband down at least 40 db.
Carrier suppression at least 50 db. Sensitivity: Less than 0.5 uV for signal-plus-noise ratio of 10 db.

Controls for Rec-Tune-CW, AF Gain, RF Gain, Mic. Gain, Bandswitch, Carrier Balance, PA Plate Tune, PA Grid Tune, PA Load Coarse, PA Load Fine, VOX-PTT Switch.

Rear controls for Bias, Grid-Block CW Key Jack, Jones plug power connector, Vox connector, S-Meter Zero.
Uses a pair of 6HF5 finals.

When the 350 was introduced in 1965, the price was $420.00, the 117XC was $95.00

Swan 350 available for $195.00
Swan 117XC available for $85.00
Swan VX-2 is available for $35.00
Will sell the Swan 350 and 117XC for $250.00
All of it for $270.00

E-mail me for pictures or see:
http://www.gizba.com/x/sidevalve/radios.htm
(Just CLOSE the pop-up windows!)

Kenwood TS-830S Transceiver with MC-50 Desk Mic and SP-230 Speaker w/Filters.

Radio is in really good condition, no wear on face only cosmetics is a couple of dings on the top of the cabinet. Puts out full power and gets excellent signal reports. It is Gold Label.

Speaker is in excellent condition, filters work no dings on cabinet.

Mic is in excellent condition, no dings or scratches.

Included are manuals for the radio (W7FG Operation and Service) and Kenwood
manual for the MC-50.
Will include an aftermarket hand microphone.

Price is $325 dollars which includes shipping. CONUS only.

Talk about "Customer NO SERVICE" !
Purchase two RascalV units based on the reviews here on eham.
Received items and one of the cables would not plug into my Kenwood 870 (13 Pin).
I verified my plug with the plug that shipped with my radio, and it plugged in correctly.
This was a puzzling problem and I didn't want to damage my rig forcing this plug into it.
I sent BuxCom and email, and they responded that all they have is a fax.

I was very upset that they don't want to talk to you on the phone about problems.
So I replied back to them to call me !

Bux called me back wanting to argue about my email I sent them.
All I wanted to do is talk to someone who could help me with a cable problem.
How can someone run a business where they take your order via Fax or Internet.

I apologized for my email even though I didn't feel I was out of line, but just
to get this guy to calm down to focus on the problem I was ready to do anything.
This problem could have been resolved by them sending me a replacement cable.
He said he tested all of his cable, but not this one?

I told him that I was a member of a club that was getting ready to buy a number of these units.

He replied he didn't care and didn't want to deal with people like me.
Just send it all back.

I posted my review on eHam and while looking through the reviews,
I found someone else that had a similar problem with this company.
All I can say is you get what you pay for.
If you have a problem, good luck with dealing with Bux.
Just fix it yourself.

<laborkeiNOSPAM@hotmail.com> wrote:
>   Talk about "Customer NO SERVICE" !

I have bought three Rascals (one ready-made and two kits) from Buck
and all of them work OK.

The ready-made came with TXD hard keying CW instead of DTR. Buck
fixed it, no questions asked.

He answers all my questions, which I keep few and short. I believe he
gets very busy, so you need to be patient.

You can't expect a 3 credit college course with a $25 kit (or $20, if
you bought during the year-end clearance sale).

These kits cost less than the cables alone run at Radio Shack.

If you were expecting the level of support you get with a K2 or CMOS4
kit, you were a little unrealistic.

One advantage of the rough-hewn approach is you will wind up knowing a
lot more about the subject than when you started -- or if you bought a
$125 Rigblaster.

Lastly, he is fast, honest and his prices are very fair.

I have 1 left Radio Shack Pro-95 scanner. Last purchaser promised payment but it never arrived. I am asking $170 shipped CONUS. Box, manual, antenna, extra Comet antenna, NiCD pack and TT book. Perfect shape, photos upon request (but I think you know what it does) If not, e-mail me.

Mitch Katz

Also, If wanted, ITT Generation II Nightvision 150 PocketScope. No flaws. reduced for quick sale $625 plus shipping. This is a quality US made NON exportable version.
Photos at:

Yeah, it's a real secret, It's a multi-trunking scanner from radio shack. I didn't know anyone cared about stupid 800MHz analog frequencies on the cell band.

Here is an opportunity to own one or both of these radios. They are brand new and need a new home. They come with the charger, battery, clip and manual. The owners have switched to an LTR system and gone with different radios. They are asking $600 for the vhf and $675 for the UHF. If you know anything for these radios, they retail for $1100. IF you have any questions let me know. Thanks....

I have for sale a very nice condition R-390A complete with original meters
and covers. This receiver is in great condition both operationally and
cosmetically. I do not want to ship this receiver and am looking for a
buyer in the DFW area of Texas. $600.00

Thanks,
Michael

My experience has been the EXACT OPPOSITE!

Buxcomm sold me a superior product at the BEST PRICE.

If you wanted something in a fancy metal box you should

have bought one of those $150 interface boxes.

If you were not smart enough to figure out how to use it
you bought the wrong thing. To be honest I had a couple of questions,
but K4ABT personally answered me via e-mail twice and got me up and
running easily.

I have had ZERO problems with Buxcomm! GREAT guy!

Maybe you should stick to "slop bucket" (SSB) hi hi!

I bought an interface also after all it didnt work and Buc would not
repace it or even talk about it saying it was OK when it left his
Store.So I also say Buy a Rig Blaster way better then his
junk.........

Howdy group,

Currently under $50.00, comes w/ a bonus headset microphone!

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&category=296&item=3008016356

Well so much for this troll, not even a real email address.

My Rascal worked perfect after I built it per the instructions.

Maybe this Tony guy needs to setup his comm port properly.

wendy

These Motorola 12w AMPLIFIED speakers have GREAT clarity and you can make them L-O-U-D !

Ever want an amplified, totally enclosed, rugged extension speaker for your radio? This is the one to buy.

These Motorola extension speakers will work with base units, handhelds and scanners! They are SUPER for use in your radio room. I listen to AM broadcast through it.

If you are into public service these would make a great addition to equipment you bring to emergency shelters, the EOC or outdoor events!

I sent this HF Transciever to Ebay.  Works great and looks great.
never been mobile.......always got great reports with this radio....i
hate to get rid of it but i need to clean out my shack....please go to
www.ebay.com and search for item # 3009433534 and bid with
confidence....you will be happy with this rig

Ebay has a lot of unpublished policies, for example I sold an item to a =
guy who later turned out to be a manufacture of illegal power =
amplifiers.=20

This guy attempted to defraud me by claiming I sold him defective =
material. I had pictures of the item as shipped and had insured it for =
the amount purchased plus 10% to cover shipping costs. Once the shipment =
arrived he attempted to stop payment on the Postal Money Order he sent =
me. After the Post Office refused to refund, he made demands that I give =
his money back without returning the item to me, he refused to file an =
insurance claim with the Post Office saying, "I would look stupid".=20

After an extended background investigation by myself and a former law =
enforcement co-workers we found this guy to be a professional =
"flim-flam" artist. Meanwhile, Ebay kept insisting I pay him off because =
the buyer is always right. In the end this man threaten me with legal =
action which never transpired, as he was afraid of being arrested for =
fraud by the Postal Inspectors. I worked with the Postal Authorities to =
clear up the situation by having at least an impartial inspection of the =
item. The man refused to give it up through the entire ordeal.

In the end even though I did not nothing wrong and subsequently quit =
Ebay out of frustration with their policies, they marked my closed =
account as being shut down because I was the dishonest person. The crook =
with prior convictions and a string of law suits across the U.S. his =
account is still active and is buying up parts to keep building his high =
power trash generators. (By the the way this man told he was buying my =
item to fix a radio religious radio stations transmitter. ) =20

Never trust Ebay,  they will do what is in the best interest of lining =
their pockets with money.

What's this guys eBay ID? It'd be nice for us to know for future =
reference.

  "Monty P" <flying.email@my.mail.org> wrote in message =
news:b37k69$pn8$1@news.chatlink.com...
  Ebay has a lot of unpublished policies, for example I sold an item to =
a guy who later turned out to be a manufacture of illegal power =
amplifiers.=20
```

  This guy attempted to defraud me by claiming I sold him defective =
material. I had pictures of the item as shipped and had insured it for =
the amount purchased plus 10% to cover shipping costs. Once the shipment =
arrived he attempted to stop payment on the Postal Money Order he sent =
me. After the Post Office refused to refund, he made demands that I give =
his money back without returning the item to me, he refused to file an =
insurance claim with the Post Office saying, "I would look stupid".=20

  After an extended background investigation by myself and a former law =
enforcement co-workers we found this guy to be a professional =
"flim-flam" artist. Meanwhile, Ebay kept insisting I pay him off because =
the buyer is always right. In the end this man threaten me with legal =
action which never transpired, as he was afraid of being arrested for =
fraud by the Postal Inspectors. I worked with the Postal Authorities to =
clear up the situation by having at least an impartial inspection of the =
item. The man refused to give it up through the entire ordeal.

  In the end even though I did not nothing wrong and subsequently quit =
Ebay out of frustration with their policies, they marked my closed =
account as being shut down because I was the dishonest person. The crook =
with prior convictions and a string of law suits across the U.S. his =
account is still active and is buying up parts to keep building his high =
power trash generators. (By the the way this man told he was buying my =
item to fix a radio religious radio stations transmitter.) =20

  Never trust Ebay, they will do what is in the best interest of lining =
their pockets with money.

I don't know the seller and I have no connection with this auction.

There is an all-caps Underwood manual typewriter for sale on eBay. These typewriters were used by telegraphers so they could type in all caps and not have to unshift to type numbers. I used to lust after one of these but I've never actually seen one. If you collect CW stuff or have a 20s-50s vintage station, this might make a nice accessory. It's certainly not a common item. Again, I don't know anything about this particular unit or the seller, I just noticed it and thought someone might be interested.

I doubt that the names are real, or even the addresses accurate... but..

John Rea (aka John Dillinger)
1030 Pine Rd
Alpena, MI

Paid him cash (USPS money order) for a radio he never sent, has not contacted me since he said he received the money order, e-mail no longer good.

Frank (Frankie) Sanborn
424 Nick St.
Newark, DE
Traded him computer peripherals plus a $100 USPS money order for a used IC-706. Apparently he ran similar scams on others. Local authorities are supposedly investigating.

John Stewart
(whereabouts unknown)
Surrey, BC
Canada
Traded him an IC-706 for a 1.4 GHz computer. Made other trades with him as well. After he received the 706, he moved... most other items were returned by Canada Post.

I think that is an overstatement. A couple of years back I was beginning to get very worried about the non-arrival of a printer I had purchased ($500) on eBay, paid for using PayPal. But I was contacted by the seller's local police department (somewhere in TX) before I ever got round to making any official complaint. It was a Dutch auction, and apparently one of the other buyers made an official complaint before I did, and the police then contacted all the other purchasers. I got all my money back.

Contact PayPal right away. They have the power to reverse the payment. If you cannot get him to answer PayPal will not either. The other method mentioned is the credit card company. Check to see what their terms are.....especially since you did not sign the paper for it.....it all depends on the sigiture.

I work in the resort/accomodation industry and you should see the number of cards that are back charged when the caller says he never called to reserve......bet 2 in 10.

So complain to the credit card company that you did not authorise the payment......

Billy

You can eventually get your money back from PayPal also -BUT it will
take forever! Pay by credit card even though you use PayPal & you will
not have a problem. Like an earlier person said "you can get it back
with no problem if you act in 60 days". Don't let PayPal take it from
your bank - pay them with plastic or PayPal will stretch it out for
weeks! I know they are doing it to me even though they are the one's who
messed up!
Allen

Hi,

Here's the search page from ebayersthatsuck.com, a revenge page by a New Jersey cop that was the subject of a recent nationally syndicated article:
http://www.ebayersthatsuck.com/ebayersthatsuck.htm

Check it out. Listing your perp's ebay handle there might help--if it's not already there (which will tell you something, too). You just list it, and tell your story. Then you email your little friend with a link the page. Then you can do things like go to his/herother auctions, and email all the bidders the link to the site. In some cases, if the seller is not a total thief, they will do anything to make you go away.

The site has helped get a number of ripoff artists get banned from Ebay altogether.

There are other, shall we say, more vigilante-style methods of ripoff revenge, but you'll have to find them out for yourself on the net. Search on Google or any other search engine on things like "Ebay revenge" or "Ebay ripoff," etc., and you'll probably turn up a number of other interesting ideas.

Enjoy!

Jason Pramas

USPS MO sent by mail? Sounds like mail fraud to me. Have you talked to
the PO? Maybe they'll "go postal" om him. I OTOH prefer some good
practical joke - like an oz. or 2 down his crack then flik yo bic. But
jump back quick - they do a real crazy dance ...

Cleaning out my garage, and I'm selling complete years of my remaining CQ Magazines for $8/year plus postage. For incomplete years, will sell issues for $0.75/issue plus postage. Will sell entire lot (121 issues) for $60 (or best offer) plus postage. Postage for entire lot would be approximately $30 via Media Mail in the US.

I personally have been lucky so far (100% success rate) with about 70 purchases, one for over $3000.

I understand that PayPal's complaint window is VERY short, like 30 days, so if you don't file papers that soon, they don't want to hear about it. Seems counter-productive to me, since we all want to give sellers and buyers the benefit of doubt and sufficient time for goodies to arrive.

I agree with credit card - I ALWAYS use it through PayPal, even offering to pay the seller whatever fees they would incur by letting me have the convenience of using the credit card. That usually makes everyone happy.

Bob M.

Hello Doug..

If you used a credit card, file a dispute with your credit card company.
They will reverse the charge to PayPal, and then debit the user that you purchased from's account. I have done this numerous times and it works.

Keith

I am wondering, is there a deadbeat web site that one can check out to see if
the perspective trading partner is a dud???

Does this really work? I know that if you purchase goods from a
vendor directly, and have a problem, the credit card company will
usually stand behind the consumer in a dispute, i.e. they will credit
back the card if you return the defective items.

I've heard that CC companies will not do this with Paypal-purchased
auction items. Their position, apparently, is that your dealings were
with Paypal, and Paypal committed no fraud. They acted at your
behest, and transferred money to the seller, who is the real criminal.

Now this is all heresay, I've no personal experience trying to charge
back something I purchased on ebay using Paypal.

Comments?

If goods are not received then the credit card company will usually give the
funds back, Paypal included.
The post office can be of assistance if a money order was issued, I am
currently going through two routes with assh*les called Jerry Gripp and
Paul/Peter Lee, one in Canada and one in NY.
I have had my Paypal account credited and the post office are giving 45 days
for Gripp to respond before issuing me a re imbursement of my money order
and then the Attorney General is involved as mail fraud.
Now it take a very long time for the wheels to get in motion, be patent and
learn by your experiences.
I buy over 50 radios a month from the net and have not had too many
problems, generally Hams are honest with a few bad ones spoiling it for the
rest of us
Good Luck anyway
Martyn

USPO couldn't care less. I have had some success in the past calling the local police department closest to your ripoff artist and speaking to a detective. Frequently a single visit does the trick.

***These are 6 separate auctions, which end on Sunday
(That's TOMORROW) at about 9 PM Eastern Time***

I've listed my Yaesu FT-107 stuff on e-bay.

The FT-107M is Yaesu's first all solid-state transciever, so it's something of a collector's item. With the off-white panels and the dark tan cases, it's a unique appearance - especially in a world of black and gray ham radios! It's a GREAT looking station.

I put each item in a separate auction, so you don't need to buy the entire station if you only want a component.

Although I didn't mention it on e-bay, most items have users manuals.

Also, I'm tired of seeing e-bay links that are so long that they're fractured. So, in an attempt to start a whole new trend, I'll just post the item number. Let's see if that's easier to work with.

All of the matching accessories (off-white color front panel, **matching the FT-107M**) are in good condition, as described in the listings:

The SP-107 P external speaker / phone patch is item # 3003807405
The SP-107 external speaker is item # 3003813233
The FV-107 external VFO is item # 3003810961

The FC-107 external antenna tuner is item # 3003817307
The FTV-107 transverter (2M/70CM) is item # 3003820004

The transciever itself needs repair - probably the 120 VAC power supply.
It comes with both the users manual and service manual.
It's item # 3003826005.

If you have questions, please contact me through e-bay. I only use
the Hotmail return address to keep the spambots from getting my real
address.

I get so much spam at Hotmail, I simply never check it - sorry.

Charlie

OK, here you go. This is worth reporting to as I've read good things about it. It's slow though so it doesn't hurt to go ahead and get this guy in trouble AND get your money back.

http://www.ifccfbi.gov/cf1.asp

Good luck

Well there is some good news! Any of the transactions that have taken place through the mail, you can summit amail fraud complaint which will take months but does typicaly force resolution. If you have paid an person VIA a USPS money order then it is a felony, and the Postal service will prosecute.

Now don't jump the gun here they are not very quick I have 4 cases pending now one is ove a year old but it is finaly paying off 6 months I would consider a quick turnaround but even at that it is better than total loss. The number one thing to do is post there name address used and as much info about what has transpired in this way the cons are learned by all out here and then become less of a danger to all. Just remember that strange things do happen in peoples lives at time and it is important to give all a chance to resolve, in time of crisis of family ect. people priortys do tend to get shifted a little but most people I beleive are basicly honest and will get things resolved. There are those out there that are just theives and our best weapon against them is information on there methods so we can watch the patterns developing.

Hi,

Try to get confirmation that the US Postal Money order was cashed. This takes
some
time.

If you can find the person real address, you can search public records most of the
time for free
on the web. Find out if they own real estate, if so you can file a lien on the
property.
No one will buy their land/home if a lien is on the property. This will get their
attention and maybe
you will get you goods or money refunded.

Most of the time you can file a lien by mail and pay a small fee and this works.

regards.

Doug....If you are reading this, did you use a postal money order? I
was under the impression that you used a credit card through PayPal.
I don't understand why so many posts are referring to a postal M.O.

John

3 months old, works perfectly, excellent shape. Comes with manual, mic,
power cord, original boxes. Getting out of ham radio due to antenna
restrictions. Radio used very little.

Bought new just a month ago, barely used. Works perfectly. Comes with manual
and cables. Bought new for $99, will sell for $70 plus shipping.

I have for sale a very nice condition R-390A.  Motorola manufacture,
original meters and original top and bottom covers.  Very nice cosmetic
and operating condition.  Local pickup in the Arlington, TX .  I do not
want to ship this nice receiver.  Asking $650.00.

Thanks,
Michael

Doesn't have to be cosmetically nice, but must be in perfect working
condition. Lower the price, the more attractive. I wouldn't mind an
appropriate magmount antenna with it, if you have one to sell.

Thanks,

-Leo

I have for sale a very nice condition R-390A.  Motorola manufacture,
original meters and original top and bottom covers.  Very nice cosmetic
and operating condition.  Local pickup in the Arlington, TX .  I do not
want to ship this nice receiver.  Asking $600.00.

Thanks,
Michael

Anybody got a Collins 51s-1 main tuning knob they would like to sell.
Prefer very good or excellent condition but anything considered if JPEGs
supplied. Ideally I would need the Bristol wrench to go with it as I don't
have one.
What's your price ?

73's
Mike

Anyone wonder what kind of 2-way radio recordings Colin Powell was
playing @ UN yesterday?

unscrambled SSB??

Certainly not FM because too many crackles.

Step up to this issue oh soldiers-of-fortune

Marty

I have for sale a very nice condition R-390A.  Motorola manufacture,
original meters and original top and bottom covers.  Very nice cosmetic
and operating condition.  Local pickup in the Arlington, TX .  I do not
want to ship this nice receiver.  Asking $600.00.

Thanks,
Michael

Just out of curiosity, how come you're getting rid of your '817? I've
fallen completely in love with mine, wouldn't trade it for the world!

Hi All,
I am looking for an FTS-12 tone board used in the Yaesu FT33R. Please drop me a note if you have one for sale.

Kind regards and 73's,
Patrick / KG6ORJ

I received this email today form a YahooGroups Users.
Please pass the word to your friends.

Yahoo has been spying on your computer.
I have finally figured it out and here is their admission
and how you get out of it. They are using something they
call "Web Beacons" to track Yahoo Group users around the net
and see what you're doing -similar to cookies.Take a look at
their updated privacy statement:

http://privacy.yahoo.com/privacy/us/pixels/details.html

About half-way down the page, in the section "Outside the Yahoo!

Network", you'll see a little "click here" link that will let you
opt-out of their new method of snooping.
Once you have clicked that link, you are opted out. Notice the
"Success" message at the top of the next page.

(If this URL doesn't work, then go back to
http://privacy.yahoo.com/privacy/us/pixels/details.html
and you will find Web beacons in the section on Cookies.)

BE CAREFUL because on that page there is a "Cancel Opt-out" button
that, if clicked, will *undo** the opt-out.

Otherwise known as web bugs. Download Proxomitron or Junkbuster (free!) and eliminate snooping from cookies, java, and any other such intrusive stuff. Eliminate image loading, pop-ups and pop-unders, etc.

Proxomitron	http://www.proxomitron.org
Junkbuster	http://www.junkbusters.com

I don't go anywhere without it!

Junkbuster is not in development as of 1998. http://privoxy.org is a continuation of Junkbuster, with many new features, including web bug filtering, which are also commonly used in spam to know if the email got delivered, and thus validates the address.

I also bought a radio from him. Needless to say it was not as advertised. Excellent and owned by non smoker must mean...scratched to hell with dings and dents and every knob and dial is covered in brown nicotine residue. I emailed him and told him about it. He wanted to know what he could do to make me happy . For starters he could have been truthfull when he described the item . Also i think he sent it by pack mule , it took forever to get here and the packing job sucked. I give John and his auctions two thumbs down!!!

Actually, it really 'For Auction', and it would have been polite (and
not misleading) to put FA: in the Subject line.

1 QRP+ Index Labs HF Transceiver for sale.

This radio was purchased for Xmas 1996. Serial number is #1029.
This radio has not been modified in any way and is still in MINT
condition. I paid $600 for it new and used it 3-4 times a couple of
years ago. Begining to do some shack cleaning and getting into
another hobby.

Will be shipped in original box with original operating manual and
xerox copy of manual.

Some of the features are:

SSB / CW full break in
All band 160m - 10m
General Coverage Rcvr from 1.8 mhz - 29.7 mhz
20 Memories
Split operation
Digital filters
Built in iambic Keyer
Requires 12v power supply of 1.5 amp or better

Asking $450.00 + shipping Or Best Reasonible Offer......

If you have any additional questions, please e-mail me...

Thanks for looking....   73s Evert WA5OJI

Icom IC-2AT Handi Talkie.

Purchased by my Dad (W5WJQ Silent Key) back in 1982
for $250.00.

This unit is in Excellent condition and has seen minimal amount of
use. To my knowledge it has never been worked on or been
modified in any way. It has a rubber duckie antenna with the
rubber tip missing. It comes with the standard battery pack
and 110v ac charger.

It is capable of 800 channels with Touch Tone Encoder dial pad
on front of unit. Can be switched from 1.5w High power out to
0.15w Low output. Possible 2.3w output could be obtained
if used with optional power pack purchased from Ham Radio
Vendors.

Worked well last time I used it a couple of years ago and still works
with present battery pack.

Also have instructiona manual and schematics.

Please e-mail me if you have any questions or need any additional info.

Asking $150 + shipping Or Best Reasonable Offer....

Thanks for reading.....

73s   Evert   WA5OJI

FOR SALE:

Triplett Model 3256 Frequency Meter.
This appears to be an absorption wave meter.
Shaped very much like a grid dip meter.
Has two ranges. One band covers 80 and 40m and has
the calibration markings for these two bands.
Other band covers 14 through 30 Mc with markings for
20m, 15m and 10m bands.
Has a switch to select between the two ranges.
Neat little gadget measures 5-1/4" long X 2-1/4" X 2-1/4"
plus a coil extends 2-1/2" out the top.

Has a very nice Triplett 0-1 mA meter built in.
There is a headphone jack on the front for monitoring detected
signals. Signals are coupled into the unit by inductive coupling to
the coil. Can be used for identifying, monitoring and tracing RF
signals along transmission lines, in tank circuits etc.

Condition of the unit is very good. Gray hammertone finish over copper
plated steel chassis-cabinet.

Will sell for $18.00 plus shipping

Hello,

Looking for a Icom W21AT HT that is good to excellent condition at a fair price for the YL.

I am in the W21AT only, not other models.

Ideal unit will be in good to excellent cosmetic condition, may have electronic defect -will repair. Ideally will have acessores, manual and original box, but will consider all.

Please email to w1ujr@arrl.net

Thanks much!

73 Bruce W1UJR

$50 to $75 would be a better price range. Just a suggestion.

```

It's in the backyard of a house I'm trying to sell. The coax got chopped in half while I've been gone, but that would be easy enough to fix, and I'm only wanting $150obo for it and all the stuff below...
I've still got the original instructions, a box full of parts, about 50ft & 25ft of "RG-U/8" (I thought it was RG-58 all this time, but that's what's printed on it) with connectors on one end of each, about 50ft of aluminum grounding-wire (and an 8ft ground-rod if you can pull it up.. HAHA), lots of guy-wire, etc. that you can have with the antenna..

```

I just picked up an AEA MK-1 keyer. Does this keyer have character memories? Does anyone have a manual or can maybe send some programming/operating info for it? Please email me. Thanks.

Any help greatly appreciated.

Thanks.

73

Brett

Units are in very good condition, and include cables. 847 includes original
packing and manual and hand mic. $1100 for both plus shipping. Shipping will
be via USPS Priority mail from 96205. Insurance is optional, but
recommended.

e-mail is good.

put a link in your reply to any false statement, that says "see the
real story". be as verbose as you want. Devote a web page to it. Works
great every time!

You can check out the specs at
http://www.chq-inc.com/ic-r/pcr-1000.html
After that if your still interested you can check out my pics at
http://community.webtv.net/Yah_Its_Me_Go_Ahead/IcomPCR1000
On a scale of 1 - 10 I give it a 10. There are now scratches dings or
dents on this unit at all. It was bought from Ham Radio Outlet in
Anaheim Ca. for $329.65 on 10/19/02
I would like to trade it for a like new Magnum Delta Force 10 meter
ham radio or something like it. You can reach me at
chilinvilin@msn.com
Thanks,
JP

Sorry to be pedantic, but it should have been FA: or For Auction in
your subject line.

Some people are not interested in auctions, and filter headers
accordingly.

This radio is just a couple months old, but perfect condition. Check it out
on ebay. If you aren't satisfied with the condition you can return it.

--------------014C5AC15F1F97566FFE8E6F
Content-Type: text/plain; charset=us-ascii
Content-Transfer-Encoding: 7bit

 Hi all,  I had the FT-530 in my pocket the other day in the unlocked position.
When I removed it I must have hit a few buttons and created a problem.
The function button has been re-routed to the lamp button.
In other words when I push the Function button the display still shows "F"
but it will only program a frequency.  By using the lamp button I'm able to do
some functions.
example: to lock the keypad I have to use the lamp button.
Any easy way out of this or is a reset in order.
If so, its a long way to reprogram it :-(

THANKS,  Mark

Uh oh!!!! Prepare to meet the Usenet bashers Josh!!!

You forgot (or didn't know) to put FA instead of FS in your subject line.
These guys have no mercy and will chew you up and spit you out.

  In this case they'd have little to justify it.  His radio IS for
sale.... priced at $575.00.

   Ed

```

Greetings,

```
I am interested in buying primarily Motorola GTX 800MHz equipment but =
will consider other high end Motorola 800MHz equipment.=20
Equipment must be operational and be decent in appearance. I am =
interested in Mobiles and Portables. Note: Portables MUST have full key =
pad unless included as part of a larger package deal.
Multiple radio packages prefered. but will consider individual pieces.
Please send: Model Number, number of units available and asking price to =
include shipping to zip 43068 to Radios@tabol.com

Regards,
Tim

I've listed my Yaesu FT-107 stuff on e-bay.

The FT-107M is Yaesu's first all solid-state transciever, so it's something of a collector's item. With the off-white panels and the dark tan cases, it has a unique appearance - especially in a world of black and gray ham radios! It's a GREAT looking station.

I put each item in a separate auction, so you don't need to buy the entire station if you only want a component.

Although I didn't mention it on e-bay, most items have users manuals.

All of the matching accessories (off-white color front panel, **matching the FT-107M**) are in good condition, as described in the listings:

The SP-107P external speaker / phone patch is item # 3003807405
The SP-107 external speaker is item # 3003813233
The FV-107 external VFO is item # 3003810961
The FC-107 external antenna tuner is item # 3003817307

The FTV-107 transverter (2M/70CM) is item # 3003820004

The transciever itself needs repair - probably the 120 VAC power supply.
It comes with both the users manual and service manual.
It's item # 3003826005.

If you have questions, please contact me through e-bay. I only use
the Hotmail return address to keep the spambots from getting my real
address.

I get so much spam at Hotmail, I simply never check it - sorry.

Charlie

Greetings,

Approximately a month ago I purchased a radio from someone on the newsgroups. I paid for the item using PayPal but never received the radio. What I have received are a few email messages over the time with some interesting excuses. While I am a trusting individual by nature, I am afraid that I have been ripped off and will never seen the radio or my funds.

What makes matters worse is that I stumbled upon an alias that he uses on Ebay and got quite an education when I read his feedback.

I need your help. I know that there have been some "individuals" over the years that have been mentioned on the newsgroups. I also know that many of you have "gone the distance" to get your equipment or money. What can one do legally (if anything) to bring this fraud to the attention of some authority? Can a complaint be file with the PayPal folks since I use a credit card? What are the chances of getting my money back?

Any help would be greatly appreciated. Please contact me directly at "cindyd1@enter.net".

Thanks in advance for your help,

Doug

I wish I could help, I've been ripped off by people in the newsgroups, on ebay, and even on eham.net, but can't seem to find any recourse. :(One guy in here got me for about $500 worth of computer peripherals and a $100 money order. I have reported him to his local police (as have others) but nothing has happened so far. Guess I need to go the mail fraud route and report him to the Postmaster. Another one got me for $158 money order for a Yaesu HT. Yet another from this NG got me for an IC-706 that I traded him for a 1.4GHz computer... that one lives in Canada, and Canada Post doesn't seem too interested in doing anything about it..

Contact you credit card provider and do a charge back. You have 60 days under federal law to reject credit card purchases and since you have not rec. item you should have no problem.

Contact the credit card company ASAP, that is your only hope. Post Office doesn't
care, FBI doesn't care, Attorney General doesn't care, your local law enforcement
doesn't care, the law in general, in any jurisdiction, doesn't care. Forgery
doesn't matter, neither does fraud or identity theft. I speak from experience and
I
challenge anyone on here to prove me wrong. Sorry to say it in so many words but
your money is gone and you will never see it again.
You got took, accept it and go on because no matter what you do you are wasting
your time if you think you will ever see a dime out of anyone. BTW, what is this
jackmeat's Ebay name, maybe we can have some fun with that. Better yet, where
does
this jerk live? If he is near me I'll go over and ....let him know you are
thinking of him.

Best Wishes,
John in Missouri

Hello

I have a FT 920 with the AM filter and FM board. The FT 920 is 100 watts HF + 6 Meters. It has a Auto tuner and the MC 100 Desk Mic. In the deal you will get the technical supplement too (AKA Service manual), as well as the owners manual. I also Have the 3 kW Roller Inductor Antenna Tuner. They are in good shape I will trade both for a FT 990 or a FT 1000. I have been using the FT 920 as a backup rig. Drop me a line so we can work out a deal.
oris@dirtball.com

I have a Icom ICR71A Shortwave receiver that I will trade for a working DX 100 and SX 300 or Hamuland HQ 110. I'm looking for a good AM Ham station. I will trade this Receiver for a good working AM station. I want both transmitterwith at least 100 watts out and receiver. I hope to find something to work with my Audio rack.

I also have a Henry Amp 2 KD 5 Desktop, (It needs a new Plate amp meter) two 3-500s 100 in will give you 1250 out, New Caps, that I will trade for a Globe King or full legal output Ham band AM transmitter. this is a pickup trade only. I will be willing to travel 100 miles from Athens GA.

I also have a Hallicrafters S 38 C Shortwave receiver. It's in great shape. It works but I have no idea what its worth. It is a old old receiver. (Make Offer)

I have a MFJ Versa Tuner II and a Roadtalker 40-channel sideband CB radio that somebody converted to 10 meters. It works quite well. I talked to a guy in South America on it. (Make Offer)

I also have a CBS 1000 transceiver. 25 MHz to 29.795 MHz. In 10 kHz steps. I got it at a hamfest in Georgia. I'll trade it for a SX 300 or NC 300 HQ 110 HQ 170 HQ 200 or similar HF receiver.

I have a Kenwood TM-2530A that I used as a 2 meter packet station. It needs a Mic and the light that lights up the liquid quartz dial. The radio works fine and is in good shape. I looking for a good AM transmitter.

I have a Kenwood TR 7850 This radio I used as the BBS access on 2 meters. It needs a Mic and needs a new lithium battery backup. I turn the radio off and back on it forgets where it was and defaults to

144.000Mhz. Other than that the radio works fine. I want a working AM transmitter.

I have a Kenwood TM 201a. I used this 2 meter radio as sat transmitter. I worked Mirror before it came down. It Needs allot of work. It needs a dial. The Freq. read out is all screwed up. This is a fixerupper. It receives fine and transmits fine. It needs a mic too I will though this in too with either one of the above 2 meter rigs

I have a Versa Tuner II 949c and a Palomar PT 340 tuner tuner that I would through in too with either one of the above 2 meter rigs. I also Have a Kenwood KDC 1011 mobile CD player that has the plugs set up for a the older fords. I will through it in too with either one of the above 2 meter rigs.

I also have a Behringer Ultra Graph Pro GEQ 3102 31 band equalizer that I will through it in too with either one of the above 2 meter rigs.

Hey thanks for reading
Happy Holidays
73

For Sale:

VERY, very nice Heathkit HW-100 with new finals & driver. Original paint, original knobs, no dents, no rust. Works great, looks great. Two hand mics. (One is the original Heath, the other a Turner mic that looks like the Heathkit mic.) Price: $149 and I will pay for the shipping & insurance.

Also FOR SALE: A Heathkit HP-23 power supply in good condition with power cord that connects to the HW-100. Price: $95 and I will pay for the shipping & insurance.

I would like these to go out as a set, since they were purchased as a set. However, if the first two e-mails contain one message from a ham who wants the rig ONLY, and the other message from a ham who wants the power supply ONLY...I will split them up. But...the very first e-mail that wants the set will get the set.

If you're short on cash, we can run the transaction through my little ham/swl business using your Visa or Mastercard.

BTW, I do have a W7FG Vintage Manual for the HW-100 if you're interested. Price for that is $29 shipped.

For Sale: MINT MFJ-9406 six meter transceiver. This rig is an absolute blast! Hate to get rid of it, but have a new FT-847 with six meters on it. Great transmit audio! 12 watts PEP or CW. Worked a lot of stations locally, statewide & DX using a little three element Yagi and a TV rotor. CW module installed. Comes with original box, manual, hand mic and DC cord. $169 and I will pay for shipping via PRIORITY MAIL and insurance. If you're short on cash, we can run the transaction through my little ham/swl business using your Visa or Mastercard. First e-mail gets it!

I have three of these radios, with good batteries and original rubber duck antennas.

One includes a BC-72 drop-in charger, CP-12 DC car adaptor, BP-84H 7.2V 1700mAh pack and BP-90 pack for 6 AA cells $125 for this one.

One includes a BC-72 drop-in charger, CP-12 DC car adaptor, MAHA MH-BP-83 7.2V 1700mAh pack and W&W 7.2V 850mAh pack. $125 for this one.

The third includes a BC-74A wall charger, Periphex BP-84 7.2V 1700mAh pack and a BP-85 pack. I don't have a DC charger or adaptor for this one. $105 for this one.

All batteries are good, several are recently purchased. All prices include USPS Priority mail shipping. Insurance of $2.20 is optional.

I will probably have more ham equipment for sale in the near future, so keep an eye out.

The e-mail is good.

Also open to trades for ?? One thing I am looking for is a Yaesu VR-500.

Heath kit HM_102 meter and a Wawasee 2000 watt meter. Asking 40.oo for the heathkit and 35 for the wawasee. They are both in good shape. They are used so they will be sold as is. I would also trade them toward a good 35 amp power supply or something in that range. Please send emails to kc8qr@neo.rr.com.
Buyer pays shipping.
Tnx

Pete Kc8qr

Some one made me one before...its ICOM din plug on one side and some
kinda of older jones or the like on the other, supplies band data and
keying...do you have one or make one please?  Thanks  Murray K5MDM

Zenith Laptop. Z-Star 433VL.   Completely clean hard drive. **There is no operating system on this computer. No windows, no DOS, no nothing!** Only has a 3.5 drive (no CD ROM) Works OK with a stripped down version of Win 95 but would probably work better with Win 3.x. Has a PCMIA card slot. Battery was replaced about 5 years ago but seems to have problems holding a charge. Unit comes with the power cord. 200 MB hard drive, 8 MB RAM, 33 Mhz.
Asking: $100

Amen! Hell will freeze over before I buy or sell ANYTHING out of
e-bay. Simply is not worth the risks or hassles in either direction.
Fortunately I live near Philly and have the luxury to be able to buy
and sell eyeball-to-eyeball based on the huge NE corridor population

density. 'Tis the only way.

Hello radio land,

Looking for a very clean 75A-1 receiver.

Would prefer local pickup, I am in New England, but would ship or travel for the right unit.

Photos are a plus, clean, original units only please.

Also interested in other black crackle Collins or quality homebrew gear, working or not!

Thanks!

I want to trade for wide band recievers and a radio capable of working 6998 KHZ ....

The wide band reciever is for my brother (national guard soildier that was actived ...) I want a Broadcast band AM/FM and Shortwave radio that he can listen to for music and news (good moral booster) pocket size and rugged.

I also want a radio so that I can get into mars (I am KB9YMX) the radio needs to work on 6998(khz ?) so that my app will be approved.

I have tons of computer equipment, a ocilliscope a few mobile ANT. scanners and coax. The computers amount to several (6) cases with motherboards from 486 thru pentium III. I also have boxes of add-ons for computers ... sound cards to network cards to even a TV tuner card.... please contact me with what you got and what you would like to see if we can work something out.

Most modern ham radios are easily converted for out of band operation.

What radio do you currently own?

The manufacturer will gladly provide modification instructions. It is generally just lifting a diode off of a circuit board. Or, the mod may be listed at one of the common mod sites.

On a temporary basis, brass aligator clips are OK up to 30 MHz provided the connecting wire is not longer than a few inches.

Been doing it for years.

I have sold all of the 73 and Ham Radio magazines and several of the CQ magazines that I posted on 3 Jan 2003.   Below is a list of the remaining issues of CQ and QST.

Will sell complete years for $8/year plus postage. For incomplete years, will sell issues for $0.75/issue plus postage. Will sell entire lot (323 issues) for $125 plus postage.

73's
Paul Keller, KA7EWL
e-mail: ka7ewl@yahoo.com

QST
1964: Sep
1969: Oct-Dec
1970: all
1971: all
1972: all
1973: all
1974: all
1975: all
1976: all
1977: all
1978: all except Mar and Sep
1979: all
1980: Jan-Mar, May-Jul, Sep, Oct, Dec
1981: all
1982: Jan, Feb
1983: Mar - Dec
1984: all
1985: all
1986: all
1987: Jan-Nov
Will sell all QST's (202 issues) for $100 plus postage.

CQ
1960: all
1961: all
1962: Jan-Jul, Sep, Nov, Dec
1963: all
1964: all
1965: all

No the rare stuff sell first. Far more QST's were sold then any other
Ham Radio mag.

Hello there,

I've got a programming adapter - cable for the Kenwood TK880 & TK780
radios to sell. I use the
kpg49d software and have at... bought this one from an online dealer

less than a six months ago
for over $100 by the time the postage/shipping smoke cleared. But when
your in the field and in
a hurry, you have to get the job done asap.

This adapter might also work on similar series models, i.e. the 800 &
900 Mhz units, of which I have
none myself. This unit is in great (near new) condition, not a
home-brew perf board prototype
unit often seen on Ebay.

So this near new programming adapter/cable unit is for sale for $55 and
a few bucks postage.
Figure $60 will get it to your door USPS with delivery confirmation.

Please take the NOSPAMPLEASE out of my Email address below, after you've
cut and pasted
it into your Email program to contact me. If you reply direct to this
post, notice the whacky
header above to reduce spam.

Thanks and I'll be happy to answer any related questions you have. I
have an all positive 625
plus Ebay feedback rating, same as my Email address if you need easy
references.

cheers
skipp

I am looking for my old friends when they were HL9 stations in Korea in 1969 /
1970.
1. William French, W2SRQ I believe he lives in Colorado.
2. John Capo III, KN4MX, I believe he lives in Florida somewhere.
I sent a mail and e-mail to the address shown up on QRZ data base but no reply.
If you know these two hams, please have them send me an e-mail.
Thanks.
Young Kim

Hi,
Does anyone have one of these for sale? If you do, please email me.

Thanks, Pat

I made a trade with George a few months back, my Bearcat 895XLR for a used Sony 2010. We kept in touch for a while, then I stopped hearing from him. I have not received the 2010, and don't even know for sure if he received the scanner. If anyone knows him, please contact him and have him get in touch with me. I stop short at this point of calling him a fraud, since almost anything could have happened to the 2010 between Britain and here, but it would bolster my confidence in my fellow hams if he at least acknowleged my concerns.

73
Brenda Ann

I am selling a Motorola Radius P50. I really hate having to part with this one......but i have to make room, and after i got my Saber i dont use it much anymore. It is in excellent condition, it's one of my personal radios, and ive taken very good care of it. It does have some scratches on the front of the case, nothing major. Works flawlessly, VHF, 5 watts out, 2 channels (currently on 154.570 and 154.600) also equipped with PL (tone 6B). Comes with a lightly used battery (bought in 2001), standard charger, and speaker mic. Also have a photocopy of the manual available (i lost the original, the photocopy is complete though) Asking $125 for radio and all accessories.

FOR SALE: 2 (1 pair) of MOTOROLA MT500's w/MDC600. They are both OMNI radios on the VHF High Split (Model # H33BBU3144A SP259). They are high power (5 watts), have 4 Channels, 3 PL's, and, are equipped with the MDC600 backs. Both are in good, working condition and come with 2 BRAND NEW batteries and two used batteries (one is still good, the other is questionable. The radios also come with channel elements (already installed, 173.275 simplex). Both radios are complete and in good working condition, they have some minor scratches and both have numbers painted on the front of them (the one looks almost brand new). One antenna has been repared with electrical tape at the base where the protective coating has split.
$70 for the pair ($90 with charger)
$35 for a single radio ($55 with charger)
$20 for rapid charger (NLN4569B)

Also for sale are 2 speaker mics for the MT500 series radios. The first one is a standard speaker mic with coiled cord. The other is a public safety speaker mic with straight cord and antenna. Both are in good working condition.
$20 for standard speaker mic (NMN6082A)
$25 for Public Safety Mic w/Antenna (NMN6803A)

First things first...
Happy Holidays to Keyclowns and Anti-Keyclowns alike.

There was a hamfest in the Detroit area which a few of us
Anti-Keyclowns attended last Sunday. Who did we see, with about a 3
day beard, homeless shelter type clothes and a glazed expression on

his goofy face????? None other than Chukkee Sukkee herself!

Chukkee was so goofed up in the head he didn't even recognize us Anti-Boys, although he had met one of us under very bad <for him> circumstances in September. He called one of us "Mike", a name which none of us carry, and mumbled incoherently at our table of antique radios, variacs, antennas, modern transceivers, etc...and departed the scene hastily.

Chukkee Sukkee can say things like "puff a root, dickhead", etc. , but has absolutely no power or credibility. This lying toad of a human being has said the following things on the NG's, all proven false:

1. He works for Jeff Roush racing
2. He has a concealed weapon permit<he ADMITTED THIS WAS A LIE IN SEPTEMBER>
3. He is affiliated with a gang called the Latin Counts
4. He is affilaited with a bike gang called the Iron Coffins
5. He owns a .45 caliber pistol
6. He owns a 9 MM pistol
7. He has faced down police officers over his pistol. <he calls police officers "pigs" in his posts>
8. When accused of selling illegal radio equipment Chukkee Sukkee vehemently denied doing so. That is, until an enterprising amateur looked up his advertising for sale of illegal amplifiers on various amateur radio and CB forums. This documentation drove him back into the woodwork a while.

Chukkee Sukkee says these things to make himself appear to be some sort of a formidable human being. When confronted in person he wilts like a dandelion hit with weed killer. For example, Chukkee Sukkee threatened in rec.radio.cb to shoot people with a 9mm pistol at the Findlay, Ohio hamfest in September, 2002. The persons he threatened walked up to his table and asked him if he wanted "to settle the hash now", and he could not have been faster to stretch out a hand to shake if he had a spring loaded elbow.

In late 1999, he lost an ISP because he threatened another amateur with raping his wife and daughter, killing his dog, and doing a drive by shooting on his home. The local police and the Toledo office of the FBI became interested in Chukkee Sukkee recently because of his long record of violent threats to people in newsgroups. The Lincoln Park, MI Police dept. paid Chukkee Sukkee a visit in September, 2002 because of these threats. After the cops were done with him, Chukkee Sukkee whined like the cowardly person he is, and posted to rec.radio.cb a long and lying denial of making any violent threats, and specifically admitted he had never owned a hangun or had a CCW permit. This admission ran counter to the fact that he had stated many times he owned either a .45 caliber or a 9 MM pistol, and had a CCW permit. This exposed the lies, of course.

There is now an outstanding warrant for Chukkee Sukkee's arrest in

Lucas county, Ohio for meancing as a result of his violent threats. The Anti-Keyclowns have a copy of the police report in our posession. This will be made available to anyone who wants it, as it is public information. Email us for details.

Chukkee Sukkee should be considered a fat mouthed idiot, and very desperate to belong to some group or organization. He has been rejected by most rational persons, and will continue to be until he moves somewhere that has a population that has never been exposed to his moronic actions. <the planet Neptune, maybe?>

In summary, we have among us a lying idiot who has obvious psychological issues. He is prone to violent threats against people, even women, children and pets. When confronted, though, he shows a spineless, yellow, cowardly nature.

If Chukkee Sukkee is smart he will stay in Michigan. If he gets confronted by any LEO in Ohio he may be on a road he does not wish to travel. Chukkee Sukkee makes a big blatting issue of the fact that he was at the Toledo hamfest last year and that his truck and his carcass emerged unscathed. Fact is, no one threatened either. It is Chukkee Sukkes's mentality, however, that most intriguingly emerged in the dust up over this situation last March... Why would anyone be concerned about their auto being damaged unless: A> They are in the habit of damaging autos and have that mid set, or B> They are guilty of doing something bad and expect retribution?

Laugh if you will folks, but Chukkee Sukkee is a sick puppy.

Hello there,
Just a cheap and shameless plug for the Siltronix and Swan 1011 radio web page found at:

http://sonic.ucdavis.edu/siltronix

The same server also has a generic amateur radio page which can be found at: http://sonic.ucdavis.edu

Have a look when you can... some history about the radio plus trivia....

cheers
skipp

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&category=4673&item=1943083935&rd=1

This auction is for an Icom IC-202 2m SSB/CW portable radio . This radio works off of 9 "C" cell batteries or a power supply. It covers 144.000 - 144.400 and includes crystals for 145.000 - 145.200, 145.800 - 146.000. The radio is in fair shape, showing obvious wear, but it works flawlessly. I recently bought this to use is as part of a project that I've since abandoned, so I do not need it. I tested it in the mobile and talked to a station about 10 miles away with a mobile antenna on the roof. He reported audio and signal was good. Output power is about 2 - 3 watts depending on how you power it. It has a telescoping antenna, or you can use a regular antenna by way of a rear PL-259 connector. Included is a hand microphone. Please note: This is NOT the IC-202E or the IC-202S. I am not sure what the internal differences are between these models, but the front panel does look a little different from these other models, but I think they have all the same functions.

On 6 Dec 2002 07:28:55 -0800, chukkeedacriminal@yahoo.com (The truth
about ChukkeeSukkee) was blabbling:

...First things first...
...Happy Holidays to Keyclowns and Anti-Keyclowns alike.
...
...

You too Dougie

...There was a hamfest in the Detroit area which a few of us
...Anti-Keyclowns attended last Sunday. Who did we see, with about a 3
...day beard, homeless shelter type clothes and a glazed expression on
...his goofy face????? None other than Chukkee Sukkee herself!
...

Goofy face??? you ain't miss america either dude! yes, I have a
beard.. at least I can grow one...Homeless shelter???HAHAHA...what an
idiot.

...Chukkee was so goofed up in the head he didn't even recognize us

...Anti-Boys, although he had met one of us under very bad <for him>
...circumstances in September. He called one of us "Mike", a name
which
...none of us carry, and mumbled incoherently at our table of antique
...radios, variacs, antennas, modern transceivers, etc...and departed
the
...scene hastily.
...

I walked around twice....was looking for the guy I came with James
Keller W8WW....(whom I have a feeling might have authored this...)

and I might have called you Mike...sheesh...cut a guy some slack...

and for the record....you didn't do jack shit, Dougie...and you
fucking know it....

...Chukkee Sukkee can say things like "puff a root, dickhead", etc. ,
but
...has absolutely no power or credibility. This lying toad of a human
...being has said the following things on the NG's, all proven false:
...
...1. He works for Jeff Roush racing

Jeff Roush....???? I never said that...I worked for Jack Rouch...as in
Rouch Industries Inc. . a job I HATED...Because of the fucking MORONIC
management...you know Morons....like your dumb fucking ass?

...2. He has a concealed weapon permit<he ADMITTED THIS WAS A LIE IN
...SEPTEMBER>

I never admitted anything...

I know what I got, and who said it's registered?

...3. He is affiliated with a gang called the Latin Counts

Again, dougie...you TWIST the truth! I never said I was " affiliated"
with them! I said I know a few of them....and a few owe me a few
favors..

Can't you do anything more original????

...4. He is affilaited with a bike gang called the Iron Coffins

Again, dougie...you TWIST the truth! I never said I was " affiliated"
with them! I said I know a few of them....and a few owe me a few
favors.....

...5. He owns a .45 caliber pistol

Like I said...you don't know what I got...

...6. He owns a 9 MM pistol

see above.....

...7. He has faced down police officers over his pistol. <he calls
police
...   officers "pigs" in his posts>

again.....you twist and make up shit....I never said this....period.

...8. When accused of selling illegal radio equipment Chukkee Sukkee
...   vehemently denied doing so. That is, until an enterprising
amateur
...   looked up his advertising for sale of illegal amplifiers on
...various
...   amateur radio and CB forums. This documentation drove him back
...   into the woodwork a while.
...

I never DENIED selling them in the past....I don't sell them now....

...Chukkee Sukkee says these things to make himself appear to be some
...sort of a formidable human being. When confronted in person he
wilts
...like a dandelion hit with weed killer. For example, Chukkee Sukkee
...threatened in rec.radio.cb to shoot people with a 9mm pistol at the
...Findlay, Ohio hamfest in September, 2002. The persons he threatened
...walked up to his table and asked him if he wanted "to settle the
hash
...now", and he could not have been faster to stretch out a hand to

shake
...if he had a spring loaded elbow.
...

Now this REALLY FUNNY!

Douglas Adair.....YOU NEVER EVEN FUCKING SPOKE A WORD TO ME...UNTIL I MENTIONED THE THING TO KEITH KC8TCQ....YOU'RE SUCH A FUCKING LYING ASS'ED BASTARD!

YOU AIN'T SHIT!

...In late 1999, he lost an ISP because he threatened another amateur
...with raping his wife and daughter, killing his dog, and doing a drive
...by shooting on his home. The local police and the Toledo office of the
...FBI became interested in Chukkee Sukkee recently because of his long
...record of violent threats to people in newsgroups. The Lincoln Park,
...MI Police dept. paid Chukkee Sukkee a visit in September, 2002 because
...of these threats. After the cops were done with him, Chukkee Sukkee
...whined like the cowardly person he is, and posted to rec.radio.cb a
...long and lying denial of making any violent threats, and specifically
...admitted he had never owned a hangun or had a CCW permit. This
...admission ran counter to the fact that he had stated many times he
...owned either a .45 caliber or a 9 MM pistol, and had a CCW permit.
...This exposed the lies, of course.
...

AFTER THE COPS WERE DONE WITH ME?!?!?!?
BAAAAAAAAAAAAAAAAAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHAHHAHAH!

NOT!

AGAIN! MORE BULLSHIT LIES!!!!!! ONE DETECTIVE COMES HERE...AND I TALKED TO HIM....

SHEESH! DOUG YOUR LACKING ORIGINALITY...

...There is now an outstanding warrant for Chukkee Sukkee's arrest in
...Lucas county, Ohio for meancing as a result of his violent threats.
...The Anti-Keyclowns have a copy of the police report in our
posession.
...This will be made available to anyone who wants it, as it is public
...information. Email us for details.
...

I WANT TO SEE IT FOR MYSELF!!!!

...Chukkee Sukkee should be considered a fat mouthed idiot, and very
...desperate to belong to some group or organization. He has been
...rejected by most rational persons, and will continue to be until he
...moves somewhere that has a population that has never been exposed
to
...his moronic actions. <the planet Neptune, maybe?>
...

YEAH, FUCK YOU DOUGIE....MAYBE I'LL COME DOWN THERE THIS WEEKEND.

AND WE'LL "TALK"

...In summary, we have among us a lying idiot who has obvious
...psychological issues. He is prone to violent threats against
people,
...even women, children and pets. When confronted, though, he shows a
...spineless, yellow, cowardly nature.
...

YOU'RE A ONE TO TALK!

...If Chukkee Sukkee is smart he will stay in Michigan. If he gets
...confronted by any LEO in Ohio he may be on a road he does not wish
to
...travel. Chukkee Sukkee makes a big blatting issue of the fact that
he
...was at the Toledo hamfest last year and that his truck and his
carcass
...emerged unscathed. Fact is, no one threatened either. It is Chukkee
...Sukkes's mentality, however, that most intriguingly emerged in the
...dust up over this situation last March... Why would anyone be
...concerned about their auto being damaged unless: A> They are in the
...habit of damaging autos and have that mid set, or B> They are
guilty
...of doing something bad and expect retribution?
...

MORE BULLSHIT TO COVER THE FACT THAT YOU'RE AN IDIOT DOUG...

...Laugh if you will folks, but Chukkee Sukkee is a sick puppy.

SO IS DOUGIE AND A NO-CODE, 2 FUCKING METER PENCIL-NECKED GEEK!!!! WITH NO CLASS, NO LIFE AND NO FUCKING JOB....AND HAS TO BUILD 2 METER ANTENNAS FOR A LIVING...

TELL ME DOUG, WHY DID YOU CLOSE THE RENTAL SHIP IN COLDWATER? PROLLY BECAUSE YOU WERE SELLING DRUGS OUT THE BACK DOOR AND COLDWATER SHUT YOU DOWN! YOU SEE, i HAVE FAMILY THERE AND i HEARD ALL ABOUT IT!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!

AND THEN YOU COWARDLY RAN TO CHICAGO!

LATER DOUG...

P.S.....the shit never stops

'Radio Amateur Callbook' Spring 1949
$5.00

In addition to all the US ham callsigns, this callbook includes a lot of old advertisments from the good old days of ham radio.

You can view a scan of the callbook at
<http://www.pbase.com/timrichardson>
Just click on the 'ham_radio' gallery

The callbook is complete but NOT in pristine condition. It is yellowed, has some water stains, edges and corners are worn, some tears, bent corners, musty smelling and the covers are in pretty bad shape and about to fall off as you can see from the pictures.

U.S Shipping & Handling:

$3. (USPS Media Mail)

I accept money orders, cashier's checks, personal checks (allow up to ten days to clear)

'Radio' Magazine

Enjoy the bygone days of amateur radio from the late 1930's and early 1940's. Chock full of technical articles, construction projects, and advertisements showing some of the great radio equipment and components of the day.

$2.00 each unless otherwise noted

Magazines available:

.1936 December (front & rear covers detached) $1.00
.1937 March
.1937 March
.1937 June
.1937 December
.1938 February
.1939 May
.1939 October
.1939 October (rear cover detached, no spine) $1.00
.1939 November (front cover detached) $1.00
.1939 December
.1941 July
.1941 October
.1941 November
.1941 December
.1942 January
.1942 January (front & rear covers detached) $1.00
.1942 February

You can view scans of each magazine cover at
<http://www.pbase.com/timrichardson>
Just click on the 'ham_radio' gallery

$2.00 each unless noted

All magazines are complete but are NOT in pristine condition. All are yellowed, some have water stains, edges and corners are worn, some tears, bent corners, spines are very worn on most, musty smelling.

U.S Shipping & Handling (USPS Media Mail):
$2.00 for first magazine

$0.50 per additional magazine

I accept money orders, cashier's checks, personal checks (allow up to ten days to clear) or PayPal for amounts of $20 or more.

Really....has anyone else noticed the 'lack of interest' about Pearl Harbor?
Guess were all afraid of ticking off the Japs.

ONLY 12 HOURS LEFT!

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&category=4673&item=1943083935&rd=1

This auction is for an Icom IC-202 2m SSB/CW portable radio . This radio works off of 9 "C" cell batteries or a power supply. It covers 144.000 - 144.400 and includes crystals for 145.000 - 145.200, 145.800 - 146.000. The radio is in fair shape, showing obvious wear, but it works flawlessly. I recently bought this to use is as part of a project that I've since abandoned, so I do not need it. I tested it in the mobile and talked to a station about 10 miles away with a mobile antenna on the roof. He reported audio and signal was good. Output power is about 2 - 3 watts depending on how you power it. It has a telescoping antenna, or you can use a regular antenna by way of a rear PL-259 connector. Included is a hand microphone. Please note: This is NOT the IC-202E or the IC-202S. I am not sure what the internal differences are between these models, but the front panel does look a little different from these other models, but I think they have all the same functions.

I have for sale an Optoelectronics Optocom receiver. Specific details of the Optocom can be found at:

http://www.optoelectronics.com/optocom

This Optocom contains the latest firmware, version 1.5. It also has the Bitbanger addition. Unit is in excellent condition and has been used exclusively in an indoor environment.

Includes AC90 power adapter, telescoping whip antenna, serial cable, Trakkstar software disc and license, instruction manual, and Optoelectronics Utility disc.

Asking $400.00 shipped UPS ground US only. Payment via Paypal or PREPAID WITH US POSTAL MONEY ORDER ONLY!

Reason for selling: I have two of them, and this one is seeing very little use. Liquidating for purchase of other equipment.

Please E-Mail me at kc1ua@scancapecod.net if interested. Thanks for reading.

Scott

Want to trade two Drake TR-4s with three AC-4 power supplies, one MS-4, Shure 444 Mike plus extra transmitter final tubes for Heathkit SB-220/221 Amplifier. Does not have to be a "collector's" unit, but must work. Call me if interested and will discuss shipping for SB-2XX unit and Drake equipment. Will also sell Drake units as a package for $560.00.

We're Mike and Trudi Ratican. I'm an active ham, and do alot of "shopping" for gear. We both collect a lot of things, including Fenton, Hofbauer, Vintage Radios, and many other things. We have fun buying and selling at online auctions, but no fun paying the fees!

We've started an auction for us "working class" people that's easy to use, and with the features you expect from an auction, but without all the fees, and without a commission if you sell. No pop-ups, no nonsense.

As an example, you can post a single-picture auction, and if you sell your item you pay nothing else. If your item doesn't sell, you can re-post it for free. You get up to 15 days to sell your item for only 20 cents. Auctions without a photo are � that price!

You're invited take a look, and celebrate the holidays with all free auctions through the end of the year.

Thanks & 73,
Mike W9RAT & Trudi Ratican

Because of inappropriate cross-posting. Obviously someone thought it was important enough to disregard common netiquette. Thing is, it's only freakin' FICTION...not real ham radio.

IC-T81A Specifications
This information is taken directly from the IC-T81A/E brochure

General
Frequency coverage (Unit: MHz)
50 MHz 144 MHz 440 MHz 1.2 GHz WFM (not guaranteed)
Rx/Tx:
50 - 53.995 Rx:118-173.995*1
Tx:144-148 Rx:400-469.995*2
Tx:430-450 Rx/Tx:
1240 - 1300 Rx:76 - 107.995

*1 Guaranteed 144-148 MHz only; *2 Guaranteed 440-450 MHz only;
Mode: FM, WFM (Rx only), AM (Rx only)
Number of memory channels: 124 (100 regular, 20 scan edges, 4 call)
Frequency stability: � 3 ppm (-10�C to +60�C;)
Useable temperature range: -10�C to +60�C;, +14�F to +140�F
Power supply : 4.5 to 16 V DC or specified battery pack
Current drain (at 13.5 V DC):
Tx: maximum power: 1.4 A (0.8 A at 1200 MHz)
Rx: rated audio: 220 mA (typical)
power saved: 40 mA
standby: 70 mA (90 mA at 1200 MHz)
Tuning steps (kHz): 5*, 10, 12.5, 15*, 20, 25, 30, 50, 100 (*not available for 1200 MHz band)
Antenna connector: SMA (50 ohm)
Dimensions (projections not included):
58(W) x 106(H) x 28.5(D)mm
2-9/32(W) x 4-3/16(H) x 1-1/8(D)in
Weight (approximate, with antenna):
290g; 10.2 oz (with BP-197)
270g; 9.5 oz (with BP-199)
280g; 9.9 oz (with BP-200)

Transmitter
Output power (at 13.5 V DC):
High: 5.0 W (1.0 W at 1200 MHz)
Low: 0.5 W (0.1 W at 1200 MHz)

Modulation system: variable reactance frequency modulation
Max. frequency deviation : � 5 kHz
Spurious emissions : Less than -60 dB (-50 dB for Europe version at 1200 MHz; -40 dB for others at 1200 MHz)
External mic connector : 3-conductor, 2.5(d) mm (1/8")/ 2 k ohm

Receiver
Receive system: Double conversion superheterodyne
Intermediate frequencies:
1st: 69.45 MHz (13.35 MHz: WFM)
2nd: 450 kHz
Sensitivity (except spurious points):
FM 50 MHz=0.18 �V, 144 MHz=0.18 �V, 440 MHz=0.18 �V, 1.2 GHz=0.25 �V
AM 50 MHz=0.56 �V
WFM 91.5 MHz=2.0 �V
Squelch sensitivity (threshold):
0.18�V (FM; 0.25 �V at 1200MHz)
5.6�V (WFM)
0.56�V (AM)
Selectivity (except WFM):
More than 15 kHz/-9 dB
Less than 30 kHz/-60 dB
Spurious and image rejection ratio:
50, 144 MHz: Less than -60 dB
440 MHz: Less than -50 dB
1200 MHz: Less than -50 dB
(Except half IF, 2nd image, 50 MHz band IF and WFM)
Audio output power (at 13.5 V DC): 250 mW typical at 10% distortion w/ 8 ohm load (at 13.5 V DC)

Supplied Accessories
Battery pack
Wall charger
Antenna
Belt clip

$250 plus Shipping

0 FM: Variable Reactance
0 FSK: Audio Frequency Shift Keying
Maximum FM Deviation: �2.5 kHz
FSK Shift Frequencies: 170, 425 and 850 Hz
Packet Shift Frequencies: 200, 1000 Hz
Harmonic radiation: at least 50dB below peak output
SSB carrier suppression: at least 40dB below peak output
Undesired sideband suppression: at least 50dB below peak output
Audio response (SSB): not more than -6dB from 400 to 2800 Hz
3rd-order IMD: -36 dB @ 150 watts PEP, -31 dB @ 200 watts PEP, or better
Microphone impedance: 500 to 600 Ohm
0
RECEIVER 0
Circuit type: quad-conversion superheterodyne (triple conversion for FM)
Intermediate Frequencies: 73.62 and 8.215 MHz and 455 and 100 kHz

Sensitivity (For 10 dB S/N):

Frequency	100 ~ 250 kHz	250 ~ 500 kHz	0.5 ~ 1.8 MHz	1.8 ~ 30 MHz
0 Mode				
SSB, CW (2.4 kHz)	1.25 uV	1 uV	2 uV	0.25 uV
AM (6 kHz)	10 uV	8 uV	16 uV	1 uV
29 MHz FM (12 dB SINAD)	-	-	-	0.5 uV

Selectivity (-6 / -60 dB):

Button	Modes	Min -6dB BW	Max -60 dB BW
2.4 kHz	all except FM	2.2 kHz	3.8 kHz
2.0 kHz	all exc. AM, FM	1.8 kHz	3.6 kHz
500 Hz	CW, RTTY, Packet	500 Hz	1.2 kHz
250 Hz	CW, RTTY	240 Hz	700 Hz
-	AM (Wide)	6 kHz	14 kHz

Sensitivity (For 10 dB S/N):
Frequency 100 ~ 250 kHz 250 ~ 500 kHz 0.5 ~ 1.8 MHz 1.8 ~ 30 MHz
    0
Mode
SSB, CW (2.4 kHz) 1.25 uV 1 uV 2 uV 0.25 uV
AM (6 kHz) 10 uV 8 uV 16 uV 1 uV
29 MHz FM (12 dB SINAD) - - - 0.5 uV

Dynamic Range: 108 dB (@ 50 kHz, 500 Hz BW, RF amp off)
Squelch sensitivity: 1.8 ~ 30 MHz: (CW, SSB, AM): <2.0uV
0 28 ~ 30 MHz: (FM): <0.32uV
IF rejection (1.8 ~ 30 MHz): 80 dB or better (Main RX)
Image rejection: (1.8 ~ 30 MHz): 80 dB or better (Main)
IF shift range: �1.12 kHz
Max audio output: 2W into 4 Ohms with < 10% THD
Audio output impedance: 4 to 8 Ohm
 0
Specifications subject to change, in the interest of technical improvement,

with a million people looking here I just figured it would be faster and
cheaper
than putting stamps on an envelope and snail mailing the entire ham
community.
And besides, if somebody recorded it they could sell it here, after all,
that show was about ham radio, silly as it was.

For Sale: MINT MFJ-9406 six meter transceiver. This rig is a blast! Hate to unload it, but I've got a new FT-847 with 6 meters. GREAT transmit audio! Worked locally and lots of DX using only a three element yagi. CW module installed. Comes with manual, original box, stock hand mic and DC cord. $169 and I will pay for shipping and insurance. If you're short on cash, we can run the transaction through my little Ham/SWL business using your "plastic". First e-mail or phone call gets it. 73 from Bill - WA8MEA, 1.517.563.2613 - http://qth.com/dwm

I recently inherited these two receivers from an old friend and silent key, but neither had owners manuals. Can anyone help me out with nice photocopies or scans? I would be happy to cover the cost of copies and postage.

Thanx,
John

re: want to buy/locate a used Universal SCPC-200 Receiver.

Hello there,

I'm hoping to find a used "Universal" SCPC-200 satelite receiver, or equivalent for sale on the used market. These receivers were common in broadcast stations.

The scpc 200 has been around long enough that I would hope some of you might have an unused unit left over from your old C-Band satelite days... and would consider parting with it for a fair price.

I plan to donate the receiver to a real public service application near Sacramento, CA.   I can buy the unit from you or trade some type of "anchor" or part you might be looking for.

I can also trade broadcast and electronics work if practical... as I also do that sort of thing.

I figure with the migration to digital satelite feeds, one of you out there has one of these things just begging to be placed back in service. So maybe we can work something practical out...

Thanks for reading this... to reply to me, please take the NOSPAM4MEPLEASE out of my Email address and drop me a note. You can also contact me using one of the Email Icons off the sonic web server http://sonic.ucdavis.edu

cheers
skipp

For Sale: A VERY nice Heathkit HW-100. Works great, looks great. Comes with HP-23 power supply, two hand mics (one is the original Heath mic, the other a Turner mic that looks just like the Heath mic.), a NEW W7FG Vintage Manual, spare 6146's and 6CL6 driver. No dents, no rust, original paint, original knobs. Great rig for a Heathkit collector, to have as a spare rig, or even an inexpensive first rig. $295 for ALL this, and I will pay for the shipping and insurance. If you're short on cash for the holidays, we can run the transaction through my little Ham/SWL business using your "plastic". First e-mail or phone call gets it. 73 de Bill Lauterbach   -...-   WA8MEA   -...-

This is the Yaesu FT-990 HF Transceiver that rates a 5 out 5 on the eham.net reviews! See http://www.eham.net/reviews/detail/402 for details. This is a single owner radio that has been very well cared for, hardly used and kept in a non-smoking environment. The radio works great and has never needed any repair. It is in very good physical condition with a few minor scuff marks around the corners that are so small they don't even show up in the pictures, which can be viewed at http://www.qsl.net/k5vx/ . Included are the 500 Hz and 2400 Hz filters, built-in AC power supply and antenna tuner, Yaesu hand microphone, plus the Yaesu FIF-232C CAT to EIA-232 adapter and cable for computer control, and the manual. Asking $925.00 which includes ground shipping (CONUS). Contact Jonathan at k5vx_AT_arrl.net or 972 685

5169. Thanks & 73!

This is a Standard C158A HT, With Manual, Wall-Wart, lanyard.. I don't have the Box any more.. The Radio is like NEW Seriously.. The Battery has been Charged 3 times, and logged on the Wall-Wart box.. The Function key above the PTT has GREAT Lettering.. This is virtually a New HT.. I have got about 5 HT's here and need to thin out some.. I'm Asking $125.00 for the HT..
If your interested, Contact me at: N8NOE@Comcast.Net   Jeff

I have 30 of these transformers .....$1.75ea....
or all for $45.00.....
Buyer pays for shipping ..
Transformers are PC Board pulls ...please check website ...Model DZ7 -24
12 volt @ 1.5or 3.0 amp or 24 volt @ 1.5amp
High isolation - 2500Vrms hipot
Low capacitive coupling - no electrostatic shield needed
PC pins for direct insertion in PC boards
Class B insulation - 130�C
Single or Dual primary - 115 or 115/230V, 50/60Hz
American and Canadian Agency Approvals
Check website below for more data on this type of transformer
http://www.powervolt.com/sz.html

I have for sale a Radio Shack PRO-92A (firmware 3.25) portable scanner. With original box, antenna, both battery holders, manual, AC adapter, and glove leather case (plastic cut out for easier viewing and access to keys). Scanner is in very good condition. Some blemishes on the BACK of the scanner from use prior to obtaining case. Display and front are in very good shape.
Price: $120 shipped via U.S, Postal Service Priority Mail U.S. only ON RECEIPT OF US POSTAL MONEY ORDER ONLY. ANY OTHER TYPE OF MONEY ORDER WILL BE RETURNED! PayPal also accepted; if using credit card for PayPal total will be $125 shipped to cover Paypal's credit card charge to me.

Thanks for reading. Please e-mail me if interested.

I have for sale a Radio Shack DX-398 Shortwave Receiver with original box, carry case, and manual. This radio is in mint condition and has only been turned on about four times. I thought I would have use for it but have not. This receiver has full shortwave coverage and includes separate upper and lower sidebands, as well as FM Stereo (through headphones not included).
Asking $120.00 shipped USPS Priority Mail U.S. only on receipt of U.S. POSTAL MONEY ORDER ONLY! Paypal is also accepted, please add $5 if using credit card for total of $125.00 to cover my PayPal credit card charge.

Thanks for reading. Please reply via e-mail if interested.

Has anyone here ever dealt with K1MAF? He has a NIB TS570 that I am thinking about buying.

Thanks.

```

On Mon, 9 Dec 2002 01:40:01 -0500 (Eastern Standard Time) "skyhawk",
after having his auction ratted out, <sky444@abs.adelphia.net> whined
like the impotent sissy boy he is...:

yea whatever dipshit....you just money away from my kids
Christmas,,,,,the only reason I was selling this as a package and
cheap I might add so it would sell fast and I could have that cash for
Christmas.....Happy Now asshole.....let me guess now your gonna call

the FBI....we went from Narcing on eBay to Adelphia......wow aren't you just to special...........please refrain from sending me anymore email as you are doing nothing but pissing me off more and more........and you might think that's funny but you know what it really isn't....now I'm gonna have to figure out how to sell that somewhere else quickly to get my damn money for Christmas for my kids stuff.......this is how the not so rich live....pretty isn't it...someone like you comes along playing God and they fuck it all up.......thank you so much ,it really is appreciated

My usual type of totally accurate and completely moral reply"

Hey,
Have fun yourself. You can tell anyone and everyone...They already know...Anti-Boys been rattin out scumbags like you a long time.
You were just another notch on my holster. As far as being an asshole goes, I consider it a compliment to see you call me that. If a criminal hates me I am likely doing something right.

You are really stupid. You think I CARE if you TELL ABOUT ME? On the contrary. If I did I would not have emailed you to letya know.

Do your worst, buttlick...

I think I will report your illegal business transaction to adelphia. Since you like to call names so much you can go there and call them names after your access gets pulled.

You are an impotent shitball and a little boy in a man's world. Take a hike, sonny.

I have a TS-130S that a friend asked me to sell. It works fine on all bands on a dummy load and 80 & 40 meters when I switch to an antenna -but when I go to 15 and above the needles on a dual meter ping to the top and no adjusting of an antenna tuner will get it down.

I took the rig to a friend's shack near me and tried it using his antennas...same deal.

Anyone run into this and have any suggestions?

de Keith VO1AE

Hello
I have a FT 920 with the AM filter and FM board. The FT 920 is 100 watts HF + 6 Meters.
It has a Auto tuner and the MC 100 Desk Mic. In the deal you will get the technical supplement too (AKA Service manual), as well as the owners manual . I also Have the 3 KW Roller Inductor Antenna Tuner.
They are in good shape I will trade both for a FT 990 or a FT 1000.. I have been using the FT 920 as a backup rig. Drop me a line so we can work out a deal.
oris@dirtball.com
I have a Icom ICR71A Shortwave receiver that I will trade for a working Viking Valant and SX 300 or Hamuland HQ 110. I'm looking for a good AM Han station
with at least 200 watts out. I hope to find something to work with my Audio rack.
I also have a Henry Amp 2 KD 5 Desktop,(It needs a new Plate amp meter) two 3-500s 100 in will give you 1250 out, New Caps, that I will trade for a Globe King or full legal output Ham band AM transmitter.
this is a pickup trade only. I will be willing to travel 100 miles from Athens GA. Happy Holidays
73 and thanks for reading

From Estate sale; Cavity model number DB4022 Band Pass / Band Reject
Cavity, 450-512 MHz, it has two receive cavities and one transmit
cavity mounted in an outdoor cabinet.
Duplexer was used with a 300 watt 440 repeater.
I was told the duplexer is rated for 500 watts.
Decibel Products information from their site.

I have for sale or trade the following items (prices don't include shipping,
but I'll split actual shipping costs with you):

Yaesu 5400 AZ-EL antenna rotor w/control box, about 50' of cable, copy of
manual. Asking $300.

Heathkit HW-104 solid state HF transceiver w/HP-1144 power supply, HP-1661 speaker, original construction and operating manuals. Does about 100 watts out on 80-10 meters, no WARC. Excellent condition. Original RCA antenna jack has been replaced with a BNC. Asking $275.

Kenwood TS-830S 160-10M HF transceiver. Built-in AC supply, hand mic, copy of manual. Good condition. Asking $345.

MFJ 1270C TNC (2 of them). Original manuals, boxes, accessories. I'm the original owner on these. Both in excellent condition. $80 each.

AEA PK-232 TNC (2 of them). One is the MBX version and includes manuals and cables for $80. The other is a plain 232 and comes with one radio cable for $65.

Alinco DR-1200 2 meter data radio. 25 watts out on 2m packet. You can put a microphone on it if you want. Includes manual. $80.

I'm looking for the following items:
Swan 700, 700cx
Drake TR4C w/MS-4/AC-4
Drake C-Line twins
Drake TR-7 and PS
Swan 400
Heathkit SB-220
Heathkit SB-230
Legal limit HF amplifiers
Kenwood TS-950SDX
Yaesu FT-101EE

If you'd like to work out a trade, please email me at jcamp2@cox.net. Cash is always welcome, too.

Thanks and 73,
Jeff

This is a Standard C158A HT, With Manual, Wall-Wart, lanyard.. I don't have
the Box any more.. The Radio is like NEW Seriously.. The Battery has been
Charged 3 times, and logged on the Wall-Wart box.. The Function key above
the PTT has GREAT Lettering.. This is virtually a New HT.. I have got about
5 HT's here and need to thin out some.. I'm Asking $125.00 for the HT..
If your interested, Contact me at: N8NOE@Comcast.Net   Jeff

Hi All !

I've got an old Hallicrafters SX-96 Shortwave receiver for auction on ebay, and thought i'd post the link here if anyones interested.

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&category=4673&item=1945980255&rd=1

I'm not a ham/shortwave person, and I've put all the details I know in the auction description. If you have a question for me, please don't hesitate to email me and I will do my best to answer it.

Thanks and happy holidays.

Mike.
isomeone (at) yahoo.com

ps. I also have a Horizon Eclipse marine radio up for auction which you can view by clicking on the link above and viewing my other auctions.

I have for sale a very nice condition Drake R-4B receiver.
Works great and looks good. Pictures available by request.
Asking $250 shipped to continental USA.

Thanks,
Michael

I have two Drake TR-4s, three AC-4s, one MS-4, one W-4 wattmeter and Shure 444 Mike for sale or trade for SB-220/221. Amp need not be a "collector's item" but must work with full output. Have additional mikes to go with system plus extra TX Tubes.

KF5KF)Good QRZ)
Thanks Joe

TRANSFORMERS FOR SALE

105/115/125V AC Primary, Two 12V CT at 50 Amp secondaries.
Use for 2 X 6.3V at 50 Amps or as 2 X 12V at 50 Amps.
Dimensions: 7" X 6.5" X 5.25" tall.
Will sell for $60.00 plus shipping

115/230V Primary,   2V at 30 Amps
Brand new, case 4.5" X 4" X 6" tall.
Has large ceramic insulated terminals. Mount by four studs on bottom.
Will sell for $39.00

115/230V Primary 4V at 50 Amps
Brand new, case 4.5" X 4" X 6" tall.
Has large ceramic insulated terminals.
Mount by four studs on bottom.
Will sell for $39.00

G.E. Plate Transformer, 120/240V AC primary, with secondary of
4160 V at 120 mA (500 Watts) Will sell for $85.00

Plate Transformer, AVCO, 120V primary, with secondaries of
1050 V CT at 75 mA, and 5 V at 20 Amps,
New. Will sell for $32.00

115/230V primary. Sec is 7.5V CT at 51 Amps.
Dimensions: 5" wide X 4.5" Deep X 4" tall.
Will sell for $110.00

900MHz Duplexer
for sale on eBay # 1946564789

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=1946564789

Sinclair Radio Laboratories RES-LOK C4220B Duplexer

High-quality unit in great condition.

Perfect for UHF repeater.

Can be tuned by an experienced ham/engineer,
but I'm not sure if it can be tuned to cover the entire 902-928 ISM band.

Beware of this jerk, John Carter AA6JC. I sold him a great working TS-440S/AT that has scratches on the exterior case and he flamed me on EBay feedback. Didn't ask for his money back, just the flame.

What a knucklehead, the radio worked great, so what it has scratches from one too many field day events.

DO NOT BUY OR SELL ANYTHING TO THIS GUY.

You've been warned.

73,
Rob N4RPD

For my own interest, did you indicate that there were scratches on the radio
when you listed it?

The listing did state that there were scratches on the exterior, but I also
said it does not effect the operation of the radio.  And it does not.  If he
wanted a museum piece then this was not it, even the photos show the radio
has wear and tear on it.  But it does work like a champ.

I'm sorry you find my posting of a useful piece of radio equipment to ham equipment and swap newsgroups to be crap. At your warm and friendly suggestion I have looked up the meaning of FA and will use it in future postings of this nature. If I may offer some unsolicited advice, I think you'll find that people respond better to help and guidance than judgement and negativity. This has worked for me for many years in many different types of discussion forums, on usenet and

bulletin board systems, since before the web.
Best,
Nicholas

I want to know is why you bothered to post this nonsense here for all of us
to read!  Leave him a negative or another comment.  Is this your first
negative or do you have many?  Perhaps it's justified!

I'm looking for a pair of Swan twins -- 600T/600R, a Swan 400, and a nice 700cx. I'm also looking for a working Drake TR4C or a pair of Drake C-Line twins. If you have any of these and would like to part with it, please email me at jcamp2@cox.net. I can offer cash or a swap for a combination of the following items:

Heathkit HW-104 80-10M solid state transceiver with speaker, PS, operating
and
construction manuals, excellent condition.

Kenwood TS-830S 160-10M transceiver in good condition (includes WARC bands) and hand mic, copy of manual.

MFJ 1270C TNC with original box, cables, manuals (I'm the original owner).

Alinco DR-1200T 2 meter data radio with cable and manual. Cable is for the MFJ 1270C.

AEA PK-232 TNC. Original box, manual, tons of cables.

Thats not to descriptive
Scratches on the top cabinet shell, completely "gouged" up face panel or "both".
I seen many guys let gear tango in a box with some boatanchors for a couple hundred before putting it on Ebay.
A scratched cabinet shell is no big deal on a TS-440 but a scuffed up faceplate is.

> > What a knucklehead, the radio worked great, so what it has scratches from
> > one too many field day events.

A TS-440 can strap inside a $20 15 inch Laptop Case (Micro Center)....were you to cheap to buy one for all them field events. Are you one of them slob's who treats your radios like lug wrenches and ash trays ?
You should have used those exact words in the post.

Please the pic of this radio, item number and we will see
BTW your webpage is down

The pics in the link you posted do NOT show "the radio has wear and tear on it." In these blurry pics, the radio looks great! Upfront pics of the scratches would've probably prevented this from happening. It's probably wise to take pics of all the WORST features of something you're selling so there is no ambiguity.

It looks to me like you weren't clear enough about what you were selling and he didn't clarify or ask for scratch pics (which should've been supplied anyway). Looks like BOTH of you blew it on this transaction.

He should've returned it to you for his money back and you each should've paid shipping one way - equally dividing the shipping "loss" (shipping cost). No harm, no foul, nobody pissed off. Him keeping the rig and whining... then you whining here makes you BOTH look pretty purile, IMHO!

I am not saying you did anything wrong and feel your buyer overeacted, especially since you did mention scratches and if you would have taken it back. However I just started selling on Ebay and try to be very descriptive in my auctions and use a lot of pictures. I feel the six picture pack with supersize is money well spent on a lot of items. I take probably 30 digital pictures and pick the six best and keep the rest or can take more for a prospective buyer. Here is a link to one of my completed auctions. Good luck. --- Steve

A word to the wise. I don't post feedback until the whole transaction is a
done deal. I.E., both parties have received what they want and are happy.
You can negotiate in the event of a problem and post equally negative
feedback if the other party doesn't want to work out any perceived problems.
Some here don't agree with that, but I really don't care. They are free to
do it the way they want to and so will I.

LOL, thanks for all the posts. Even the critical ones, made me laugh and helps put things in perspective. I own ALOT of radios, most of them I bought used and didn't expect the exterior to be anything but USED.

Functionality and reliability is what counts with electronics. If I had the time, I would have taken the two covers off and repainted them myself. But I personally didn't think it mattered, the radio works great with or without repainted covers. ;-)

73,
Rob N4RPD

I was ticked off because I have been a buying and selling on Ebay for 4
years now and have never had a negative feedback.  If he would have asked
for his money back then I would have given it back with no hard feelings, no
negative feedback either, but he didn't ask anything.

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=1943720516&ssPageName=ADM
E:B:EOAS:US:3

BTW, after he had posted the negative feedack, I sent an email asking if he
wanted his money back because he obviously was not happy.  I still have not
received a reply.

I have for sale a very nice condition Drake R-4B receiver.
Works great and looks good. Pictures available by request.
Asking $225 shipped to continental USA.

Thanks,
Michael

Not everyone's perspective is the same. What are scratches to you, maybe be
the Grand Canyon to someone else.
Since you did mention scratches on the radio, pictures of the scratches
should have been shown so that the buyer could make a better informed
decision.

HOWEVER, the buyer could have emailed and discussed the problem with you
first as feedback is impossible to have removed.

Good lessons to be learned from this deal.

73,
Dan

---------------------------------------------------------

Looking at it from the other perspective, if it was THAT
important to the buyer, he should have insisted on pictures
before bidding.  No pictures, no bid.

The phrase "buyer beware" or its equivalent is probably as old as
the human race, and for good reason.  I simply refuse to make an
offer an anything that is not described to my satisfaction, and
guaranteed to be as described.

Just forget it. If this is your first negative in 4 years and you're fairly active on Ebay, then move on. That negative isn't going away no matter what you do, but I know how it feels to be honest and get your first. Best thing to do is make up for it by earning a boatload of positives. There's always a few a-holes out there who want to complain about anything and everything and do nothing to resolve the problem. They live in a world of gloom and doom and get their "kicks" off of leaving negative feedback.

My only negative is from a guy who bought a $5 signal tracer clearly noted as being untested and "as-is". He gave me a negative because it didn't work and didn't bother to even E-mail me to discuss the problem! I would have cheerfully given him a full refund including all shipping charges and wouldn't even asked for the unit back. Some people are true jerks...

'Radio Amateur Callbook' Spring 1949
$15.00

In addition to all the US ham callsigns, this callbook includes a lot
of old advertisments from the good old days of ham radio.

You can view a scan of the callbook at
<http://www.pbase.com/timrichardson>
Just click on the 'ham_radio' gallery

The callbook is complete but NOT in pristine condition. It is
yellowed, has some water stains, edges and corners are worn, some
tears, bent corners, musty smelling and the covers are in pretty bad
shape and about to fall off as you can see from the pictures.

U.S Shipping & Handling:

$5.25 (Priority Mail)

I accept money orders, cashier's checks, personal checks (allow up to
ten days to clear)

Contact Tim Richardson <ter@bellsouth.net>

'Radio' Magazine

Enjoy the bygone days of amateur radio from the late 1930's and early 1940's. Chock full of technical articles, construction projects, and advertisements showing some of the great radio equipment and components of the day.

$5.00 each unless otherwise noted

Magazines available:

1936 December (front & rear covers detached) $3.00
1937 March
1937 March
1937 June
1937 December
1938 January
1938 February
1939 May
1939 October
1939 October (rear cover detached, no spine) $3.00
1939 November (front cover detached) $3.00
1939 December
1941 July
1941 October
1941 November
1941 December
1942 January
1942 January (front & rear covers detached) $3.00
1942 February

You can view scans of each magazine cover at
<http://www.pbase.com/timrichardson>
Just click on the 'ham_radio' gallery

$5.00 each unless noted

If purchasing more than one magazine, take $1.00 off each additional magazine.

All magazines are complete but are NOT in pristine condition. All are yellowed, some have water stains, edges and corners are worn, some tears, bent corners, spines are very worn on most, musty smelling.

U.S Shipping & Handling:
$2.75 1 magazines (1st class)
$4.50 2 or 3 magazines (Priority Mail)
$5.25 4 or 5 magazines (Priority Mail)
e-mail for other rates

I accept money orders, cashier's checks, personal checks (allow up to ten days to clear) or PayPal for amounts of $20 or more.

Contact Tim Richardson <ter@bellsouth.net>

Selling an Icom w32a in as new condition. Will be shipped in original box
with original manual/quick programming reference and stock antenna, battery
and charger. This h/t has very little use, (used primarily as a scanner).

Asking $200.00 + $10.00 shipping/ins.

Please e-mail direct.

For sale - rather rare Globe HG-303 novice transmitter. Mint condition.

6146 final for 75 watts on 80, 40, 20, 15 and 10m bands. CW only.
Has metering for plate and grid current.
Standby-Operate-Tune switching etc.

Comes in the original box with manual.

Looks just like new and operating fine with full output.

Picture at:

http://home.cfl.rr.com/happysurfer/imag/globe_hg303.jpg

Will sell for $135.00 plus shipping

USA

ADVERTISED A ICOM IC-756PRO, LATE S/N... K8GWM CHARLIE IN OHIO, SENT THE MONEY, WHAT ARRIVED WAS A OLD JUNK CAR RADIO, A 2X4 ALL WRAPPED IN A BLANKET. THE CHECK WAS CASHED AT A PARTY STORE IN DALLAS. (A LIQUOR STORE NO LESS!)

ANYONE WHO HAS HAD DEALINGS WITH KC2ETWM, PLEASE CONTACT CHARLIE, K8GWM AT Porker@Adelphia.net

THIS IS SERIOUS BUSINESS.

ALSO TO KC2ETW, I WOULD STRONGLY ADVISE YOU SIR TO EITHER MAKE GOOD ON CHARLIE'S RADIO, OR SEND CHARLIE'S MONEY BACK, THERE'S TALK ON CHARLIE'S 75 METER HANG OUT, OF A GANG OF GUYS COMING TO YOUR HOUSE TO EVEN THE SCORE. IF I WERE YOU, I'D BE MAKING SOME PHONE CALLS.

73 DE K8CPA

I inherited one of each of these receivers without owners manuals. Can anyone help me out with a nice photocopy or a scan of one or both. I would be willing to pay a reasonable fee for mailing and copying if necessary.

Thanx,
John

Hello All
  I have a FT 920 with AM filter and MD 100 mike with the MFJ Versa
Tuner V that I will Trade for a Yaesu FT 990.Anyone interested I am in
the Atlanta area. I will meet with in a 70 mile radius of Athens GA.
My email is oris@dirtball.com.sted I am in the Atlanta area. I will
meet with in a 70 mile radius of Athens GA.
    I Also Have a FT 1000MP that needs work. The frequency display
blinks. I was told that there is a problem in the Phase Lock Loop
curcuit. I will trade for working Kenwood  TS 940 (with antenna tuner)
or a FT 990 Or simlar HF rig. I also have a working Icom AT 500
antenna tuner that I will trade for a Kenwood TS 50 or any small 100
watt continuos coverage HF rig. I also Have a Henry radio 2KD-5
Amplifier (pair of Emac 3-500, New Power supply Capacitors, 100 in
gets you 1250 out) that I will trade for a FT 990 or FT 1000.
I also Have a Pentium III 500 Mhz computer  40 X cd rom Turtle beach
CD burner 128 K of ram  sound card Network card  1 gig hard drive
keyboard and mouse that I will trade for a HF rig.
 Anyone interested I am in the Atlanta area. I will meet with in a 70
mile radius of Athens GA. My email is oris@dirtball.com.  I am in the
Atlanta area. I will meet with in a 70 mile radius of Athens GA.
                              Thanks for Reading and Happy Holidays
                                                           Oris
                                                           N4CND

Hi all, I am in need of a dead FT-50R battery pack, number FNB-41.
This is the 9.6 volt @ 600ma battery.
I dropped mine from a rather high place and broke the case pretty badly.
My batteries are good and the radio still works!!
If you have one that you would like to part with please let me know what you want for it.
Of course I'll pay for shipping.
PLEASE e-mail me direct at:

mrrusso@optonline.net

THANKS and 73, Mark N2FLF

Currently selling at $51! It's a steal!

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&category=1501&item=1941085308&rd=1

This auction is for a truely unique radio from the 1970's! It is a Robyn DG-1300 40 channel AM CB with a Robyn SX-7 base module. This allows the CB to be used as a base radio simply by sliding it into the "docking station" and plugging in the speaker and power plugs in the back and attaching an antenna! The power supply and speaker are in the base module!

This radio is COLLECTORS QUALITY! It is PRISTINE. I would give it a 9.9 on a scale of 1-10 only because it isn't brand new in the box.

I got this CB not too long ago with the intention of using it at home, but I never did. It's been kept in the original box. Included is the microphone and some of the original literature that came with the radio.

This radio works 100% and I received great audio reports when tested. It does the full 4 watts legal limit as indicated by the internal power meter and 2 different external power meters.

Bizarre as it may seem, I actually have one, minus the belt clip.

Where do you want me to send it?

Chris

Hi,

Looking for the above. If you have one you are not using please contact me directly at "cindyd1@enter.net" and also send price.

Thanks in advance,

Doug W3IIY

rec.radio.amateur.swap:3828

FOR SALE:

Collins MM-1 microphone, winged emblem. Great shape.

Ideal match for the Collins S-line, and KWM-2A etc., but will work nicely with other Collins gear.

"Designed to fit your hand comfortably. Engineered for max voice response, die- cast case finished in brushed satin chrome. A five-foot length of Koiled Kord with mike plug is supplied."

The MM-1 has a frequency response from 200-10,000 cycles per second and has an output level of -48 db.

Excellent condition with the original Collins style 0.206" plug.

Now reduced to just $115.00 plus shipping

E-mail me to arrange purchase.

First is a Pro-2036 (BC-890XLT). I got it in rough shape, and have repaired most of the problems. Has an intermittent that causes a hiss in the audio, plus doesn't want to scan in turbo mode all the time. I replaced the battery with a battery holder, and 3.3 Volt disk battery that can be changed without soldering. I'm sure whatever is causing the problems is realitivly minor. Have the large telescoping antenna.
Second is a 2 month old Pro-2017. It's mint. Have the original box, and manual, plus power cube, and antenna. I would like $100 o.b.o. for the 2036, and $50 for the 2017. I'll package it for $125, if someone wants both.

For sale - rather rare Globe HG-303 novice transmitter. Mint condition.

6146 final for 75 watts on 80, 40, 20, 15 and 10m bands. CW only.
Has metering for plate and grid current.
Standby-Operate-Tune switching etc.

Comes in the original box with manual.

Looks just like new and operating fine with full output.

Picture at:

http://home.cfl.rr.com/happysurfer/imag/globe_hg303.jpg

Will sell for $135.00 plus shipping

This auction is for a Radio Shack Pro-70 handheld scanner. This scanner is in good shape, rated at a 7.5 on a scale of 1 - 10. There are minor scratches around the scanner, but the keypad markings are perfect. The display and light work fine and the scanner functions

100%. I am selling this because I just bought a Pro-93 and no longer
need the Pro-70. Included with the Pro-70 is the stock antenna,
carrying case, Radio Shack 9v 300mA power supply (wallwart) (part
#273-1665) and Radio Shack nickle-cadium rechargable battery (part
#23-288-b) with external charger (part #23-288-c). The battery can
either be charged in the scanner with the included power supply or in
the external charger.

This auction is for an Icom IC-202 2m SSB/CW portable radio . This radio works off of 9 "C" cell batteries or a power supply. It covers 144.000 - 144.400 and includes crystals for 145.000 - 145.200, 145.800 - 146.000. The radio is in fair shape, showing obvious wear, but it works flawlessly. I recently bought this to use is as part of a project that I've since abandoned, so I do not need it. I tested it in the mobile and talked to a station about 10 miles away with a mobile antenna on the roof. He reported audio and signal was good. Output power is about 2 - 3 watts depending on how you power it. It has a telescoping antenna, or you can use a regular antenna by way of a rear PL-259 connector. Included is a hand microphone. Please note: This is NOT the IC-202E or the IC-202S. I am not sure what the internal differences are between these models, but the front panel does look a little different from these other models, but I think they have all the same functions.

I'm posting this for N5BDR, who's isp is currently having probs with usenet access.
So please email him directly at n5bdr@arrl.net.

Looks brand-new. It's sat in the box unused for nearly 2yrs, except for the few times I played with it at the start. I just never got around to buying the needed antennas. Asking $450 + shipping for it and all original parts.
Thanks.
N5BDR

Greetings,

I have for sale a Yaesu FT-1000MP, Ser. no. 8I320046 AC model
In like new cond. no marks at all, has allways worked flawlessly.
Original box, manual, and hand mic. Non-smoker
$1350 Plus shipping to Northern Ill.

Dave K9UX

For Sale

Icom IC-T81A

Quad Band 50 mhz/144 mhz/440 mhz/1296 mhz

Spare Battery BP-200 by Maha

IC-T81A Specifications
This information is taken directly from the IC-T81A/E brochure

General
Frequency coverage (Unit: MHz)
50 MHz 144 MHz 440 MHz 1.2 GHz WFM (not guaranteed)
Rx/Tx:
50 - 53.995 Rx:118-173.995*1
Tx:144-148 Rx:400-469.995*2
Tx:430-450 Rx/Tx:
1240 - 1300 Rx:76 - 107.995

*1 Guaranteed 144-148 MHz only; *2 Guaranteed 440-450 MHz only;
Mode: FM, WFM (Rx only), AM (Rx only)
Number of memory channels: 124 (100 regular, 20 scan edges, 4 call)
Frequency stability: � 3 ppm (-10�C to +60�C;)
Useable temperature range: -10�C to +60�C;, +14�F to +140�F
Power supply : 4.5 to 16 V DC or specified battery pack
Current drain (at 13.5 V DC):
Tx: maximum power: 1.4 A (0.8 A at 1200 MHz)
Rx: rated audio: 220 mA (typical)
power saved: 40 mA
standby: 70 mA (90 mA at 1200 MHz)
Tuning steps (kHz): 5*, 10, 12.5, 15*, 20, 25, 30, 50, 100 (*not available for 1200 MHz band)
Antenna connector: SMA (50 ohm)
Dimensions (projections not included):
58(W) x 106(H) x 28.5(D)mm
2-9/32(W) x 4-3/16(H) x 1-1/8(D)in
Weight (approximate, with antenna):
290g; 10.2 oz (with BP-197)
270g; 9.5 oz (with BP-199)
280g; 9.9 oz (with BP-200)

Transmitter
Output power (at 13.5 V DC):
High: 5.0 W (1.0 W at 1200 MHz)
Low: 0.5 W (0.1 W at 1200 MHz)

Modulation system: variable reactance frequency modulation
Max. frequency deviation : � 5 kHz
Spurious emissions : Less than -60 dB (-50 dB for Europe version at 1200 MHz; -40 dB for others at 1200 MHz)
External mic connector : 3-conductor, 2.5(d) mm (1/8")/ 2 k ohm

Receiver
Receive system: Double conversion superheterodyne
Intermediate frequencies:
1st: 69.45 MHz (13.35 MHz: WFM)
2nd: 450 kHz
Sensitivity (except spurious points):
FM 50 MHz=0.18 �V, 144 MHz=0.18 �V, 440 MHz=0.18 �V, 1.2 GHz=0.25 �V
AM 50 MHz=0.56 �V
WFM 91.5 MHz=2.0 �V
Squelch sensitivity (threshold):
0.18�V (FM; 0.25 �V at 1200MHz)
5.6�V (WFM)
0.56�V (AM)
Selectivity (except WFM):
More than 15 kHz/-9 dB
Less than 30 kHz/-60 dB
Spurious and image rejection ratio:
50, 144 MHz: Less than -60 dB
440 MHz: Less than -50 dB
1200 MHz: Less than -50 dB
(Except half IF, 2nd image, 50 MHz band IF and WFM)
Audio output power (at 13.5 V DC): 250 mW typical at 10% distortion w/ 8 ohm load (at 13.5 V DC)

Supplied Accessories
Battery pack
Wall charger
Antenna
Belt clip

$250 plus Shipping

For Sale

Icom IC-W32A

2m/70cm Handi-Talkie

Specifications:

Dimensions: 2.25 (W), 5.5 (H), 1.4 (D), 16 oz
5 Watts of power @ 13.5 V
200 memory channels

8 character alphanumeric memory channel identification, keypad entry
Backlit display and keypad
ICOM rugged! Meets MIL SPEC C/D/E for shock and vibration
Handheld to handheld cloning capability (opt. OPC-474 cloning cable) or PC programming capability (opt. CS-W32 cloning software and OPC-478 cloning cable)
Independent band controls for tuning and volume
VHF/UHF exchange function allows assignment of VHF/UHF band controls to either knob
Set your preferred band to the knob furthest from the antenna

Two Years old and in good shape. Factory box and manuals included.

For Sale

FT-1000D

Lots of Extras

$2200 plus shipping

SPECIFICATIONS

GENERAL 0
RX Frequency Range: 100 kHz ~ 30 MHz
TX Frequency ranges: 160 ~ 10m amateur bands only
Freq. Accuracy: <�5 ppm (except FM �100 Hz)
Freq. Stability: <�2 ppm (0 �C ~ 50�C) (except FM �200 Hz)
0 <�0.5 ppm (-10�C ~ 60�C) w/TCXO-1 (FM �150 Hz 0�C ~ 50�C)
Emission Modes: LSB, USB (J3E), CW (A1A), FSK (J1D, J2D), AM (A3E), FM
(F3E)
Basic Frequency Steps: 10 Hz for J3E, A1A and J1D
0 100 Hz for AM and FMA3E, F3E and J2D
Antenna Impedance: 16.5 to 150 Ohm, 50 Ohm nominal
0
Supply Voltage: 100, 110, 117, 200, 220 or 234 VAC, 50/60 Hz
Power Consumption (approx.): 95 VA Receive, 1050 VA for 200 watts transmit
Dimensions (WHD): 420 x 150 x 375 mm
Weight (approx.): 51 lbs. (25.5 kg.)
0
TRANSMITTER 0
Power Output: adjustable up to 200 watts (50 watts AM Carrier)
Duty Cycle: 100% @ 100 watts, 50% @ 200 watts (FM & RTTY, 3-minute TX)
Modulation Types: SSB: Balanced, Filtered Carrier
0 AM: Low level (early stage)
0 FM: Variable Reactance
0 FSK: Audio Frequency Shift Keying

Maximum FM Deviation: �2.5 kHz
FSK Shift Frequencies: 170, 425 and 850 Hz
Packet Shift Frequencies: 200, 1000 Hz
Harmonic radiation: at least 50dB below peak output
SSB carrier suppression: at least 40dB below peak output
Undesired sideband suppression: at least 50dB below peak output
Audio response (SSB): not more than -6dB from 400 to 2800 Hz
3rd-order IMD: -36 dB @ 150 watts PEP, -31 dB @ 200 watts PEP, or better
Microphone impedance: 500 to 600 Ohm
0
RECEIVER 0
Circuit type: quad-conversion superheterodyne (triple conversion for FM)
Intermediate Frequencies: 73.62 and 8.215 MHz and 455 and 100 kHz

Sensitivity (For 10 dB S/N):

Frequency	100 ~ 250 kHz	250 ~ 500 kHz	0.5 ~ 1.8 MHz	1.8 ~ 30 MHz
0				
Mode				
SSB, CW (2.4 kHz)	1.25 uV	1 uV	2 uV	0.25 uV
AM (6 kHz)	10 uV	8 uV	16 uV	1 uV
29 MHz FM (12 dB SINAD)	-	-	-	0.5 uV

Selectivity (-6 / -60 dB):

Button	Modes	Min -6dB BW	Max -60 dB BW
2.4 kHz	all except FM	2.2 kHz	3.8 kHz
2.0 kHz	all exc. AM, FM	1.8 kHz	3.6 kHz
500 Hz	CW, RTTY, Packet	500 Hz	1.2 kHz
250 Hz	CW, RTTY	240 Hz	700 Hz
-	AM (Wide)	6 kHz	14 kHz

Sensitivity (For 10 dB S/N):

Frequency	100 ~ 250 kHz	250 ~ 500 kHz	0.5 ~ 1.8 MHz	1.8 ~ 30 MHz
0				
Mode				
SSB, CW (2.4 kHz)	1.25 uV	1 uV	2 uV	0.25 uV
AM (6 kHz)	10 uV	8 uV	16 uV	1 uV
29 MHz FM (12 dB SINAD)	-	-	-	0.5 uV

Dynamic Range: 108 dB (@ 50 kHz, 500 Hz BW, RF amp off)
Squelch sensitivity: 1.8 ~ 30 MHz: (CW, SSB, AM): <2.0uV
0 28 ~ 30 MHz: (FM): <0.32uV
IF rejection (1.8 ~ 30 MHz): 80 dB or better (Main RX)
Image rejection: (1.8 ~ 30 MHz): 80 dB or better (Main)
IF shift range: �1.12 kHz
Max audio output: 2W into 4 Ohms with < 10% THD

Audio output impedance: 4 to 8 Ohm
 0
Specifications subject to change, in the interest of technical improvement,
without notice or obligation.

I have for sale an as new FT-817 all mode portable transceiver. This radio is a QRP 5 watt HF/50/144 and 430MHz multimode transceiver. I bough this radio and all of the included options new in August of this year. I am a non smoker. This equipment has only been powered up for no more than 1 hour. I have all of the boxes, paperwork with warranty cards and all standard included accessories including the hand microphone. All equipment is absolutely flawless and has only been set up in the family room of my home. I would like to sell this as a system package. The package I am offering consists of the following:

Yaesu Ft-817 serial # 1K440086
W4RT 1 Touch Tune Option. This enables you to auto tune with the LDG Z11 while you are in the SSB mode.
Collins 2.5 KHz SSB Mechanical Filter
Astron RS5A Power Supply with 3 socket cigarette plug module installed
LDG Z11 Automatic Antenna Tuner. Covers 1.8-30 MHz
Joey Outbacker Antenna. This antenna covers HF/VHF range from 80 thru 2M, including 30, 17 and 12 meter
Alpha Delta Micro Mount for the Joey
Maha FNB-72 1700mAh NiMH Battery

W4RT 817 Mini Pack-It Reference Manual 2nd Edition
Laminated color 8 � X 11 Quick Reference Chart for operation of the FT-817
Yaesu NC-72B Battery Charger
12 ft Mini 8U Coax Jumper with silver PL-259's to go from the LDG Z11 Tuner to the Joey Antenna
1ft Mini 8U Coax Jumper with silver PL-259's to go from the LDG Z11 Tuner to the FT-817

If you are seriously interested I can take digital pictures of part or all equipment as requested.
I have over $1,400 invested in this system
I am asking $1,100 shipped CONUS ground UPS to your door.

I have 4 diode blocks for a HV power supply for a large HF amp. I don't have the rating but believe they are 10 KV modules based on the size. I took them out of a Large amp that I restored to stock diode configuration that used three 3-500z tubes and a 3500 volt plus power supply.

I suspect they are 1 Amp rated. They are 3 3/4" long, 1" deep and at the highest point, 2" high with screw terminal on each end and polarity marking on the bottom. They are ideal for a homebrew project or upgrade the diode bridge on an existing amp. I can send you a picture if you are interested. These are quite expensive if purchased from RF parts etc but all I am asking is a reasonable offer for the 4 modules.

I have been posting such items on Ebay but have been asked to list items on newsgroup first. If no reasonable offers are made I will place them on Ebay. Check my ebay feedback for proof that I only do up fron deals. Ebay id is garyh@bellsouth.net.

Thanks

Gary K4MT

I have unintentionally labeled this as "waterproof", when in fact it is
designated as "flameproof".  I apologize for the mistake and will attempt to
rectify it upon end of bidding.

Sorry...

John Schneider

I have a Phillips PM 3200 works no test leads... I don't do home brew so I
would like to trade for a dual band mobile for my car (ANt would be a great
plus but not picky) if intrested please email me. My zip is 46637 call sign

KB9YMX.

I am not too far from Ken and have another such Telrex. It is on the ground, assembled, and on saw-horses. The rear two elements do not have traps. They are 20 meter and 15 meter reflectors. Those two elements broke in the middle (in a LOT of wind). I have the pieces. If you buy Ken's antennas, consider buying my antenna too. You could then have two working antennas and a lot of high quality parts. (Or three antennas, one without 15 meters)

The beam is a real good performer. I worked a lot of DX with it.

Hello All,
  I would like to buy a Yaesu FT-747(sx,gx,gxII) or a Heathkit
SB-1400, email me with what you have, what comes with it (mic/pwr
cord/manual/filters) and how much.
I'm not looking for "Mint" or "Collectors Items" Just a working
radio.

Thanks,
jim

This radio works and looks great, comes with box/manual/mic/pwr cord.
Yaesu did the fan, swr, and out of band transmit mod on this radio.

$600.00 + shipping

thanks,
jim

I'm looking for a xtal oven I believe it's 12.6 volt with what I was
told was a td9 xtal holder, also need a 113.542kc or any 100 to 125kc
xtal. also does anyone know where I can get 8 pin male plugs similar
to tube bases? by the way the crystal oven plugs into a octal socket

ps. will consider a crystal and eliminate the heater circuit

Thanks Jake

Hello All.  For those looking at the Icom IC T2H, and/or Icom IC-V8
2m HTs.  Beware of ebay sellers trying to sell these radios for
inflated prices!  AES and HRO sell these radios for $99.95, and right
now you get a FREE nicad pack.  These are  good radios, just a head up
for the buyer to beware of ripof artists!

5113 Scope Dual Beam Storage $220.00
5223 Digitizing Scope Opt. 01 $350.00
5440 Scope Opt 01 $245.00
5441 Scope, storage Rack mount $199.00

Plug-ins for 5000s
5A14N Four Channel Amplifier $125.00
5A15N Amplifier $69.00
5A18N Dual Trace Amplifier $75.00
5A21N Diff. Amp $49.00
5A22N Differential Amplifier $49.00
5A38 Dual Trace Amp $49.00
5A48 Dual Trace Amp $49.00
5B10N Time Base/Amp $49.00
5B40 Time Base Amplifier $49.00
5B42 Delaying Time Base $75.00

7000 Series - mainframes only: plug-ins listed below
7403N Scope $145.00
7603 Scope $149.00
7603 Scope Opt 1 $159.00
R7603 Scope w/ Opt 1 Rack Mount $250.00
7612D Programmable Waveform Digitizer $545.00
R7613 Scope, Storage Rack Mount $250.00
7613 Scope Opt 3, 5 $289.00
R7633 Scope, Storage Rack Mount $219.00

7844 Scope, Dual Beam Mod 769W $450.00
R7844 Scope, Dual Beam Rack Mount, Opt 03 $349.00
R7844 Scope, Dual Beam Rack Mount, Opt 03,22,Mod HD $349.00
7903 Scope w/ Opt 3 Rack Mount $1,090.00

Plug-ins for 7000s
AM6565U Amp $39.00
7A11 Amplifier FET Probe $99.00
7A16 Programmable Amp $49.00
7A16P Amplifier $79.00
7A18 Dual Trace Amp $59.00
7A18A Dual Trace Amp $69.00
7A22 Diff. Amp $139.00
7A24 Dual Trace Amp $129.00
7A26 Dual Trace Amp $75.00
7B15 Delaying Time Base $134.00
7B53A Dual Time Base $59.00
7B53AN Dual Time Base $109.00
7B70 Time Base $59.00
7B71 Delaying Time Base $49.00
7B80 Time Base $89.00
7D15 Counter/Timer 225MHz $129.00

Other manufacturers:
Tested & functional, unless otherwise noted.
Not calibrated.

AIL Type 32 Attenuator $145.00

Ballantine 3056A AC Voltmeter - near new $155.00

Communications Technology Systems Davar D8020C Cable Analysis System $1,085.00
  W/ shipping case, oper. manual. Not tested. Near new condition

Cushman CE-24A Frequency Selective Meter $240.00
  Works, but seriously out of frequency calibration

Demornay Bonardi DBF-X-187 Variable Attenuator 0-50db $290.00

Fluke 760A Meter Calibrator $589.00
Fluke 893A AC/DC Differential Voltmeter $190.00
Fluke 895A DC Differential Voltmeter $319.00
Fluke 2190A w/ Y2001 Digital Thermometer & Interface $279.00
 No probes. Fair condition: minor plastic chips

Fluke 5200 AC Calibrator $425.00
Fluke 5200A AC Calibrator $765.00
Fluke 6039A w/ Opts. 2,4,9 Frequency Synthesizer $549.00
Fluke 8505A Digital Multimeter $240.00
  DC Volts only: no other option boards available

General Radio 1390B Random Noise Generator $199.00

Gigatronics 16936 Power Sensor $449.00
Looks new. Not tested

Kodak Colorado Aerial Film Printer $5,500.00
w/ MacBeth Comparator. 64 Hrs use. Not tested crating $250

Kikusui PAB18-3A Power Supply 18V 3A $149.00
Kikusui PAB32-2A Power Supply 32V 2A $220.00

Nicolet 660B FFT Analyzer $425.00
Channel A works. Channel B does not work

Panasonic AG-6200 VHS Editor $155.00
Panasonic NV-8200 VHS duplicator ea $125.00
Good condition. W/ carrying case - 2 avail.
Panasonic NV-8200 VHS duplicator $75.00
Poor condition. Needs repairs

Philips PM 6670 Timer / Counter 120MHz $299.00
Philips PM 6676 Universal Counter 1.5GHz $389.00
Both above models in very good condition

PRD Electronics 559-B Frequency Meter $147.00

Wavetek 271 Function Generator $179.00
Fair condition. Works, but keypad hard to operate

Weinschel 2692 RF Attenuator 30db $159.00
SMA type connecters

Misc. Electronic & Industrial Surplus:

Untested unless otherwise noted. Sold as-is.

Amarillo Gear Model 175 100HP Right-angle Fan Drive $650.00
crating $50

Ampex 456 1/4 inch audio tape Used 50 for $199.00
On 10 1/2 inch metal or plastic reels w/ NAB hubs
Condition & contents of tape unknown

Biddle "Meg Type" Megger - works $105.00

Bliley CY-2924/U Pt#833B Crystals $99.00
In weatherproof case. Good condition
406MC to 549MC in 1MC increments
Missing 408,417,430MC
W/ 2 Type TCO-2F temperature stabilizers

CAE Alpheus SDI-5 Mini-Blast Co2 Cleaner $2,449.00

Carbon Dioxide Blaster
Gun not included crating $100

Challenge EH-3A Paper Drill, 3 Hole $1,900.00
crating $100

Data I/O 29B w/ UniPak 2B Universal Programmer $169.00
Powers up. Not tested further

Delta Sonics VT1530 Ultrasonic Vapor Degreaser $2,550.00
crating $100

Duniway Stockroom I-164-K Ion Gauge Tube - new $99.00

Dynaport TS-1060B/GG Teletypewriter Test Set $99.00
Powers up. CRT has trace. Not tested further

Erdco 01579 CAL Flammable Gas & Vapor Detector $2,350.00
crating $50

General Electric GE Spectra Series Deadfront Switchboard $590.00
Section 1 Only (meter section). Near new condition crating $100
1200A 480Y / 277 Volt 3 phase 4 wire

Hewlett Packard 5100A Frequency Synthesizer $99.99
Hewlett Packard 5105A Frequency Synthesizer $99.99
Both decent physical condition. Not tested

Howe 758 Platform Scale 6000 lbs. capacity $549.00
crating $100

Industrial Acoustics MB Type 1 Audiometric Soundbooth $500.00
One Person Size. Outside needs paint

K.E.W. 0802V Pressure Washer $895.00
Hot water / steam. 120V / diesel. Works great crating $50

Leitz Opto-Metric Machinist's Rotary Table 12 inch, tilting, special $2,195.00
crating $50

Mission Megabit Pneumatic Precussion Bottom Hole Bit $250.00
5 1/8 inch. New or Refurbished (unused)
W2 818 SNT 1634 M17250 52 A

MGR Equipment ERR-6-0378 Refrigerator, Rivet Storage $499.00
Rivet Chiller, portable. 115V 60Hz. Near new. Works crating $75

Pentax LH-150P Light Source $159.00
Works. No lightpipe or accessories

Phoenix Type 300 Model 16C Dry Rod Oven $250.00
120V 1000W. Works. Outside slightly rusty crating $25

```
Physio Control LifePak 6 Defibrillator $385.00
  All functional, but may need new rechargable battery
  Now puts out only 5 Joules. No ECG leads. Sold as-is.

Square D Disconnect - nonfusible 3 Phase 1200A 600V $595.00
  Near new condition Several available crating $50

Toledo 2181 Platform Scale 400 lbs. capacity $490.00
      crating $100

Trion 1-95-28 HV Power Supplies  ea $250.00
 4 Available all 115 V 60 Hz in
 2 are: 12.5 & 6.2 KVDC @ 7.2 & 9.0 ma out
 1 is  : 13.0 & 6.7      " @ 2.2 & 2.8   "    "
 1 is  : 13.6 & 6.5      " @ 7.6 & 9.6   "    "

Welch Allyn 48300 Lite Box - needs bulb $159.00
  48200 Lite pipe - included
----------------------------

Plus $15.00 packing, plus actual shipping charges from Los Angeles, CA
area.

We accept money orders, checks, PayPal or credit cards via PayPal.

Overseas orders O.K. - payment in $US.

Group,

I am listing a few scanners this week. One is a Pro 2052 which is a 1000 Channel Dual trunking mobile / base scanner.
You can program it thru your pc as well.

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=801313480

Group,

I am stilling my Pro 92 scanner as I will be upgrading soon. No reserve on
this auction and it's currently at $0.92.
This is a trunking scanner with 500 channels , PL and DPL decode, and alpha
display. Check it out.

Howdy,

It's the commercial version of the Yaesu ham HT rig. Will do ham stuff just fine as well.
 Starting bid is $0.99 and No reserve.

Hey group....

I am looking for audio cards for the GE Voter. Let me know if you have any.

Thanks!

Getting out of HF and switching to Satellites. Would like to trade
this setup for a comparable 2m/440cm SSB setup. This is a short time
offer as if I don't get a response by 11/16, it goes up on eBay.

Hey Ken,

The value of any item is what someone is willing to pay.  You opinion of $50
is just that. Opinion, you do not set value unless you buy.

I have for sale an as new FT-817 all mode portable transceiver. This radio is a QRP 5 watt HF/50/144 and 430MHz multimode transceiver. I bough this radio and all of the included options new in August of this year. I am a non smoker. This equipment has only been powered up for no more than 1 hour. I have all of the boxes, paperwork with warranty cards and all standard included accessories including the hand microphone. All equipment is absolutely flawless and has only been set up in the family room of my home. I would like to sell this as a system package. The package I am offering consists of the following:

Yaesu Ft-817 serial # 1K440086
W4RT 1 Touch Tune Option. This enables you to auto tune with the LDG Z11 while you are in the SSB mode.
Collins 2.5 KHz SSB Mechanical Filter
Astron RS5A Power Supply with 3 socket cigarette plug module installed
LDG Z11 Automatic Antenna Tuner. Covers 1.8-30 MHz
Joey Outbacker Antenna. This antenna covers HF/VHF range from 80 thru 2M, including 30, 17 and 12 meter
Alpha Delta Micro Mount for the Joey
Maha FNB-72 1700mAh NiMH Battery
W4RT 817 Mini Pack-It Reference Manual 2nd Edition
Laminated color 8 � X 11 Quick Reference Chart for operation of the FT-817
Yaesu NC-72B Battery Charger
12 ft Mini 8U Coax Jumper with silver PL-259's to go from the LDG Z11 Tuner to the Joey Antenna
1ft Mini 8U Coax Jumper with silver PL-259's to go from the LDG Z11 Tuner to the FT-817

If you are seriously interested I can take digital pictures of part or all equipment as requested.
I have over $1,400 invested in this system
I am asking $1,100 shipped CONUS ground UPS to your door.

I have the following items for sale:

1- MFJ 949-e Versa Tuner II - Slight scratches on top, otherwise in excellent condition. Asking $75.00, I ship.

2- Ameco PT-2 preamp. Excellent condition. Asking $50.00, I ship.

3- Yaesu FT-470 HT. Very good physical condition, however there is a problem in that the squelch does not always open on received PL. Also included is a Yaesu NC-29 battery charger and W&W 7.2 volt 1200 mAh battery which seems to hold a charge forever. The charger works great but is missing one of the push button rubber covers. The charger has had the trickle charge mod and, other than the missing push button cover is in great shape. This radio would be excellent for packet. Asking $100, I ship.

Pictures of all and additional information is available upon request.

Thank you....

John Schneider, KB2COP

The subject says you have a TT 208 that's the CW filter isn't it?
Would you consider selling the TT 208 separately.

Phil

I have for sale an as new FT-817 all mode portable transceiver. This radio is a QRP 5 watt HF/50/144 and 430MHz multimode transceiver. I bough this radio and all of the included options new in August of this year. I am a non smoker. This equipment has only been powered up for no more than 1 hour. I have all of the boxes, paperwork with warranty cards and all standard included accessories including the hand microphone. All equipment is absolutely flawless and has only been set up in the family room of my home. I would like to sell this as a system package. The package I am offering consists of the following:

Yaesu Ft-817 serial # 1K440086
W4RT 1 Touch Tune Option. This enables you to auto tune with the LDG Z11 while you are in the SSB mode.
Collins 2.5 KHz SSB Mechanical Filter
Astron RS5A Power Supply with 3 socket cigarette plug module installed
LDG Z11 Automatic Antenna Tuner. Covers 1.8-30 MHz
Joey Outbacker Antenna. This antenna covers HF/VHF range from 80 thru 2M, including 30, 17 and 12 meter
Alpha Delta Micro Mount for the Joey
Maha FNB-72 1700mAh NiMH Battery
W4RT 817 Mini Pack-It Reference Manual 2nd Edition
Laminated color 8 � X 11 Quick Reference Chart for operation of the FT-817
Yaesu NC-72B Battery Charger
12 ft Mini 8U Coax Jumper with silver PL-259's to go from the LDG Z11 Tuner to the Joey Antenna
1ft Mini 8U Coax Jumper with silver PL-259's to go from the LDG Z11 Tuner to the FT-817

If you are seriously interested I can take digital pictures of part or all equipment as requested.
I have over $1,400 invested in this system
I am asking $1,100 shipped CONUS ground UPS to your door.

Hello all,
I have a 40' aluminum freestanding tower located in Detroit, MI for sale.
It is broken down and includes all hardware. Asking $300. Come take a look
at it and lets work something out.

Have an extra UT-102 voice synthesizer for IC-706, 746, 746 Pro, 756 Pro and
756 ProII, that I would like to trade for a 1.9 kHz SSB filter.
Please reply direct - ah6bv@arrl.net

Tnx & 73, George AH6BV / w1

Desperately searching for 2-4 MOTOROLA MX360's w/MODAT ID or DTMF ANI
(PTT-ID). Would like units to be VHF but UHF is ok. All must be able
to talk to each other. Must be high power in good, working condition.
Will also need chargers, good (functioning) batteries, and antennas.
Will pay extra for programming services.

please send all replies/offers by email
~>  mailto:mdb61487@aol.com  <~

Thanks,
Mike

I have for sale an as new FT-817 all mode portable transceiver. This radio is a QRP 5 watt HF/50/144 and 430MHz multimode transceiver. I bough this radio and all of the included options new in August of this year. I am a non smoker. This equipment has only been powered up for no more than 1 hour. I have all of the boxes, paperwork with warranty cards and all standard included accessories including the hand microphone. All equipment is absolutely flawless and has only been set up in the family room of my home. I would like to sell this as a system package. The package I am offering consists of the following:

Yaesu Ft-817 serial # 1K440086
W4RT 1 Touch Tune Option. This enables you to auto tune with the LDG Z11 while you are in the SSB mode.
Collins 2.5 KHz SSB Mechanical Filter
Astron RS5A Power Supply with 3 socket cigarette plug module installed
LDG Z11 Automatic Antenna Tuner. Covers 1.8-30 MHz
Joey Outbacker Antenna. This antenna covers HF/VHF range from 80 thru 2M, including 30, 17 and 12 meter
Alpha Delta Micro Mount for the Joey
Maha FNB-72 1700mAh NiMH Battery
W4RT 817 Mini Pack-It Reference Manual 2nd Edition
Laminated color 8 � X 11 Quick Reference Chart for operation of the FT-817
Yaesu NC-72B Battery Charger
12 ft Mini 8U Coax Jumper with silver PL-259's to go from the LDG Z11 Tuner to the Joey Antenna
1ft Mini 8U Coax Jumper with silver PL-259's to go from the LDG Z11 Tuner to the FT-817

If you are seriously interested I can take digital pictures of part or all

equipment as requested.
I have over $1,400 invested in this system
I am asking $1,100 shipped CONUS ground UPS to your door.

For Sale: MINT MFJ-9406 six Meter transceiver. These little rigs are a blast! This is the third different model/band I've owned. Talked all over the U.S. and the world with just a three element yagi only 20 feet off the ground. GREAT transmit audio. Also has CW module installed.

Comes with manual, original box, stock hand mic and DC power cord.

$169 and I will be glad to pay for the shipping and insurance by Priority Mail. If you're short on cash, we can run the transaction through my little ham/swl business using your Visa or Mastercard.

First e-mail gets it! wa8mea@hotmail.com

The guy who wanted this has evidently backed out of his agreement to purchase. I haven't heard hide nor hair from him in over ten days. So.....we will put it back out there. However, this time I think instead of waiting for a money order in the mail, it's best we just put the transaction through my ham/swl antenna business using a Visa or Mastercard. This will protect BOTH of us. (Plus...it will get the rig to you quicker.)

FOR SALE: Radio Shack HTX-252 two meter FM rig. MINT condition. Only used for a few months. Never mobile. Used it here at the base for a back-up during severe weather. So not many hours of operation on it. 25 watts high power...10 watts low. Rcvr goes up into the PSB and NOAA weather portions. (I use to listen to our sheriff on it.)

Original manual, box, DC cord and stock hand mic.

$95 and I'll pay for shipping and insurance.

First e-mail gets it!

I'm looking for the Kenwood TU-3 or TU-3A Tone encoder. This is for

an older Kenwood 2 Meter rig (TM-201). The TU-3/3A is no long made.
If any knows of a substitute please let me know.
Thanks in advance.

Yo should really be sure of your facts before you post.
I have two Corsairs - they certainly do have the WARC bands.

Even Ten-Tec's earlier rig, the Omni-C had all WARC bands but did have
some trouble on 18Mhz.

```

hi there i am thinking of buying a pro 94, i am not sure if it is an old edition or new.

I was wondering if it is as good as the bc 245 ?

i really don't care about alpha tags.

does the pro 94 have ctcss tones?

does the pro 94 allow you to search edacs trunks to find all the active ids?

can you monitor icalls on the pro 94?

and is it overly about the same for noise rejection and trunking basics ?

thanks

This is a complete Thales Mackay computer-controlled SSB 19" rackmount radio
set. It includes the TMR-8090 transceiver, the TMR-6490 control head, the
TMR-1095 125 watt linear brick amp, the TMR-4095 remote automatic antenna
tuner (missing interface cable which is available from Mackay), and the CSW
1290 Windows software remote control package (which can be used instead or
in addition to the TMR-6490). This package looks good and works great, and
has every imaginable feature and function. New in 1998, still the current
model from Thales Mackay:

http://thalesmackayradio.com/products.htm

This equipment is for sale at best offer over $5K. New cost is ridiculous.

For sale or trade, a complete HF station (just add feedline & antenna):

Kenwood TS-520 (80-10m SSB/CW, no WARC, cw break in, vox, noise blanker, fast/slow AGC, etc.,etc.) with MC-50 desk mic, fine condition, currently used daily on several nets, full rated output (100w +) on all bands, looks 9 out of 10, works great, no deficiencies that I am aware of. Includes copy of operators manual & service manual, AC & DC power cords. This is a workhorse rig that will withstand a lot of abuse. They don't make 'em like this any more! No microprocessor or display noise from this one!

Along with it, an MFJ-949D Versa Tuner II, 300w capacity, 2 coax inputs with tuner bypass selections, balanced line input, random wire input, internal dummy load, crossed dual SWR/PWR meters.

If desired, will also throw in a Nye Speed-X straight key with black crinkle base.

Will sell complete station for $350 + shipping or trade for handheld all mode wideband receiver (a la DX-J10, VR-500 or R-10) or tabletop general coverage receiver (R-70, R-2000, etc.). My equipment is in fine condition, so no junk please.

Currently in use so I can arrange an on-the-air contact if desired.

Please contact via email at sporter at up-link dot net

Thanks for looking.

Steve

This is channel is about radios.

That doesn't mean everyone talking about and playing with their knobs
and tweaking their dials, it means anything from antennas to radio =
broadcast content.
If you think there is a whole newsgroup dedicated to your knob, then you =
wish.

I'm looking for a clean and working SB-301 receiver to match
my SB-401 transmitter.  If anyone has one for sale please email me.
Regards.

     -Marcus

Looking to sell (or swap) my TS-680S and get something that is better suited for running mobile in a small/new car. Rig is in good condition and I have manual, mic and power cable to go with it. Looking for a TS-50 or a Yaesu or Icom equiv. (same features, size and era).

Click below for specs:
http://www.rigpix.com/kenwood/ts680s.htm

Tony

I just inherited a ton of Electronic stuff from my Uncle Mostly New old stock he never got around to using . He worked for a major company repairing electronic items . I dont really have a use for this stuff and am sure you can get a deal as I dont really have an idea as to its worth. I will be putting up more stuff as it sells or if you are looking for something in particular just ask. I have about 20 lbs. of potentiometers yet to go up. these are 99% new-unused. and more !

Resistors

I just inherited a ton of Electronic stuff from my Uncle Mostly New old stock he never got around to using . He worked for a major company repairing electronic items . I dont really have a use for this stuff and am sure you can get a deal as I dont really have an idea as to its worth. I will be putting up more stuff as it sells or if you are looking for something in particular just ask. I have about 20 lbs. of potentiometers yet to go up. these are 99% new-unused. and more !

Resistors

I have for sale an absolutely flawless Yaesu MD-100A8X desk microphone. I bought this microphone new at the 2002 Dayton Hamvention. This microphone has less than 30 minutes of talk time. I am a non smoker and have the box and instruction sheet. I am asking $100 which includes shipping CONUS.

FS: MINT MFJ 9406 six meter transceiver. This rig is a blast! Get it

now while the winter DX season is just beginning! I've got a new
FT-847 with 6 meters on that, so I might as well get rid of this one.
GREAT transmit audio! I worked the world with this and a little three
element Cushcraft Yagi. 12 watts PEP. Has CW module installed, too.
(Almost forgot I had done that!)

Comes with manual, original box, stock hand mic and DC cord.

$175 and I'll pay for shipping and insurance by U.S. Priority Mail. If
you're short on cash, we can use your "plastic" through my ham radio
business. (This will get the rig to you quicker, too.)

First e-mail to wa8mea@hotmail.com gets it!

For Sale: MINT Radio Shack HTX-252 2 meter FM mobile rig. Cute little
thing that served me well as a base unit for about a year. Never been
mobile. Comes with original box, DC cord, stock mic and instructions.
I think these are 25 watts on high power.

$95 and I'll ship via Priority Mail and insure. If you're short on cash, when can go with your "plastic" through my little ham radio business. (Plus that will get it to you quicker...)

First e-mail to: wa8mea@hotmail.com gets it.

For Sale: BEAUTIFUL Icom IC-718. 100 watts PEP. 160 through 10 meters. Never mobile. Barebones. No DSP/filters. GREAT transmit and receive audio! Nice back-up rig, beginners rig or a VERY user friendly rig for those who don't want a ton of bells and whistles like the high-end rigs have. Original box, instructions, DC cord, stock hand mic and I'll even throw in one of my world famous YO-YO-TENNA Deluxes FREE to help you get on the air with it quickly! (See recent CQ and/or WorldRadio for more details on antenna...or my website URL below.)

$395 plus $14.95 towards Priority Mail shipping and insurance. If you're short on cash, we could use your "plastic" through my little ham radio business.

First e-mail to: wa8mea@hotmail.com gets it!

```
Hi all,  the FT-51R has 2 LEDs on the upper front of the radio.
One side is for VHF, the other is for UHF.  They glow red on transmit
and green on receive.
Now the question.  A while ago I was playing with the radio and was able
to turn OFF the GREEN LED (receive) on the VHF side.  If I remember
correctly by doing this saves the LED draw on the battery.  I only did
the one side.  I can't find the manual and I'll like to put it on
again.  ANY CLUES???????????????????
Please e-mail me direct at:
mrrusso@optonline.net

THANKS, Mark

FS: 2 Motorola MT500's *WON'T POWER UP*
They include:
Both Radios
Elements in both radio's (453.525MHz)
Stubby Antennas
Batteries (Unsure of condition)
Chargers

The problems could either lie in the batteries being old, or just the radio's need to be refurbished.

Asking $300CAN + shipping costs. (From Vancouver, B.C.)

FOR SALE:

Top quality desk mic. Looks similar to one used by Heath on several of
their later rigs.

Low Impedance. Nice locking PTT bar etc. A great sounding microphone
with that famous Electrovoice qulaity.

Picture is at:
http://home.cfl.rr.com/happysurfer/imag/ev621.jpg

I'm selling BA1404 chips for $5/ea ppd. These chips are the heart of
many low-powered FM transmitter kits. There are a number of plans
available online, as well as on the data sheet, to build your own

low-power radio station. It'd be great for a weekend project or science-fair/Boy Scout-type project. I built a transmitter and use it to send MP3s and "internet radio" from my PC to the radios in the living room and bedroom (MP3s and foreign stations on a clock radio -- nice!).

Please visit: http://www.radiochips.com for details and ordering information.

Thanks!
Jeff

Frequency range: 10-80m
Mode: SSB/CW
RF Power output: 5W
Voltage: 13.8 VDC
Current drain: RX: max 150mA, TX: 1A
Impedance: 50 ohms
Dimensions (W*H*D): 330*115*180mm

Works and looks good, an easy 8 on looks, can't see anything wrong with it, and have used it to work stations on all bands. Comes with Manual and power cord, no mic. This is the best classic QRP Radio. If you're wanting to get into qrp you can't go wrong with a TT-509.

Price $225.00,

Frequency range: 10-80 m + 30 m
Mode: SSB/CW
RF Power output: 5-50 W
Voltage: 13.8 VDC
Impedance: 50 ohms
Dimensions (W*H*D): 241*101*305 mm

The power out can be set anywhere from 0 to 50 watts with switch and drive dial. This radio works great, I did the mod Improving the noise floor and that is all that has been done to it. Has 500 Hz cw filter built into it. PTO is smooth, and doesn't jump freq.

Price $200.00

I'm always open for a good trade.

Hey guys. I have a complete station for sale either as a group or individually.

Icom IC-706MKIIG rig. Looks and works great. Comes with the separation kit, power cable, mic, manual and box. Asking $700.00

AEA EconoTuner ET-1. Minor scratches on side and top. Works perfectly and never abused. Asking $75.00

Astron Power Supply. RS-35A. Minor Scratches on top but in perfect working order. Asking $100.00

Mirage UHF Amp. D 1010. Covers 430-450 Mhz with 10W in and 100W out. SSB or FM operation. Near perfect condition. Comes with power cable. Asking $150.00

Regency XL156. Old Scanner-Non 800 Mhz. Works great. Dusty but trusty. $20

Uniden Bearcat BC9000XLT. Near mint condition. Comes with ant, power cord, manual and shop manual. Asking: $150.00

Zenith Laptop. Z-Star 433VL. Old! has a card slot. Completely clean hard drive. only has a 3.5 drive unless you can find a CD ROM that connects via a card. Works OK with a stripped down version of Win 95 but would probably work better with Win 3.x. **There is no operating system on this computer. No windows, no DOS, no nothing!** Battery was replaced about 5 years ago but seems to have problems holding a charge. Unit comes with the power cord. 200 MB hard drive, 8 MB RAM, 33 Mhz. Asking: $150

Bencher YA-1 Low Pass Filter. 1.5 kw continuous power. $40. normal exterior wear. never abused

I can have digital pics sent out to you upon request. Please contact me if you have any questions or require any further info. All prices are without shipping. We can work something out. Items will be shipped from Detroit, MI 48209. Please make offers.

Would like to get one of these MFJ 941C or maybe even the B, I want
the one with wood looking sides and tan colored metal, to match my
station(also to tune antennas of course.)

Have a nice Emetech QRP Tuner would trade or how much?

Email me with details.

ku4qw@yahoo.com

I thought you might like to know about the stolen ham radio database
on http://ItsBeenStolen.com you can view it directly here
http://itsbeenstolen.com/webring/lost_stolen_hamgear.asp as well
as post details of your stolen gear, its free to use and supported by
donations.

Steve

I have for sale an as new FT-817 all mode portable transceiver. This radio is a QRP 5 watt HF/50/144 and 430MHz multimode transceiver. I bough this radio and all of the included options new in August of this year. I am a non smoker. This equipment has only been powered up for no more than 1 hour. I have all of the boxes, paperwork with warranty cards and all standard included accessories including the hand microphone. All equipment is absolutely flawless and has only been set up in the family room of my home. I would like to sell this as a system package. The package I am offering consists of the following:

Yaesu Ft-817 serial # 1K440086
W4RT 1 Touch Tune Option. This enables you to auto tune with the LDG Z11 while you are in the SSB mode.
Collins 2.5 KHz SSB Mechanical Filter
Astron RS5A Power Supply with 3 socket cigarette plug module installed
LDG Z11 Automatic Antenna Tuner. Covers 1.8-30 MHz
Joey Outbacker Antenna. This antenna covers HF/VHF range from 80 thru 2M, including 30, 17 and 12 meter
Alpha Delta Micro Mount for the Joey
Maha FNB-72 1700mAh NiMH Battery
W4RT 817 Mini Pack-It Reference Manual 2nd Edition
Laminated color 8 � X 11 Quick Reference Chart for operation of the FT-817
Yaesu NC-72B Battery Charger
12 ft Mini 8U Coax Jumper with silver PL-259's to go from the LDG Z11 Tuner to the Joey Antenna
1ft Mini 8U Coax Jumper with silver PL-259's to go from the LDG Z11 Tuner to the FT-817

If you are seriously interested I can take digital pictures of part or all equipment as requested.
I have over $1,400 invested in this system
I am asking $1,000 shipped CONUS ground UPS to your door.

I have for sale or trade a Heathkit HW-104 in excellent condition. This is an HF transceiver (80-10m, no WARC). Unit is all solid state and is like the SB-104 except with an analog frequency display. Includes speaker, power supply, and original construction and operating manuals. The Heathkit RCA antenna connector has been changed to a BNC connector for convenience. Asking $275 plus half of shipping.

I also have an Alinco DR-1200T data radio and manual in excellent condition for $85 + shipping, an MFJ-1270C tnc with original box, manuals, cables for $75 plus shipping, an AEA PK-232MBX with original box, manuals, cables for $75 plus shipping, and a Yaesu FT1500M 2 meter radio with original manuals, box, cables for $100 plus shipping. The Yaesu has a total of about 30 minutes total usage. I purchased it new from AES about a year ago.

In addition to the above items, I have a Yaesu 5400 AZ-EL antenna rotor with control box, cable, and a copy of the manual. I'm told that it works, but have never hooked it up. It was from the estate of another ham. Will test before shipping. $350 plus half of shipping.

Will consider a swap or swap+ cash for the following
items:

Swan 700

MFJ 784B DSP unit
JPS NIR-12 DSP
Kenwood SM-220 + BS-8
Heathkit SB-230
Kenwood TS-520S
Drake TR4C and AC-4/MS-4
Drake C-Line twins
whatever else of equal value you'd like to unload

Please contact me via email at jcamp2@cox.net

Thanks and 73,
Jeff
N0WJP

This is a Standard C158A HT, With Manual, Wall-Wart, lanyard.. I don't have the Box any more.. The Radio is like NEW Seriously.. The Battery has been Charged 3 times, and logged on the Wall-Wart box.. The Function key above the PTT has GREAT Lettering.. This is virtually a New HT.. I have got about 5 HT's here and need to thin out some.. I'm Asking $125.00 for the HT..
If your interested, Contact me at: N8NOE@Comcast.Net   Jeff

Group,

Hey there, if you would like to add a voter system to your repeater, this will do the job for you. It will select the best audio and pass the best signal to your repeater input.

CLOSES TODAY

I have a couple of brand new multimeters that I don't need and would like to sell. Before I go to ebay, I thought I'd try here first (I really don't like ebay too much!). I have a Fluke model 73 III, a Fluke model 79 III, and an HP 971A.   If you're interested in any of these, please send me an email and I"ll send you the complete specs on them. I'm sure that you can find pics of them on ebay.   I'll have to investigate the pricing, but I guarantee a good deal AND that the equipment will be brand new.

Thanks,

--
Joe KB2FSH

Actually, I stuffed all the smoke back into those little black flat things
soldered to the funny green board with silver wiggly lines.

Cause you know, when you let that smoke out of the black thingies, the box
don't work no more!

Hey there,

Great for adding multiple receivers to your repeater on a voting system.

There is a link to the manual in the auction ad. Closes today.

http://cgi.ebay.com/ebaymotors/ws/eBayISAPI.dll?ViewItem&category=296&item=801984980

For Sale: MINT MFJ-9406 six meter SSB transceiver. This little rig is a blast! Hate to part with it, but I've got a new Yaesu FT-847 that has six meters. FANTASTIC transmit audio! I worked the world with this and a little 3 element yagi. 12 watts PEP. Purchased and installed CW module.

Comes with manual, original box, stock hand mic and DC power cord.

$169 and I'll pay for the shipping and insurance by U.S. Priority Mail. If you're short on cash this holiday season, we can run your "plastic" through my little ham/swl business. (This will get the rig to you faster, too!)

Winter sporadic E season coming up, meteor showers, aurora...ALL modes of operating DX on 6 meters.

First e-mail gets it!

For Sale: Yaesu FC-20 Antenna Tuner. Works fine, like new condition with box and manual. Also have switch which disconnects tuner from FT-847 to allow use of CAT interface (can't use both at the same time, and requires power to be recycled).

Reason for selling: switched to SGC237 AT and random wire.

Asking $190 plus shipping

Rick
K1RDM

According to the following link, the average price on eBay runs around $336. Definitely worth trying to sell.

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=1387034258&rd=1

Nice working condition.  Hard to find 6-meter all-mode portable,
with built-in whip (or SO-239 for external).  Runs on 6 C Cells
(alkaline or Ni-Cad) or external source.  Works well.  Great for
camping or mountaintopping.

Thanks for the look.

Thank you everyone for your replies, even those which seemed a little jadded. Yeah, I've seen the ebay hype and could easily find some auctions that have closed. But I like the opinions people give out here better.

It doesn't matter to me if I sell it today or never, just thought to ask. The ideal thing would be to buy another KWM-2a, but after seeing a station sell at the Livermore, CA. flea market (last sunday) for $800, I don't think I'll invest in another Collins HF Station.

So back to the closet for now, put it on top of my still in the box unbuilt Heathkit SB-1000 HF amplifier.

chow for now

Ha, I'll bet you could get a grand or better for that unbuilt SB-1000 amplifier. I think that you already know that. Why put the 516f-2 back into the closet when you are not going to invest in another Collins? Nothing jaded about my reply, seems as if you are a very good at fishing though. Chow for now. 73 de Fred.... Oh, PS, I have a very nice looking/working Hallicrafter SX-115. I wonder how much its worth? Any ideas??? Lets see, also an excellent KWM-2/with good 516f-2/664 electrovoice mic/w clamshell base. Hummmm, I wonder. So, how much for your 516F-2????????????

Collins 51S-1 for sale.

It comes with an excellent full copy of the manual, SSB/CW filter, and power cord. As always with older gear sold as is.

Very fine inside and outside. Has the NATO-MIL- modification with an extra BFO switch on the front , where the emblem should be, for extra bandwith on SSB signals. I do not have the emblem. Email me for pictures.

World wide shipping.

Selling for highest bid over $1000,- USD + shipping.

John,

Your rig is worth three or four times your asking price.

Is it destroyed?

73

Hello everyone

While looking at the list of Callsign Trustees with 2 or more calls at:
http://www.ah0a.org/FCC/Clubs5.htm
I put a number of the calls in the Repeater search engine at:
http://www.artscipub.com/repeaters/showrepeaters.asp

I noticed that a number of the clubs listed in the top 10% of the list do not have a repeater listed even though they are listed as networked clubs, repeater groups, systems and associations.

I found that to be really strange.. Dont you?
Then I looked at some of the club names and calls
This is what I found.
1) A number of different clubs have the same prefix's.
I find that confusing as it must be hard in that area
that quite a number of groups have the same suffix calls..
2) Some of the names of the clubs just scream out "Question Me"
These clubs that are named after sports heroes, the trustee or
their qth address, or other names such as the Jammers for Jesus
or the Richard Burton ARC (both who are finally being questioned
by Riley).
3) A number of different clubs that have the same issuance date
for the callsigns.. Is that strange that the boards and members
of these clubs can all agree on their calls at the same time?
4) If some of these trustees are supposed to monitor the repeaters
and other transmissions of these clubs, it must be hell to monitor
5 different repeaters at once to police the frequencies.

Ham Radio is supposed to take care of itself.. It seems that the only times Riley
and others have anything s after pressure has been applied by many
individuals or threats of government intervention by political officals
has been used as a last result.

I know of a few cases where Riley has questioned calls and clubs in this
matter and has taken action.. That has to be applauded.
Of course there are the clubs that have provided the correct information
of the groups existance and even though these clubs have constitutions,
membership lists, participated in contests and other social events,
and even issued nice membership certificates, these clubs were
not viewed as offical due to public misguided pressures.

Riley has alot to do to clean up this hobby and he needs our help.
Some of the things that need to be done is
1) The clean up of the repeaters and airways of Jammers and
action taken when such offenders have been identified.
(In South Florida a number of offenders have been identified, taped
claiming that they were the jammer, and have been verified
but credible folks such as offical observers, ect but nothing has been
done by the FCC. And We are not talking about Flippo.)
2) Actions taken by League Officals and other Amateurs who conduct
VEC exams, Emergency Coordinators ect, that violate laws, the amateur
code and even normal decency standards that nothing is done by the
amateur Supervisory folks (ARRL, Riley ect) until threats of
legal intervention are involved.
3) The groups on the airwaves who believe that they own their
frequency because the repeater is there or that their net happens
there daily (10-10 anyone?) who do nothing when their members
openly jam QSO's on such frequency in a malicious manner..
I have been in a number of QSO's and have listened to them also.
Then these folks have the audacity to claim that the stations in the
QSO are openly Jamming them because of being on their frequency.
4) These clubs that have to be questioned.. I have written to Riley

about a few clubs that are very suspicious due to content (some on a personal family level) and even one that on Usenet posted the true nature of their club.. Some of these clubs have a smearing nature to destroy certain hams and have posted that.. even using previous calls of that ham to ensure that.

Perhaps all of this is too much for Riley to handle?
I am not here to bash Riley but if it takes public pressure to get things to happen, perhaps we should let Riley know of this concern so we can get action taken before this hobby gets an even blacker eye.
Some of these actions and officals belong back on CB.

You can write Riley at rhollings@fcc.gov

Im not out to start a flame war or anything which is why I didnt name names or clubs but you can search on groups.google.com of such occurances of what I listed above.. One such example is
"Something Smells in West Palm Beach" about a VEC exam about 4 years ago where a handicapped VE was intimidated by the Head VE and others in the hopes of chasing the ham from the hobby.
Riley does a good job and is not to be bashed by this letter but this is written with the hopes that Riley will realize what the ham community is concerned about and will focus his efforts.

If you have any questions, email me and we can discuss.. there is no need to get into name callings or anything else.

James Keller W8WW

```

I got tired of straining to hear signals from AO-40 with my barbecue grill dish and developed a circular polarized antenna that WORKS! I talked a manufacturer into producing small quantities of these specialized AO-40 antennas, and I am now making this antenna available to the amateur radio community. It is an offset parabolic and there is NO aperture blockage of the incoming signal. Plus, you can connect your downconverter directly to the feed with no signal line loss. Extremely efficient, this antennas design includes many advantages over other dishes. I have current stock and most orders ship the same or next business day. The 3' N3IYR dish outperforms any other commercially available AO-40 antenna. Please visit my web site and look my antenna over. Leave me a comment if you like, or ask any questions you might have.
TNX es 73!

This is the hottest high end receiver ever made by National, and this one is in very good cosmetic condition. Contact me for pictures. Asking $600, or will trade for late model A/V receiver, or what have you. Will consider all offers.

ROFL!

Learn the art of sneaking a radio into the shack. That's why I keep a
few non-working rigs sitting around or disassembled in boxes to 'fix'.

New and updated as of 10/7/02!

You can download a ton of Allied SX/AX-190 receiver information in a single, 2.2 MB .pdf file here:

http://home.attbi.com/~akikoi/wsb/Allied-SX-190-Info-Oct02.pdf

The file includes:
Allied Radio Shack Service Manual
Allied Radio Shack Owner's Manual
Ad from CQ magazine, May 1972
Ad from Radio Shack catalog
Review from 73 magazine
NASWA review by Ed Shaw
QST magazine modifications
CQ magazine mods, March 1973, by Bruce Mackey
Bandswitch mods by John Kolb
NASWA-FRENDX mods by Ed Shaw, May 1974
Comprehensive Technical Manual by Ed Shaw
Getting Reacquainted with the SX-190 by Ed Shaw, 4/77
Allied SX-190 Revisited, by Ed Shaw, 6/82

Thanks to Bob Bachus for converting everything to .pdf format!

If anyone has cleaner copies or additional info, I'd like to add it to my collection. Please email.

Thanks!

MR

I collect old radios.  I put in shelves,  and filled them with wood
tombstone
radios.  There are soooo many in here,  that I can sneak in more and
the wife never notices.... Heee!

Peter

I have for sale a Drake R-4B receiver in very nice condition with
good condition copper. This receiver is sensitive, works well
and has no modifications.
Asking $170.00 plus shipping from Zip 76001. Shipment to continental
USA only.

I also have for sale crystals for the following frequencies for the Drake
R-4 line. Each is $15.00, postage paid to continental US.

3.0 - 3.5 MHz
4.5 - 5.0 MHz
15.5 - 16.0 MHz
29.0 - 29.5 MHz
29.5 - 30.0 MHz

hello,

Is there someone who can help me.
I want to use a MTS2000 II 800Mhz radio portable with a voice scramble
security board
inverse/rolling code scra. or DES/DVP/ect secure board.
Has anyone have experience with this, please mail me
I have a few questions about it.
norby@village.uunet.be
thanks

ron.

re: Kenwood tk-373

Yep, I've got the model number right. Kenwood has a new series of
Portable radios out, the tk-373 in UHF. It's so new, I can't even find a
picture of it on the web yet. ... but I'll find one or snap a picture of
it shortly.

Let me tell you about them... smaller than a tk-380 with the same type
bells and whistles plus. Does both conventional and trunking modes and
various combinations of both at the same time. It's standard commercial
range is 450 to 470Mhz, but I've also used it (same time) down on my
Amateur Repeater (ham) with great results. It also goes above 470Mhz.

So here's the story... I bought a quanity of these radios new and the
customer changed their mind and went to VHF. So I'm going to sell these
radios below regular dealer cost.

I had to buy the batteries, smart chargers and antennas for these units.

All have been checked, most all have no or little use time (other than a couple of daily demos and tryouts for a few of the batch).

If your serious about buying a tk-373 package at a price, drop me a reply Email to the address below. For less than the regular retail cost, I'll sell the radio, battery, antenna and smart charger!

I want to sell each radio with its new battery, antenna and charger complete in any number of said packages. The package price will be below dealer cost... yes I wrote dealer cost.

Full factory warranty and free programming. Please contact me if you have serious questions or are honestly interested in buying some radios. I've got 500 plus all positive ebay feedback, references and available repeater service in Northern California (Sacramento and North SF Bay Areas).

Should you be a local, I'll even give you 6 months free repeater service (not bad..!), trunking or conventional operation.

The TK-373 is a well built radio, full power... I think 5 watts (its been more than enough for regular repeater operation). The display is alpha numeric and programed to say anything. The really cool thing about the radio is that any of the front panel buttons can be made to do almost any function (channel/mode/system up and down, monitor mode, squelch on/off, scan, priority scan, add/remove channel from scan, light the display).
I really like the button assignment feature, does great things for conventional and trunking mode operation.

All the standard accessories are available. I can order anything you want from Kenwood. Or you can get them yourself off the web at higher prices.

Drop me a note if you have questions, please no spam or smoke blowing...

cheers and thanks for reading this...

skipp

The receiver described below is available for sale on EBAY

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=1382802762

TRANSIT NAVIGITATION SATELLITE RECEIVER

This receiver was manufactured by Westinghouse for the US Navy.

Was used with the Transit Navigation Satellite System in operation form the early 60's - 1996.

The Transit Navigation System is the precursor of todays GPS System.

This system was removed from a Polaris Submarine.� (Possibly the HMS Resolution)

A version of this system was on all Polaris Subs and was used to target the missles and position the sub.

Contition is Mint but I am unable to tell if it is operational as I do not have manuals, cables or other devices that may have been originally included.

What you are bidding on is the main reciever unit.

System is very heavy (1700Lbs) and will require road shipping.

I believe that this in the most hard to find of any military receiver.

Thanks for the visit.

I have a very nice Heathkit SB-221 2 KW amplifier that covers 80 through 15 meters. The pair of 3-500Z tubes will put out the legal limit.

Pictures are available at
www.iscdata.com/ebay/sb221.jpg
www.iscdata.com/ebay/sb221_1.jpg
www.iscdata.com/ebay/sb221_2.jpg
www.iscdata.com/ebay/sb221_3.jpg
www.iscdata.com/ebay/sb221_4.jpg

I would prefer to trade it for something along the lines of a Kenwood TS-50 or Alinco DX-70 type rig instead of putting it up for sale or putting it on eBay.

I am located in the Dallas, TX area and will deliver locally.

If interested email me at k5hj@qsl.net and lets see if we can deal.

Make me an offer!

I've got an Icom IC-2000H 2-meter mobile rig that I was using in the shack until a power surge (from lightning that came into our house on our ground line)zapped it. Cosmetically it's in mint condition, and inside no damage is visually apparent. But it doesn't power up. It could be dead as a doornail, or one component could be zapped and 50 cents will put it back in service. I haven't had it looked at and don't care to since it's been replaced. It's just taking up space in my shack. Manual, box, mike, everything included. All offers will be considered.

I also have an Astron RS-20A PS that suffered the same consequences. You can see a burn inside, right near where the power cord enters the power supply. Again, one cheap component may put it back in service or the entire thing may be gone. Again, cosmetically it's in excellent condition.

In the very least, both are salvageable for their cabinets and accessories. The mike on the IC-2000H is a DTMF mike with up/dn switches and a lock switch -- it also has a telephone-style 8-pin modular plug.

Buy at your own risk, and any price, no matter how low, will be considered! I'll be happy to e-mail you photos of both, inside and out, at your request. Let me know if you're interested.

Meade K4CMD

Need info on RACAL 90516 Antenna tuner, Specs etc.

Does anyone have any paperwork on this tuner?

Thanks Chris

FOR SALE:

Multi-Elmac mobile HF tube type receivers. These are pretty hard to find.

1) PMR-7 receiver has ten tubes, double conversion superheterodyne covering the 160, 80, 40, 20, 15, and 10 meter amateur bands, plus the standard broadcast band. Designed primarily as an efficient communications receiver for mobile use, it is also especially suitable, because of its small size, for (1) marine and aircraft installations; (2) portable operation; and (3) as a fixed station or monitoring receiver. It is not intended as a converter to accessory to another unit, but a complete receiver, employing a separate power supply and speaker as described in the manual. Every effort has been made to furnish the user with an extremely stable receiver of rugged construction, compact layout, and high sensitivity.

Very collectable...requires a power supply (See below)
Unit is in good condition. All original knobs - looks to be complete.
I have not fired it up as I do not have a way to do that easily.

The external dimensions of the PMR-7 receiver, including the control knobs are: height 4 5/8", width, 7", and depth, 11 1/2". The depth behind the panel is 9 7/8".

Available for $75.00 plus shipping

2) Model PMR-6A covers 160-10m ham bands.
Very collectable...requires a power supply (See below)
Unit is in good condition. All original knobs - looks to be complete.
I have not fired it up as I do not have a way to do that easily.
This is the matching receiver for the Elmac A54 and AF-67 transmitters.

Covers 160-10 meters on AM and CW.

Available for $50.00 plus shipping

3) Multi-Elmac 6V DC power supply - presumably will work with either
of the receivers.
Available for $30.00 or for $25.00 with either radio receiver above.

See N9BOR's site for pictures that will give you an idea of what these
radios look like if you are not familiar with them.

E-mail me to arrange purchase

i'm looking for a sb-220 or 221 with good tubes and
a good power supply for conversion to 6 meters...
any similar amp using 3-500's would also be considered...
i need a starter with two 3-500s, as i want to run full power on 6!

thanks
mitch, w4oa

MFJ-921 Dual Band VHF tuner covers 2 Meters and 220 MHz. Built-in
SWR/Watt-meter measures SWR in 2 power ranges 300 or 30 Watts. Meter
is usable for both 144 MHz and 220 MHz bands. Low SWR with practically
any antenna. Handles 200 Watts. Designed to match a wide range of
impedances for both mobile/base operation. SO-239 input/output
connectors, wing nut post ground. Eggshell white and black aluminum
cabinet. Fits just about anywhere.
Unit is in good condition. Some discoloration on top of chassis, and
some slight wearing of "Model" letters on front of unit (just under
MFJ logo), but unit is completely functional.

I just picked up a RELM RSP-400 with programmer for short money (I know, I know RELM....but the price was right and the radio was taken care of), and I'm looking for a SM45 Speaker mic, or any suggestions on a compatible alternative (without making one).

Any help is greatly appreciated. Pleas erespond via e-mail at edburke@firegroundphotos.net, as I don't get to the NG often.

FOR SALE:

Two James Millen adjustable coils on ceramic forms.
Type 69045 Dimensions 2-1/8" long X 1/2" diameter.
Single hole mounting, solder terminals.
QTY 2 available for $4.00 each
http://home.cfl.rr.com/happysurfer/imag/two_james.jpg

3 turn link with two tube plate caps attached.
Ideal for homebrewing.
Bakelite swinging arm for coupler. Pivot goes to ceramic "BVL" Jack
bar
with 4
metal jack sockets, and pivot brackets that are wired to two large
plate
caps made
for tubes with 1/2" diameter plate cap. Part of a BVL tank system.
Has enameled copper wire and some very useful hardware attached.
Link coil dimensions 2-1/2" diameter. Enamelled 18 gauge copper wire.
QTY 1 only at $5.00
http://home.cfl.rr.com/happysurfer/imag/3turn_link.jpg

6 turn air wound coil - airdux style. Dimensions 3/4" long X

2" diameter. Inductance 2.2 uH.
One only - available for $3.00
http://home.cfl.rr.com/happysurfer/imag/6turn_air_wound_coil.jpg

18 turn coil. Airdux style. 1.75" long and 2" diameter. 10 TPI.
12.2 uH. Will sell for $5.00
Similar to above coil only longer. Picture available.

30 turn air core coil. Dimensions are 4" long and 2" in diameter.
Inductance is 18 uH. QTY 1 only at $6.00
http://home.cfl.rr.com/happysurfer/imag/30turn_air_core.jpg

48 turn air core coil - airdux style. Has Dimensions 7" long X 2" diameter.
Inductance is 29 uH. QTY 1 only available for $10.00
http://home.cfl.rr.com/happysurfer/imag/48_turn_air_core.jpg

91 turn air core coil - Measures 6.5" in length and 1.5" diameter. 14 turns per inch.
65 uH inductance. Excellent with plexiglas support and four mounting holes. QTY 1 only for $12.00
http://home.cfl.rr.com/happysurfer/imag/91turn_air_core_coil.jpg

Ceramic coil, split off-center. Has total of 20 turns with a tap at 13 turns.
On white ceramic form - former dimensions 3" long X 1.5" diameter.
Coil length is 2". Inductance is 8.56 uH.
Qty 1 only for $3.00
http://home.cfl.rr.com/happysurfer/imag/ceramic_coil_split.jpg

Ceramic coil with approx 110 turns of green cotton covered wire.
White ceramic form has dimensions - 2" long X 1.5" diameter.
Inductance is around 330 uH. Suitable for AM band or LF applications.
Has screw terminals and solder lugs for connection.
New old stock. QTY 1 only for $4.00
http://home.cfl.rr.com/happysurfer/imag/ceramic_coil_with.jpg

Coil form, ribbed white ceramic. Dimensions are 5" long and 2" diameter.
Ribbed style with slots for wire. Designed to hold 26 turns and would have about 20 uH. Has 4 mounting holes on each end.
Has been repaired; looks fine, hence low price.
Qty 1 only at $1.00
http://home.cfl.rr.com/happysurfer/imag/coil_form_ribbed.jpg

Coil form - odd design ribbed ceramic former with 6 terminals on

base and three nice threaded holes for mounting screws.
Dimensions are 2-1/2" tall X 1-1/8" diameter.
Inner coupling coil is 7/8" diameter with tapped coil of enamelled
wire brought out to three terminals.
Qty 1 available for $3.00
http://home.cfl.rr.com/happysurfer/imag/coil_form_odd.jpg

Multi-tapped coil. Unique design attached to a PC board with a tap
for every turn.
Airdux type air core form. Coil has a total of 32 turns and dimensions
of
4" long X
1.5" diameter. Approx 12.5 uH.
QTY 1 available for $6.00
http://home.cfl.rr.com/happysurfer/imag/Multi-tapped_coil.jpg

14 MHz plug-in tank coil with link coupling. 20m coil on 5-pin base.
Marked as model 2420. Medium size. Airdux style coil has 11 turns
and the link outside it has 3 turns. QTY 1 only for $5.00
http://home.cfl.rr.com/happysurfer/imag/plug_in_coil_with_link.jpg

More soon.

As no new ChipSwitch cpu's are available from the vendor, I'm looking for one on the net, to upgrade my Uniden HR2600, replacing one a thief felt he needed to have.
Any info appreciated.

Dave

I dug out my original Collins 516F2 power supply speaker. Great condition, used with my original kwm-2a which I sold circa 1995 with the PM-1 power supply on the back. When parked, this unit worked great...

So what is one worth now'a days..?   I see some ads in various mags by guys buying them direct, but I've no idea what to ask...

your thoughts...?

thanks
skipp

Why is it that we must feel like we need to screw someone out of every penny that we can get for something?? Is that what this hobby and country have gone to?? I have given away parts to various rigs because I didn't have much invested. In fact there were times I gave someone a part to get their rig going just to keep another boatanchor on the air even though I had $$ invested in it. I belive for the most part everyone is not a gold digger. Keep asking an ignore the "freds" that want as much as they can squeeze the turnip for. 73 Larry WA9VRH

I can't figure out whether he should give it away, sell it at a loss,
make a small profit or keep it in
case someone really needs it.

He can't find what its worth, so he probably will keep it.

BTW, there is a link somewhere on the Almost All Digital
Electronic's website that gives eBay auction price spreads
for various pieces of ham gear,   that's where I would start
for some ideas of value.

Pete

FOR SALE
QTY 1 - Zenith hi-pass filter for TV set 75 ohm antenna lead-in.
This unit is in a shielded metal case with F type connectors for
input (fem) and output (male) to the TV set.
Will help to reduce that nasty herringbone modulation and
overload from your 375 watt AM rig when the XYL is
watching TV in the next room!

Available for $5.00 plus $2.00 postage.

FOR SALE:
Crystal sockets for HC-6/U crystals.
If anyone would like some, I have about 10 or 20 of these
available for $2.00 each plus shipping
These are new parts. They are teflon and anodized metal.
They have two hole side mounting, with a clip that nicely
holds the crystal in place.

Great for repairing older rigs, or for homebrewing tube transmitters
& receivers.
This is NOT the same as FT243.
These are for the similar sized crystals that have thinner pins.

E-mail me if you would like some.

Hi, Read your report of the Shelby hamfest and got to see another guys
pictures. Looks like there must have been some nice stuff there.
Wondering how much did you get for the SB110A station and what was its
condition?? Thanks 73 de Fred...

FOR SALE:
Philips tabletop receiver, with piano keys.

Made in Holland - type B3X98A
Covers AM broadcast band, FM broadcast band and two shortwave
bands from 1.7 to 18 MHz.

Has rotary controls for ON/OFF, Volume, Tone and Tuning.

Runs on 120V AC 60 Hz. Wooden case in fairly good condition but
has one schip that needs repair.

All original knobs and face plate is perfect.

Will sell for $25.00 plus shipping

E-mail me for picture or to arrange purchase

This is a fairly new 1.2 Ghz module for the FT736R.

Paid $539 new.  Now $475

See my ad on Eham at:

http://www.eham.net/classifieds/detail/58395

Thanks,

Don>>>KE7NR

> advise price and condition.
>

Just a word of advice; the digital display parts are getting rather hard
to find if the FT301D display unit goes bad. I'd recommend getting the
Analog display unit only, if you have a choice.

Ed   (FT-301S)

Hello,
Lost the manual for this HT and it has quite a few moves on it. Some
I just can't remember. I've searched just about everywhere I can think
of for it.

Does anyone happen to have one for sale, or know where I can find one
online? A copy or anything. I have the 528, but any of the 3 will do.

Thanks in advance.

FOR SALE:

British WW2 straight key - now reduced to $25.00

Shure 202 hand microphone
Gray, sharp appearance with RED PTT, excellent condition.
Great for use with any station - looks excellent.
Reduced to $25.00

Icom hand microphone, low impedance, black.
Picture available on request.
Not the 'HM-36' or any other mic for your late
model rig. Just a good mobile mic - probably went with an
IC-21 or IC-202 is my guess. No model number on it.
Will sell for $15.00

James Millen Company Grid Dip Meter with manual.
Model 90651 GDO mint in the original Millen carry case.
Best looking one you will find anywhere.

Available for $125.00

Omega - T antenna impedance noise bridge with instructions
This unit will analyze your antenna impedances and give lot of useful
information. Finds resonant point and impedance at various
frequencies. Now reduced from $50.00 to only $15.00

Meters:

RMCA 0 - 8 Amps RF. Black case that is 3" diameter. Meter looks new.
QTY 1 only at $10.00

0 - 10 mA - marked "Plate Milliamperes."
Sterling Manufacturing Co. 2" diameter with chrome finish.
QTY 1 for $6.00

Phasetron 0 - 300 A DC, new meter in box.
Needs shunt. Has black case and is 3" in diameter.
Very nice looking.
Qty 1 available for $8.00

Yaesu FT-100 w/ TCXO, 6khz AM filter, CAT and Packet cables

This is a great rig that I have been very happy with. My main use has been
6M, 2M and 70CM SSB/FM and shortwave listening. It has also been used 160M
- 10M by other HAMs during field day. I have never had a problem with it,
the built in DSP filters are great for pulling in the weak DX stations.

After purchase I added the TCXO and the 6khz AM filter, it also comes with a packet interface cable, computer interface cable and the original XO module.
I really like the FT-100 and have enjoyed hundreds 6M SSB contacts, the *only* reason I am parting with it is a 3000 mile move. I will not have the space or time for much more than using my HT.

Receive: 100 kHz - 961 MHz (Cellular blocked)
Transmit: 160 - 6 Meters 100watts, 2 Meters 50watts, 70 Centimeters 20watts
Emission Modes: A1 (CW), A3 (AM), A3J (LSB/USB), F1 (9600 bps Packet), F2 (1200 bps Packet), F3 (FM)

This item is listed with Ebay at

Your prices are a little high my friend.
Try looking at: http://www.allelectronics.com/index.html

Example: 1/2 inch with plastic snap is $1.50 each.

I just purchased a bunch, and they work great !

Hi everyone, this is your chance to purchase a table at the Clear Lake ARC HAMFEST 2002 on Sept 7th 2002

www.clarc.org/ereg.htm to order tables (you'll have to pay at the door) but please use this for sign up

www.clarc.org/hamfest.htm   IF you have an older netscape you won't see this page.. why?? Don't know

Directions to Hamfest

Get on I45 and go to NASA Road 1 - travel EAST - cross Tx 3, cross El Camino, nearing Clear Lake you'll see the HILTON HOTEL.. the next road is SATURN.. go past Saturn, then TURN LEFT at the NEXT SIGNAL LIGHT into the NON-WATER side of Clear Lake Park. Follow the road.. the building with the BLUE roof is the Bay Area community center.

73 and hope to see you at HAMFEST 2002

BOB KA5GLX

for sale:

NEW in box, pro 93 trunktracking scanner with all accessories that
come with it.

this is version 1.0  and i have found no bugs with this radio. It is
more stable than the 245xlt i use to have, and the pro 92b that i
do have.

it comes with winscan software and computer cable for programming.

199.00US includes the express insured shipping with a tracking number

thanks

How do you know all this if the radio is "NEW in box"???
Let me guess. The ever popular "I bought the radio, and only took it
out of the box to see if it worked." This is a strange phenomenon
found most often on eBay. People buy radios only to take them home and
test them, and then sell them for a loss.

....And there are no version 1.0's without the text bug.

The one where the 1.00 firmware uses an 8 bit counter - which goes from 0 to 255 - to keep track of the text tags in 300 channels.

I can't do modulus 30 arithmetic in my head, but in decimal terms the text tags for the first 44 channels and the last 44 channels share the same address space and will overwrite each other.

This bug has been thoroughly documented (see discussions at the Yahoo! PRO-93 group) and recognized by Radio Shack as a manufacturing defect. All version 1.00 radios have it. Later versions do not.

But I'm kind of wondering...since your radio is "new in box" when would you have had the opportunity to see this bug in action?

Here are a few details of interest those not familiar with this radio:

1. It lists for $249.99, and has a history of going on sale for under $200.

2. If you have a Version 1.00 that is under warranty, Radio Shack will fix the text bug for free.

3. RS does not make an interface cable for the PRO-93, but it's the same as for the PRO-92, now discontinued. All interface cables for this radio are third party or home made. There are some excellent varieties of both: see http://www.pro-92.com/pcifcable.htm for a rundown. When buying a cable from someone, you have to check whether it's a full two-way cable or just one-way. One-way cables are definitely inferior.

4. The preferred software - by a huge margin over any of the others - is a free download from http://www.starrsoft.com/freeware/Win93/

Don't answer a question with a question.
I thought the radio is new? How do you know if it has bugs or not?

So it's not new...it was used for a week.

When you programmed it, did you put text tags into channels in all the
banks?

"New" = new.
"Used it for a week" (which probably really means 8 months since it's
a Version 1) = used.

New condition Yaesu VX7, includes original documentation and box. Warantee card still blank. Unit is about a month old.
Price $340 shipped, Paypal or Money Order only.

Below is from the Yaesu website.

50/144/430 MHz: 5w Power
Dual Receive: V-V/U-U/V-U/GEN-HAM
Continuous AM/FM reception coverage of 500 kHz to 999 MHz (cellular frequencies are blocked and non-restorable)

450 "Main" Memories
10 One-Touch (OTM) memories
Store your most-used frequencies in the quickaccess OTM bank!

40 Programmable Memory Scan (PMS)

Band-Limit Memories Use the PMS memories for setting upper and lower scanning/operating limits in the Amateur bands.

12 Home Channel Memories

The "Home" channels may be set to a "favorite" operating frequency, or a central operating frequency that may be used as a starting point for operation. The 430 MHz Home Channel is also used for the "Emergency" beacon.

10 Weather Band Memories (U.S. Version)

Ideal for quick access to the Weather Band broadcasts, these memories may be scanned in search of the loudest Weather station in your area.

89 Shortwave Broadcast Station Memories

The most popular HF Shortwave Broadcast stations are pre-stored at the factory, for instant selection of your favorite station and program.

280 Marine Channels

The huge 280-channel Marine Bank allows full access to the excitement of monitoring the world of Marine operation.

10 "Hyper" Memories

The Hyper memories may be used to store and recall a complete set of transceiver configuration data, such as Dual Receive status, Spectrum Scope configuration, scanning features, etc

For Sale:

- Kenwood TS-930 Ham Tranceiver with Autotune

- Alpha 374 (ETO) NO TUNE amp (works on 10 meters too)

Where: Both are located in Dallas, Texas (near North Park Malll)

Who: The owner Mel, K5QXY wants to sell both. There are too large for his limited space. He may be interested in a trade for a smaller late model rig with power supply.

Price: Receptive to reasonable offers. Contact Mel direct at k5qxy@arrl.net

Please do not reply to this newsgroup posting as Mel, K5QXY DOES NOT read newsgroups and please do not send email to me. I am just posting it for K5QXY.

1970-era Curtis EK-38 "Electronic Fist" Keyer! In Very Good condition, works fine, case is in very good condition, with just a couple of very small chips! Nice for a collector with a vintage station, or for someone looking for a good, usable keyer. There is a sidetone provided, with volume control. All cables and manual included.

1. Model YF-112A 6 kHz AM Crystal Filter. Like new. In original box.

2. Model YF-112C 500 Hz CW Crystal Filter. Like new. In original box.

3. Model TCXO-4 Temperature Compensated Crystal Oscillator. Like new. In original box. It is also designed for the FRG-100(B) receiver.

All items were purchased new, never used. Selling because I do not have the transceiver anymore.
Asking $65plus $5 to ship/insure USPS Priority Mail for each item. Buy all three...I pay shipping. Terms: USPS Money Order or PayPal.

Lynn, N8AJ

For Sale: Barker & Williamson PT-2500A Deluxe Linear Amplifier. Brand new and unused in the original factory carton (from the estate of a silent key). Features:

- Deluxe, heavy duty construction- weighs 85 lbs!

- Full 1500W legal limit output

- Covers 160 through 10M coverage.

- Separate filament transformer.

- Built-in heavy duty 3600 volt d.c. plate supply uses computer grade caps

- Optional Auxiliary Cooling Fan for continuous duty modes.

- Blower and individual chimneys cool a pair of 3-500Z 's (tubes were damaged in transit and are not included).

Unquestionably, the best dual 3-500Z amplifier ever built. $995. You ship.

Great AMP puts out a solid 1.5KW and it does not sink on key down. Sorry I
let mine go. Alan K4AVQ

Mine had severe parasitic problems that developed about 6 months after I got it. Burned up the bandswitch. Allan Measures helped me quench the demons. Otherwise, a great amp.

Bill Evans VE4UD

OK, slashing price on this to the "disposal level."
Next step will be to send it to the dreaded eBray.
At this low price you can't afford NOT to buy it!

CLASSIC 1940s-50s Differential 'T' ANTENNA TUNER
Large roller inductor type with turns counter.

Heavy duty large components Two variable capacitors,
looks like it would handle a kilowatt with ease.

The versatile circuit is configurable for either series or
parallel 'T' configuration. Has jumpers in front to change
set-up easily.

Has built-in SWR bridge featuring an E.F. Johnson meter with
controls for FWD, REV and gain.
Case is metal with hammertone gray finish,
and has a removable lid.

Final reduction to $75.00 plus shipping

E-mail me to purchase

rec.radio.amateur.equipment:32481 rec.radio.amateur.swap:3320

For sale:
Alinco DJ-180T 2m (VHF hi) handie-talkie
solid, reliable HT, up to 5 watts output
130-174mhz RX & TX (modded),10 mem channels, ctcss encoder

comes with standard nicad battery, 12v nicad battery, DC adapter (for
cigarette lighter or powersupply operation)
I dont have the charger, manual, or box for this. I will warranty the radio
against DOA, but not the batteries since they are used and several years
old.
for details:

The VX-5R is a tri-band radio with coverage on 6M, 2M, and 440 MHz as well as wide band receive. The radio is in excellent condition both electrically and aesthetically - no scratches to crystal, great sound quality. In addition to the basic wall charger, there is a speaker-mike, a Comet SMA-24 2M/70cm antenna, the CD-15 rapid charger (charges the battery in about 2 hours instead of 4-5), a "pouch" soft case, the barometer/altitude sensor (installed), and the ADMS-1E Windows software and cable for progamming. $250 + shipping.
